#### Few Drops on a Corn or Callus

Instantly stops pain and they lift right off with fingers.

This tiny bottle holds the wonder of wonders. It contains an almost magical drug called freezeone. It is a compound made from ether. Apply a few drops of this freezeone upon a tender, aching corn or a hardened callus. Instantly the soreness disappears and shortly you will find the corn or callus so shriveled and loose that you just lift it off with the fingers. It doesn't hurt one particle. You feel no pain or soreness when applying freezeone or afterwards. It doesn't even irritate the skin.

Just ask in any drug store for a small bottle of freezeone. This will cost but a few cents but will positively rid your poor, suffering feet of every hard corn, soft corn, or corn between the toes, or corn between the toes, or the tough calluses on bottom of feet.

Women! Keep a tiny bottle on the dresser and never let a corn ache twice.

We buy everything you want to sell. McGuire & Co.

The fate in the Commons of certain measures initiated in the Senate is in doubt. Senator Lynch-Staunton is the father of a measure to compel dealers in German and Austrian goods to advertise the fact. The bill stands for third reading. That it will pass is fully anticipated, therefore it must come to the Commons for consideration.

A daring robbery was discovered in Niagara Falls, N.Y., at Amberg's, a big department store, goods amounting to \$800 being stolen this morning. The robbery was discovered on opening today. It is claimed that an automobile was used and the thieves were evidently familiar with the lay-out of the store, for only the best grades of goods were stolen. The loot was made up chiefly of Men's suits, shirts, ties, etc. Of shirts nothing but silk shirts were taken.

#### ALGONQUIN PARK

In the Algonquin Park of Ontario, Canada possesses a virgin wilderness within easy striking distance of civilization and city life. Here the tired business man and his wife and daughter—can get out into the big open spaces, brush away the mental cobwebs and feel the red blood course through the veins once more. When the breathless rays and glaring heat of summer make life in the city a burden, Algonquin Park (only 200 miles north of Toronto an 4170 miles west of Ottawa) is a place of refuge and enchantment. This great reserve of nearly three thousand square miles is on the very ridge or the "Highlands of Ontario." Its altitude above sea level averages 1,700 feet while some of the lakes in the park are 200 feet above the sea. The "Highland Inn" offers comfortable accommodation at reasonable rates. Make your reservations early as the probabilities are that the available accommodation will be taken up early this season. Write N. T. Clark, Manager, Highland Inn, Algonquin Park Station, Ont., or apply for information to any Grand Trunk Agent. A-24.

PARIS, April 24—"Seeing snakes" will be a regular daily experience of husbands in Paris if the newest craze of fashionable women here gains popularity.

A stylishly attired woman, taking tea at the Claridge yesterday afternoon, suddenly opened her handbag and carelessly unloosed a slender green and gold snake, about two feet long, which wriggled to the floor and disappeared up the trouser-leg of a terrified waiter who fainted on the spot.

Rushing to the waiter, the woman calmly extracted the pet, replaced it in her handbag, and swept indignantly out of the restaurant. Afterward she complained to the manager that her favorite reptile was indisposed as the result of having bitten a plebeian waiter.

The manager requested her to move explaining that while he had kennels and cat houses, and bird cages, and even an aquarium for his guest's pets he had neglected to provide a suitable home for snakes.

Today, however, he discovered that no fewer than five women in the hotel own reptile "pets" and refuse to part with the "little darlings" which they maintain are "perfectly harmless."

The snakes were obtained by their present owners from Mme. Phisalix wife of the inventor of the anti-snake bite serum, who is now ill as a result of her refusal to counteract a snake bite because she wanted to make a scientific experiment.

Mrs. Phisalix herself, however, does not think snakes are suitable pets. She prefers toads which she says are ever so much more affectionate, never forget a kind act and what is more, contrary to the general superstition, have very clean habits.

ROCHESTER, April 24—After deliberating for eleven hours and fifty minutes a supreme court jury at 10:25 o'clock last night brought in a verdict of murder in the first degree against James L. Odell, indicted with his wife, Pearl Beaver Odell, for the murder of Edward J. Kneip on the night of January 7. Immediately after the verdict was announced Odell was sentenced by Justice Robert Thompson to die in the week of June 13.

Weighed down by the nervous strain of the trial and her own heroic efforts to save the life of her husband through a sacrifice of her own honor, Mrs. Odell suffered a complete relapse at the Monroe County Jail this morning shortly before the hour set for the opening of the final session of court. A mere slip of a girl physically, her superb carriage through the trying ordeal of the last three days was purely on the strength of her supreme endeavor to do her utmost for the man she loves.

Although the outcome of the present case may have considerable bearing on the trial of Mrs. Odell due to be called for the latter part of May, it is believed that the defense in her case will take such course as will give it a decidedly independent aspect, or present condition is such that an important event is expected before the calling of her case next month, which is expected to have an important bearing on the jury's attitude toward her. In the testimony which she gave in the trial of her husband, she did not go into the details of the actual killing of Kneip, her lawyer asserting his legal right to prevent his client from incriminating herself.

On Monday C. J. Coppen, convicted by Mr. Justice Latchford and a jury of the murder of his wife in North Toronto last fall, will learn his fate. Coppen is under sentence to hang on May 5, and on Monday the First Divisional Court will give judgement on his stated case. Coppen will either hang or will be given a new trial.

By agreement to submit the question of the grievances of the men to a board of arbitration the N. S. & T. R. strike arranged for this morning was stayed today.

A committee of the City Council last night by agreement and after the pros and cons had been thoroughly discussed the men's committee agreed to put off the strike until something can be done by an arbitration board.

The City Council met at 7:30 and Mayor Lovelace explained that the meeting had been called to try and avert the threatened strike which would mean tremendous loss and inconvenience to the public.

The aldermen agreed with this and were in a mood to try and settle any trouble before the drastic action threatened by the men actually occurred.

Ald. Graves, Rose and others thought the council should do everything in reason to prevent the strike.

WASHINGTON, April 30—Plots against the lives of more than a score of federal and state officials have been discovered by the department of justice as part of radical May day demonstrations, Attorney General Palmer announced last night.

The assassinations and assaults Mr. Palmer said, were included in the May day programme organized by the Communist Labor party and other radical elements and were in addition to strikes and other disturbances intended by the radicals as an effort in behalf of peace with soviet Russia.

State officials marked as victims have been notified by the department the attorney general added, of the information in the hands of the federal government and their co-operation requested repressing radical demonstrations.

The department has information according to the attorney general that the instigators of the May day demonstration here have been working in direct connection and in unison with the leader of disturbances in Europe. As in Europe, attempts are being made to incite strikes in all basic American industries, Mr. Palmer said, although he did not believe they would be successful.

All of the propaganda advocating May-day disturbances repressed, inhuman treatment of the soviet government of Russia by the United States and the Allied Powers, Mr. Palmer continued, in foreign sections of industrial centers, appeals for peace with the main method of stirring up dissatisfaction with the government, Mr. Palmer said. Strikes and disorders he added, simply meant to emphasize to American officials, the threats of radicals must be resumed with Russia.

Tons of inflammatory literature have been circulated in the last month by express and freight and are being distributed by local leaders, according to information obtained department agents. The Communist Labor group also has sent numerous personal emissaries into cities where the field was deemed ripe, Mr. Palmer reported.
