**AWAY OFF IN THE WEST.**

How the Contingent from Goderich has  
Fared in Dakota.

By the kindness of Mr. G. W. Thom-  
son we are enabled to publish the  
following interesting letter from our  
former townsman, Mr. James Thomson,  
now of Dakota:

**PRAIRIE HOME,**  
Boswoment, Pembina Co.,  
Dakota T.,  
Nov. 24th, 1881.

DEAR BRO.—You have asked me to  
give you a general account of how I  
have got on during the summer, what  
kind of weather we have had and are  
now having, and how those who went  
out with me are doing, and how we all  
like the country.

In doing this, it will be necessary to  
tell you a little in detail of my work  
during the summer. My wife and I ar-  
rived here on the 23rd of July, and  
during my absence the boys had broken  
no less than 170 acres. I had intended  
to have 200 broken, but on account of  
the burning of my stable and the loss of  
my best team, it fell 30 acres short of  
our expectations. However, I felt very  
well satisfied that so much had been  
done. As soon as I got out we com-  
menced putting up hay, and succeeded  
in curing about 60 tons. When that was  
done the harvest was ready. We cut  
40 acres of wheat and 10 acres of oats.  
We had very hot harvest weather. Just  
after I had got it cut, and in the stock,  
we had a series of rains, so that in order  
to get the straw threshed we had to stack  
it, as the weather is so back even  
if the weather is a little damp. When  
threshed we had 800 bushels of wheat,  
and 400 of oats, half of which was my  
share as I had the land on shares. We  
paid the steamer for threshing, 5 cents a  
bushel for wheat, and 3 cents for oats,  
and provided grub and sleeping room for  
the men, and fuel for fire. It took  
about 19 men to attend the machine, five  
of whom go with it. The rest you have  
to hire, and pay \$1.50 per day and  
board. We also had teams to draw it to  
market, so that when the last straw was  
threshed we had only one load to take,  
the others having been drawn away as  
fast as it was threshed. This is the way  
all do, who are within a reasonable dis-  
tance of the river. The wheat at I think  
was not in very good condition on ac-  
count of the wet weather. I sold it at  
once for 94c a bushel; had I kept it for  
three weeks I could have got \$1.25, but  
we can't foresee those things. After har-  
vest we at once went to outfitting. In  
the meantime my son James thought  
he would like to go and earn some money  
at his trade during the fall and winter,  
so I took his place at the plough. We  
had a big task before us, 170 acres to  
turn over before the beginning of Nov-  
ember, as we expected it to freeze up about  
then. So at it we went, George with his  
team and 12 in plough, Herb with 3  
horses, and a 14 in. and myself with the  
oxen and a 12 in. plough. We managed  
to turn over about 5 acres per day, and  
before the frost set in we had our task  
completed as far as we could do so, a few  
acres not being sufficiently rotted; for we  
will easily do in the spring. In the  
meantime we also backed 8 acres for  
John W. Pharis, and created a farm  
stable for our horses in place of the one  
burned 23rd July, and a sod stable for the  
oxen, cow and calf, 12x16. The pro-  
ceeds of the summer's work is as follows:

60 tons of hay at \$2.00 ..... 120.00  
40 acres of wheat at 94c ..... 376.00  
10 acres of oats at 50c ..... 500.00  
200 bushels of wheat and 400 of oats  
at 1.00 ..... 600.00  
Total ..... 1496.00

As to the weather. Well, in the early  
part of the summer it was dry; so much  
so that the wheat in crops on the soil  
did not rot much as they expected.  
As to my own, I don't think it was  
so very bad, as I turned my horses in  
and they did not get very much. During  
the harvest it was wet, an unusual thing,  
they say. We had then a fine fall, and  
the wet weather made the backing  
very slow, being opened about the 15th  
of August. I was sown from that till  
the 20th of May, and harvested from the  
10th of Aug. till the 10th of September.  
The average yield of wheat is 20 bush,  
and of oats 10 bush. Navigation com-  
menced on the 15th April, and closed 15th  
of November. Fishing ceased on the  
15th of November. During the summer  
we were troubled with very high winds,  
but not so much to the crops in this sec-  
tion as was imagined thereby. In the  
early part of the season the mosquitoes  
were troublesome, but not more so than  
I have seen them in Ontario some 40  
miles from here. There are pretty much  
all the same as in Ontario, and I think  
the mosquitoes are not so bad as in  
some parts of the West. The mosquitoes  
do not seem to be so bad as in some  
parts of the West. The mosquitoes do  
not seem to be so bad as in some parts  
of the West. The mosquitoes do not seem  
to be so bad as in some parts of the  
West. The mosquitoes do not seem to be  
so bad as in some parts of the West.

**Runaway.**—A team belonging to Mr.  
W. Cobb started from Holmesville for  
home at a pretty lively pace last week.  
No damage done.

**Rev. Dr. Williams,** of Goderich,  
preached an excellent sermon on Sunday  
last. On Monday he gave a splendid  
speech at the Missionary meeting.

**Donmiller.**  
The average attendance at the M. E.  
Sunday School at present is 60.

**Mrs. Ginn,** of Goderich T.P., is dan-  
gerously ill. His friends have secured  
the services of Dr. Stewart, of Bruce-  
field.

**PERSONAL.**—Mr. W. Coleman, a Cana-  
da Company surveyor, was surveying  
his property here. He intends coming  
back in the spring to finish.

**Mr. D. Fisher** has erected a wind mill  
for the purpose of pumping water. He  
intends to force it through the necessary  
parts of the house by the use of the mill.

**Bayfield.**

**DIPHTHERIA.**—A number of young  
people are suffering from throat diseases;  
some three or four deaths have occurred.

**TEACHER.**—Miss Jane Struthers of the  
Bayfield school, is engaged to teach in  
St. N. S. M. for the coming year at  
\$225 per annum.

**ACCIDENT.**—On Thursday last, Mr. J.  
Whiddon, who is working for Jas.  
Thompson, was engaged in bringing  
some logs from the dam to the mill, by  
some means or other he lost his balance,  
took a header from the saw on which  
he was standing and disappeared in  
some 20 feet of water. He was rescued  
by his comrade.

**MINISTERIAL.**—The ministers of this  
place are not neglected. Rev. Mr. Mc-  
Cosh gets a fur overcoat. Rev. Mr.  
Dunlop, oats and potatoes. Some of the  
members of Rev. Mr. Livingston's church,  
knowing that their minister could ap-  
preciate a good practical joke as well as  
any preacher, quickly deposited five-hundred  
bushels of oats in his stable on Thursday  
night last.

**Mr. John Dempsey** has purchased a  
frank cottage and 1/2 of an acre of land in  
Clinton for \$1,500, and intends to move  
thither shortly.

**Mr. W. Cobb** started from Holmesville for  
home at a pretty lively pace last week.  
No damage done.

**Rev. Dr. Williams,** of Goderich,  
preached an excellent sermon on Sunday  
last. On Monday he gave a splendid  
speech at the Missionary meeting.

**Donmiller.**  
The average attendance at the M. E.  
Sunday School at present is 60.

**Mrs. Ginn,** of Goderich T.P., is dan-  
gerously ill. His friends have secured  
the services of Dr. Stewart, of Bruce-  
field.

I consider he has done more work than  
any one of us, having done it all or  
nearly all himself. Both of those friends  
had to put up houses and stables. They  
consider they have done well, and are  
much pleased with the country so far,  
and think their prospects much better  
than they could possibly have been had  
they remained in Goderich. R. R.  
Thompson, who lives about 6 miles from  
me, has got, I understand, about 30  
acres prepared. F. Davis has about the  
same. Both of those gentlemen had  
land on shares this year, on which they  
raised a fair crop, and are, I believe,  
well pleased with the country. The  
thing I can say for friend Thompson  
having much better health in his present  
vocation than when in Goderich, so has  
his wife and child. Abe Cox, whose es-  
tate is 1/2 of a mile from me, and is known  
by the outlandish name of "Killeobin,"  
has got about 35 acres prepared for seed  
in the spring. His claim is a valuable  
one, and he will do well next year. He  
is our funny boy, and is welcome where-  
ver he goes. John W. Pharis only got  
out too late to do anything this fall, but  
he has got about 15 acres prepared for  
seed. He has got a snug house up and  
a good sod stable for his stock. He and  
his wife are happy and contented, and  
so far like the country. R. Jamieson  
has just commenced to put up a house  
and as he will be home almost as soon as  
you receive this, he can tell his own  
story. There is no land to be had with-  
in 20 miles of me, that is fit for settlement,  
although men who have means can get  
it reasonably, as there are young men  
who wish to go further west and take up  
more land and would willingly sell in  
order to give them the start, and so on till  
I get 500 under crop. Then I think I  
shall be satisfied. We are having a  
railroad constructed about 8 miles west  
of us, and another is projected to run  
along the river, touching at the towns  
on its bank; this one will be very near  
us, and will raise the value of land very  
much. Now to sum up, the prospect of  
myself and all those who came with me  
are good, and our only regret is that  
we did not come years ago to this or  
some other part of the North-west, for  
while I speak thus, I mean Manitoba, as  
well as Dakota, only the further north  
you go the seasons get shorter, and I  
think we are about far enough north. I  
would certainly not advise a man with a  
large family to come here unless he had  
at least \$1000, and then he would have  
hard enough pinching for a few years.  
A young man could do very well with  
say \$500, but to start a farm on a rea-  
sonably large scale, one must have, say  
\$2,000, it has cost me nearly \$3,000 to  
maintain my family up to the present  
time and run three teams, but I hope to  
have it nearly all returned next fall. I  
know of no country where a better in-  
vestment or quicker return can be had  
than this. Your returns are only limited  
by the means you have to turn over  
the soil. A man with limited means can  
get as much land to work on shares as  
he wishes; and there is no scarcity of  
work from the time the spring opens  
till the frost sets in, after that time  
cesses. Teams here are worth from  
\$300 to \$400; pair of oxen from \$120 to  
\$175, cows from \$35 to \$50, hogs are  
very scarce, and sheep, I have seen none,  
although I can't see why they would not  
do well here. I will now close, having  
answered your questions as fairly as I  
can. JAMES THOMSON.

**Friday night last** the Zurich Liter-  
ary Society held its first public meeting  
for this season, Dr. Buchanan in the  
chair. A very fair, but rather short,  
programme was carried out.

A series of protracted meetings have  
been held for five or six weeks on the  
Sauble line by the M. E. Church, and in  
consequence there is a great number of  
converts.

Butcher has been very general  
among farmers' rounds here lately, and  
the amount of sausages made in this  
township last week would be enough to  
appal any but a German.

**Brussels.**

**TAXES.**—J. D. Ronald has paid his  
taxes into the Court of Chancery at  
Chatham instead of handing them to the  
Collector in Brussels.

Reeve Rogers brought to our office a  
sample of salt from his well last Thurs-  
day. It is an excellent article and yields  
abundantly from the brine.—[Post.

John E. Smith lost a pocket book con-  
taining about \$70 last week on Main  
street. He promised an oyster supper  
to the parties finding it. In kicking the  
snow he found the missing treasure.  
He treated the boys to the oysters.

**Seaforth.**

The railway fever still rages with great  
violence, and nearly all of our merchants  
are affected.

**Bazaar.**—The bazaar conducted by  
the young ladies of the Methodist church  
was in all respects a success.

**Taxes.**—Mr. John Morrison, the ge-  
neral tax-collector, is now doing the town-  
ship. We learn he is meeting with a  
kind reception.

**CORWOOD.**—During the few days of  
sleighting a great quantity of wood was  
brought into town; the price fell from \$4  
to \$2.75 and \$3 per cord.

**GOOD THRESHING.**—A few teams thro-  
wing the Messrs. Murray, of steam threshing  
machinery, threshed on the farm of Mr.  
Jas. Keery, of McKillop, 200 bushels of  
oats in 40 minutes.

**A STRIBING LITTLE PLACE.**—Five  
miles north of Seaforth on the Northern  
Gravel road, is situated a flourishing  
little place called Winthrop. Consider-  
able business in here carried on, and  
what is most remarkable is the fact that  
it is carried on by one man, viz: Mr. An-  
drew Govenlock. There are a large grain  
and flouring mill, a large saw mill in  
course of erection, a general store with  
a furniture and tailoring department,  
and a blacksmith shop, all owned and  
controlled by one man. And last, but  
not least, temperance and justice are  
dispensed by the same hand.

**Dungannon.**

Mrs. Thos. Smylie is visiting friends in  
Kinloss. We are pleased to hear she is  
improving in health.

Mr. B. J. Crawford bought, on Satur-  
day last, a fine blooded horse from Mr.  
Bailey of Goderich.

Mr. Wm. Harris sold last week a fine  
team to Mr. A. M. Polley, of Goderich,  
for \$500.

Mr. Robt. Pentland has been making  
improvements to his residence by the  
erection of a commodious kitchen and  
washhouse.

The Methodist Church choir intend  
having a concert shortly. A concert un-  
der such auspices will be largely at-  
tended.

**CHURCH SOCIAL.**—The social in the  
Presbyterian church here on the evening  
of Thursday last, was a complete success.  
The number present was large, and all  
seemed to enjoy themselves thoroughly.  
Dialogues and recitations from the  
Sabbath school children was a feature  
that added greatly to the entertainment.  
The repeat, the speaking from Rev.  
gentleman present, and the music from  
the choir, was also excellent. In short,  
everything was all that could be desired.

**PARADEL SUPPER.**—A farewell supper  
was held at Mr. P. E. Haulin's  
dwelling on Friday evening last, by a few  
intimate friends, to honor of Mr. Thos.  
Ball, prior to the departure of the young  
gentleman for Clinton, where we much  
stand he has secured a good situation.  
The affair was perfectly arranged, and  
the table was cleared, suitable addresses  
were made by all present. A splendid  
reception was given by Mr. Fisher, and  
the songs by Messrs. Harkin, Wilson,  
and Pentland were excellent. Mr. Ball  
leaves behind him many warm friends,  
who will miss greatly his genial smile  
and hearty voice. He left Saturday  
morning, and carries with him the best  
wishes for his future welfare, of all his  
old friends and acquaintances.

**CANADIAN NEWS.**

The emigrants from Canada to the  
United States during 1881 number  
118,064.

Joseph Rymal, M. P. for South Went  
was prostrated by a paralytic  
stroke about a week ago. He is re-  
covering.

A change of gauge was effected on  
Saturday on the T. G. & B. Railway.  
Three trains of the new rolling stock  
passed over the C. V. Railway on that  
day to Orangeville.

At the Ottawa Police Court Monday  
a man named Joel Plouffe was sentenced  
to one year's imprisonment for the lar-  
ceny of a pair of pants owned by a man  
named Paul Larou, of Montreal, with  
whom he had eloped.

**Hotel Changes.**—We are informed  
that Mr. John Hawkshaw, of Exeter,  
who a few days since leased the Royal  
Hotel, Winthrop, has since purchased  
the hotel property of his brother Wil-  
liam in Exeter, for \$9,000, and will at  
once assume possession of the same, his  
brother going to Winthrop.

An eloquent proof of the benefit de-  
rived by the people from the N. P. R.  
given by the Brockville Recorder, On  
the United States side of the St. Law-  
rence, opposite Brockville, coal oil can  
be bought for eleven or twelve cents per  
gallon, while in Brockville the price is  
from thirty-five to forty cents. Yet the  
organ says that the tariff has not increas-  
ed the cost of living.

**Burglars entered the store of Blyth &  
Kerr, Ottawa, and blew open the safe.  
Eighty dollars in money and a quantity  
of valuable goods were carried off.**

As Mr. John Prout was returning  
from the poll at Harvey hill, (Quebec),  
on Friday last, in company with Messrs.  
Oliver, Martin and Barritt, he fell dead  
in the vehicle.

A prominent merchant of St. Rochs,  
Que., was on Saturday the recipient of  
\$300 at the hands of Rev. Mr. Gosselin,  
curé of St. Rochs. The amount had  
been handed to the rev. gentleman by a  
penitent defaulter.

William Waggoner, proprietor of the  
Waggoner hotel, Kingston, was conversing  
with Dr. M. Sullivan. He was telling  
him that he didn't feel well, having  
shooting pains. He had only made the  
expression when he fell to the floor and  
expired. He was 38 years of age.

Application will be made at the next  
meeting of the Ontario Legislature for  
power to enable the Grand Trunk to as-  
sume control of the Toronto, Grey &  
Bruce Railway. At a mass meeting of  
Grand Trunk drivers held at Stratford a  
few days ago it was decided to ask for fif-  
teens cents per hour for detention time. No  
action will be taken at present. It is  
rumored that Manager Hickson, while  
in England, engaged a number of driv-  
ers to come to Canada and work on the  
Grand Trunk.
