The late Hugh Johnston was well known by all the old settlers of the Huron tract, having for many years been a resident of the section, and a prominent figure in local politics. Some years since he located in Texas, and in conjunction with his sons, went largely into cattle ranching in that State.

THE I. O. O. F. EXCURSION.-The excursion to Fort Huron on Thursday of last week, under the auspices of the I. O. F., was largely attended and successful throughout. Henderson, formerly of Goderich, and well-known as a bicycle rider and singer, has gained honors as an amateur sculler: "It was about 7:35 when Henderson and Stillington came to the starting point. The boats were clinker-built, with sliding seats. In the toss for position Henderson won the north side and Stillington the south. The two started with the word go and Stillington got his oars in the water first. His start however was not a good one, Henderson's being smoother and cleaner. Away they went, both rowing at a lively pace.

THE FOLLOWING ITEM from the Peel Banner of last week refers to the roller mill recently erected in Brampton by Pearen Bros., of which firm Mr J. V. Pearen, formerly of this town, is a member: "Steam was got up in the new flour mill last week and everything moved off but-rates. So well then the shafting and machinery were lined that two men on the main belt can move all the machinery in the building. For several days the mill has been running light to enable the machinery to wear to its bearings and become thoroughly oiled. The Pearen Bros. hope to start grinding wheat today.

GODERICH TRULY ASSOCIATION MEETING.-The first annual meeting under the auspices of the Goderich Trul Association will be held on Wednesday next, Aug. 21st, and promises to be one of unusual attraction to lovers of horse racing. The association is on a good financial basis, and the committee has spared no effort or expense to put the Agricultural Park track in a condition second to none. The program will consist of four races as follows: 3 minute trot, purse \$100; 2:40 trot, purse \$150; free for all, purse \$175; and green trot, purse \$75. All races eligible to pacers or trotters; entries close on August 17. Mr A. Murdoch, Goderich, is secretary.

NEWSPAPER DUNS.-We suppose many people think newspaper men are persistent duffers. By way of comparison let us suppose that a farmer raises 1,000 bushels of wheat a year, and he sells this to 1,000 persons in all parts of the country, a great portion of them saying: "I will hand you the dollar in a short time." The farmer don't want to be small, and says all right. Soon his 1,000 bushels of grain are gone, but he has a little to show for it, and he then realizes that he has frittered away his whole wheat crop and that its value to him is due in a thousand little dribbles, consequently he is seriously embarrassed in his business because his debtors, each owing only \$1, treat it as a small matter, and think it would not help much. Consider this kind of business done in and year out, as the publisher does, and how long would he or could he stand it? A woman's thought will convince anyone that a publisher has cause for persistent dunning.

SPACE AT THE NORTHWEST EXHIBITION.-A number of applications for space at the Northwest Exhibition have been received, and the committee desire all parties who held space last year, and who require to hold the same space this year to notify the management at once.

DIED IN TORONTO.-Mrs C. F. Straubel, who had been suffering from a cancer for some months, died at the residence of her daughter, Mrs Bastedo, Toronto, on Wednesday morning last. The sorrowing relatives have the sympathy of their many friends in Goderich in their bereavement.

It will be in Toronto next week attending the annual meeting of the Canadian Photo Association, for the purpose of obtaining the latest ideas and information in photography, for the benefit of my customers. Studio open as usual in charge of Mr T. Brophy, who will give his careful attention to all. R. R. Ballows.

CHANGE IN BUSINESS.-Mr Robert Proudfoot, after carrying on the grocery, dry goods, and flour and feed business for the past fourteen years, has retired, and has been succeeded by his son, Mr J. M. Proudfoot, who will continue to carry on the business at the well-known stand, corner of Hamilton and Victoria sts. See advertisement.

Carberry's, Grand River. Mrs and Miss Walker arrived in the afternoon but were too late to be recognized by the sufferer, who died about two hours after their arrival.

Already a number of excellent mattresses have been turned out and placed on the market, and thus far a ready sale has been obtained. The intention is to put in new capital and labor, and increase the present capacity for turning out work. In addition to making new spring beds, all kinds of repairing will be promptly and cheaply done.

Mitchell Recorder: Goderich has issued a very handsome prize list in pamphlet form for their fall show, to be held September 17, 18 and 19. Besides the usual display of exhibits the people of Goderich have added a number of special attractions to their fall show program, and are going into the thing with an enterprise worthy a town of wider extent and far greater pretensions. We wish them every success and will, weather and circumstances permitting, go and see their show.

TEACHERS' EXAMINATION.-Following are the names of the successful pupils who wrote at Goderich at the midsummer examination for teachers' certificates: Third Class-S. Boyd, M. Cook, M. Craigie, C. Cesar, C. Durbin, B. Dalton, L. Finlay, E. Halls, T. Hawkins, H. Henning, Albert Johnston, N. MacCormac, M. Parsons, A. Smith, R. Strang, A. Thinn. Second Class-E. Addison, B. Finlay, T. GODERICH ORGAN COMPANY.

First Regular Meeting.-The Permanent Board of Directors. A meeting of the shareholders of the Goderich Organ Company was held in the council chamber on Monday evening, August 12, for the purpose of thoroughly organizing the company, and electing a permanent board of directors. The attendance was large. After the stock-book had been signed by the shareholders present, it was

Moved by Mr M. C. Cameron, seconded by Mr R. S. Williams, and carried, that Mayor Butler take the chair. The Mayor in opening the meeting congratulated the shareholders upon the success that had attended the submission of the bylaw to the people. It argued well for the future success of the company. The permanent board of directors, he said, would require to be elected at the present meeting, and it was necessary to have the best available men on the board. Early action would have to be taken towards selecting a site for the works, as no time was to be lost in beginning operations.

Moved by Mr M. C. Cameron, seconded by Mr Horace Horton, that the following gentlemen comprise the permanent board: Messrs Garrow, Holt, Butler, Smeth, Humber, John Acheson, and Joseph Williams, together with two representatives from Clinton.

Moved by Mr Proudfoot, seconded by Mr Crabb, that the board of directors be limited to seven members.

After some discussion the amendment was put and voted down. The motion was then carried, and the gentlemen named constitute the board of directors.

Moved by Mr Cameron, seconded by Mr Crabb, that the directors be instructed to make all necessary enquiries as to sites and prices, and to report at a meeting of stockholders to be called at the earliest possible date. Carried.

The Mayor stated that any suggestions that could be given with regard to eligible sites might facilitate the work of the committee, and the following were named: The old Victoria salt well, the Huron salt well, Canada Cove park lot, Mr Cameron's salt well, the Weatherall lots, Robert McLean's lots, the old agricultural grounds, the foundry property on East street, the Seymour property at the harbor, and others.

Moved by Mr Horace Horton, seconded by Mr R. S. Williams, that the matter be left in the hands of the directors to report upon next Thursday evening. Carried.

On motion the meeting adjourned.

WHAT "FAITH FENTON" SAYS.

"The Empire's" Correspondent keeps Her Eyes Open After Dark. From the "Empire":

Over the dinner table we discussed the sermons, while the Canada set full speed for Goderich, which we reached at 10 p.m. We drove with the inspector through the streets, so still in the late night hours. Each street seemed a tree-lined avenue, or else, in the star-light, the foliage became more darkly prominent.

Goderich is beautifully situated. It stands over 100 feet above lake level, on a high bluff or tableland, and from the dock a multiplicity of steps must be climbed before reaching the town. The streets run like the points of the compass from the court house square in the centre. The effect is decidedly unique and pretty.

The lighthouse is only twenty feet in height, but the high ground upon which it is built brings it 140 feet above lake level. We climbed the short tower and stood in front of the lamps that were sending their radiance lakeward, but it was too late to remain long. We exchanged a few words with the keeper, and then the little iron box with dial face, that measures the wind's velocity, it owns a long name that I intended remembering, but quite forgot. Then drove back to the boat.

Upon the wharf we met Mr William Campbell with copies of the Signal-Star, a neat magazine illustrating the scenic beauties and commercial interests of Goderich; also Capt Wm Babb, who kindly invited us to see the life boat that, during the four years since its establishment, has already saved 21 lives. Capt Babb explained the intricacies of the boat and the provision made for the safety of the crew and the rescued, regretting that the hour of the Canada's arrival prevented us witnessing a practical test of the crew's skill.

It was past midnight when we returned on board-a late close to a strangely spent Sabbath.

On Monday morning we served Point Clarke, twenty miles beyond Goderich, where, because the shoal extends far out, an unusually fine light has been created. It is dioptric, of Parisian glass, of largest size, and cost \$11,000. This is the most valuable light on the upper lakes.

The flannel shirt has been making a triumphal progress this summer, but still it is not universally popular. Thus, a writer of the Rochester Herald says concerning it: "When it is brought home the proud husband and father dons it, and goes forth to defy the heat of a July day. The next week it is washed, and then it is just about the size for the twelve-year old son. Another week rolls round, and it is just a fit for the baby. The fourth week it descends to Betty's doll, and the fifth week it vanishes altogether; disappears mysteriously. It was seen to go into the washbub, but that was the last of it."

CULBORNE.

From our own correspondent. Mrs Lee Williams, of Toronto, and her daughter and mother are visiting Mr John Morris, at Morristide.

Mr Snyder, lots 4 and 5, 1 con., Colborne, threshed on Wednesday of last week the product of 2 bushels "Surprise" first wheat, and it turned out 60 bushels of first-class sample, clean enough for seed; also 42 bushels of the "Garfield" variety from 2 bushels seed.

On Saturday last George Bissett threshed for Mr Dave Fisher, lot 7, con. 2, W. D., 1000 bushels of fall wheat. George had Baecher's traction engine, and was assisted by Max Baecher and Alf Nicholson.

The fall show under the auspices of the Colborne Branch Agricultural Society will be held at Smith's Hill on Sept 25th and 26th.

Tuesday week being Seaford's Civic holiday most of the business places in that town were closed and many of the inhabitants took advantage of the occasion to go elsewhere. Only a few were left as a home guard, and had the town been invaded by outside forces an ignominious capitulation would almost certainly have been the result. While 460 left by train all who could procure vehicles went to Bayfield and other points of interest. The weather was delightful, and so far as we can learn all enjoyed a pleasant day. The following is a statement of the tickets sold at the station: Stratford, 170; Goderich, 150; Toronto, 63; London, 27; Detroit, 11; other points, 40.

A New Departure

from all the old established conditions on which proprietary medicines are sold, has been made by the World's Dispensary Medical Association, of Buffalo, N. Y., who having for many years observed the thousands of marvelous cures of liver, blood and lung diseases effected by Dr. Pierce's Golden Medical Discovery, now feel warranted in selling this wonderful medicine (as they are doing through druggists) under a positive guarantee that it will give satisfaction in every case, or money paid for it will be promptly refunded. "Golden Medical Discovery" cures all humors or impurities of the blood, from whatever cause arising, as eruptions, blotches, pimples, old sores and scrofulous affections. It is equally efficacious in bilious disorders, indigestion or dyspepsia and chronic catarrh in the head, bronchial, throat and lung affections, accompanied by lingering coughs.

The Governor-General will visit Winnipeg next month, and his trip will be extended to the Pacific coast. Already Vancouver is arranging for a welcoming demonstration on an extended scale, and Winnipeg is expected to follow suit.

The Turnberry voters list shows 660 voters to be registered this year-510 qualified to vote at both municipal and legislative elections only, and 150 at municipal elections only, and 94 at elections to the legislative assembly only. The list was carefully prepared by Clerk John Burgess, of Bluevale.
