It was one of the purposes of Mr. Robertson's visit to find out how these men suited their employers and to obtain information from the men themselves as to the way they were meeting conditions. He states that of those he met in this may none were discontented, but were all doing well.

Mr. Robertson left yesterday morning for Clover Bar to travel along the right of way of the G. T. P. to consult with the contractors about the number needed next year to carry out their contracts.

GASOLENE THRESHER.

A gasolene thresher on First street this morning attracted considerable attention. It is owned by C. N. Hough, of Independence, who purchased it from the International Harvesting Company. Those farmers who inspected it were at first of the opinion it was a weak affair, but they changed their minds on this point after a closer inspection. It is claimed ten gallons of gasolene per day will run this machine. It is 18 horse power and cost about $1,700.

FLOUR JUMPS TWENTY CENTS PER HUNDRED.

The big milling companies of the country have advanced the wholesale price of flour 20 cents per bag. The advance affects the whole Dominion. It is ascribed to the actual advance in the value of wheat, and to the alleged poor crop in the West as well as to increased export demand.

This news was confirmed this morning by the Alberta Milling Co., wholesalers and jobbers will likewise raise their prices to the retail trade in view of the bullish tone of the market.

The wholesale price of flour is now $2.40 per hundred, where before the advance it was $2.20.

GOOD ADVERTISING SCHEME.

An original plan has been devised of advertising Alberta in connection with the exhibit which is being made in the eastern cities. A neat picture postcard has been printed containing on the one side an illustration of the exhibit. It is a very creditable exhibit, too, and will open the eyes of the easterners to the possibilities of the western province. Seated inside the railing is Secretary Peterson, of the Calgary board of trade, who has charge of the exhibit, and John Peterson, of Carstairs, who accompanied him.

On the face side of the card is printed the following:—

Dear Folks—I have just seen the Alberta government exhibit at the fair. Say! they must have a great province. Wheat goes as high as 60 bushels to the acre and from 30 to 40 is common. Oats yield from 40 to 100 bushel, and barley from 30 to 40 bushel. You should see the grand display of native and tame grasses, and also clovers and alfalfa. Vegetables do well there. The climate is ideal for health. Coal is found in all parts of the province. Coal oil and natural gas are also found there.

If you are interested, write to the department of agriculture, Edmonton, or the secretary of any Alberta board of trade for literature.

With best regards from yours sincerely.

These were prepared by Chief Engineer Kelliher and approved by the railway commission. The line through the city, which will be double tracked and has a 33 foot right of way, branches south at the intersection with the C. N. R. Thence it runs nearly parallel, skirting the north side of Queen's avenue school till between First and McDougall, then southwesterly cutting off the corner of the St. James hotel, to McKenzie, and along that avenue due west to Twenty-first street, where it recrosses the C. N. R. and runs due north, joining the main line in what is known as the Hagman estate. BAD TIME WAS THREATENED.

Tuesday's Daily.

The fire brigade was called out last night shortly after eleven o'clock in the midst of the violent windstorm, for what threatened to be a serious fire. It was in a stable on Main street just north of Douglas Bros.' store at the corner of Whyte avenue and Main street, and owned by that firm. For the first few minutes the blaze had full possession of the building, and large numbers of people were attracted to the spot from their homes. The firemen soon had the fire under control, however, but not before two valuable horses had lost their lives. One that was got out had to be shot, and the other was burned to a crisp. It is not known how the fire started. The loss is chiefly confined to the two horses, the building itself not being wholly destroyed.

THE TENNIS TOURNAMENT.

Tuesday's Daily.

The young people of the Baptist church, with a large number of their friends, held a very enjoyable tennis tournament on the church grounds yesterday. The games commenced at 8 a.m., and continued till dark, while throughout the entire day there were large numbers of spectators. In the afternoon, tea was served by the young ladies of the congregation. Among the visitors present were Hon. Mr. Rutherford and Mrs. Rutherford and Dr. McIntyre, M.P. The preliminary games yesterday resulted as follows, the winners in each case being placed first.

The tournament was under the management of George Nightingale, president of the club, who was indefatigable in his effort to make the day a most enjoyable one. The semi-finals and finals will be played off the latter part of the week.

IN BAPTIST CHURCH.

The last of Rev. J. C. Bowen's special sermons on Friendship, Love and Truth was preached to an audience that completely filled the Baptist church Sunday evening, the reverend gentleman taking the last of these three for his subject, and his text from three passages in John, in the 18th chapter and 38th verse, Pilate's question, "What is truth?" in 14-5 the question of one seeking truth, and in 8, 31-32 the question of those who were mere sceptics. After reference to each of these three instances, Rev. Mr. Bowen dealt with his subject under three heads—our quest for truth, our obedience to truth and our liberty through truth. In man there is an innate longing for truth in the three spheres of self, the outside world and the infinite. In the ethical world the imperative command is that of obedience to truth. The liberty through truth was particularly emphasized. We are but infants crying in the night but we are God's, and he is our guidance. He ever guards the weary traveller, but more than that, the way leads to Himself.

A SEVERE CRITICISM.

This is the way the Strathcona Chronicle goes after the Strathcona lacrosse team after their loss to Edmonton last Friday evening:

"The game of lacrosse played last night put the finishing touch on Canada's national game in this neck o' woods. About half the members of the local team have no license to pretend to play the game. This thing of coming home after a defeat and squealing about the bad usage received is getting awfully tiresome. For the sake of the city's good name better disband the bunch and forget that we ever boasted of having a lacrosse team. As an exhibition of its kind last night's game was certainly a record. Give Calgary the cup, Edmonton the record for having in McKinnon as brutal a thug as ever disgraced an athletic field, give Edmunds of High River and Finch of Edmonton a life-sized picture of themselves refereeing the game, throw the sticks into the woodbox, and prepare for next winter's hockey season."

An Enjoyable Social.

A very enjoyable social was given last night by the Young People's Guild of the Presbyterian church, Strathcona. The church was very prettily lighted with Chinese lanterns and decorated by flags. The chair was occupied by Mr. Fraser and the following program rendered:

Speech—Rev. Mr. Hemming.
Vocal solo—Mr. Arthur Davies.
Recitation—Miss Edith Martin.
Solo—Mr. Gibson.
Solo—Mrs. Jackson.

On behalf of the session of the church Mr. R. P. Lewis read an address to Mrs. Jackson and Dr. McQueen presented her with a handsome hymn book as a small token of appreciation of her services as organist.

NO CONTAGIOUS DISEASE.

It is very gratifying to learn that there are no cases of contagious disease in the city at present. This is the report of Medical Health Officer Dr. Archibald, which has just been submitted to the board of health. "The sanitary condition and cleanliness of the city," the medical health officer says, "shows a marked improvement to what it was at this time last year. There are, however, quite a number of people who as yet have not installed the metallic kitchen barrel and I would urge that everyone should be obliged to procure these at once, as the necessity for them is more pressing now than at any season of the year, particularly as typhoid cases are beginning to show themselves and I feel that we should take every possible precaution with a view of limiting the number of cases as far as possible."

PRICE OF BREAD MAY BE ADVANCED

As a Result of the Increase in Wholesale Price of Flour.

As a result of the advance of 20 cents per 100 pounds in the wholesale price of flour, the bakers of the city are contemplating an increase in the price of bread.

About six months ago a man with a family felt that bread was costing him a lot when he had to pay one dollar for twenty loaves. But the price of flour started to go up gradually, but surely, nevertheless, and in three months he felt that the bakers were not charging him too much when flour had gone up in price from 20 to 30 cents per barrel.

At the end of this time the baker took it into his head that he was not securing sufficient for the article he produced, and, taking into consideration the advance in the wholesale price of flour, decided to increase the price of bread from 20 tickets for one dollar to 16

The average amount of bread consumed per day in Edmonton is half a loaf per head. Assuming that the population of the city is but 12,000, the amount paid out for bread in a year would total $27,375, or $75 per day. If the bakers decide on a further increase these amounts will be doubled.

A meeting of the city bakers is to be held to discuss the question.
