SHACKLE THE FARMER.

The Toronto News, which seems to have essayed the role of chief argument prov'der for those who oppose the reciprocity agreement, takes the stand that the free admission of Canadian farm products to the United States must tend to increase the cost of these products to the Canadian consumer. On the strength of this it undertakes to turn the employer of ing him that he will be obliged to pay his employees higher wages to enable them to live. To the employee i: proffers the hardly consistent argument that if the agreement goes Government" too.

This of course contradicts the other notion put forward that no credit is coming to the Canadian Government for the removal of the duties against our farm products, because duties and with the benefit which will result therefrom to the Canadian farmer, but in trying to saddle the Ottawa Government with blame because the duties are to be removed, the other proof of their determination to copose the agreement quite regardless

as reasons for so doing. the argument that the Canadian Government is blameworthy, what they in the Old Land, and nowhere else. cculd be prevented when the prices necessities. courage to openly propose.

Most protectionists even will reencourage the selling of Canadian there. In practice this would amount man who best knows.

-- and has amounted-to the same thing as an export duty, though the aspect of it is not quite so repulsive

SHACKLE THE FARMER.

Mained one man who could accomplish the salvation of the Dominion, and it cannot but have been pleasing to him to be told that he was the under free trade. There has been no export duty on Canadian farm products to the United States, but the result of the hostile tariff relations of the two countries has been the same in kind and nearly the same in degree to the Canadian farmer. It is with his tariff proposal. This deliberate and purpose of prejudicing the public and it cannot but have been pleasing to him to be told that he was the which he is associated. And as the Canadian press association—very unsided on news from these sources, the misson doubt, with all sincerity—that Sir Wilfrid has a majority of the members of Parliament tor the public accomplish the salvation of the Dominion, and it cannot but have been pleasing to him to be told that he was the which he is associated. And as the cannot be defeated in the proceeds to him to be told that he was the was the control of the Star proceeds to lament at some length—and, no doubt, with all sincerity—that Sir Wilfrid has a majority of the members of Parliament with him, and therefore cannot be defeated if he proceeds was unloaded on practically the whole proceeds to have been pleasing to him to be told that he was the was the control of the States, but the salvation of the Dominion, and it cannot but have been pleasing to him the Large amount the protection and it cannot but have been pleasing to him the Large amount to be told that he was the control of the States, but the his pleasure would not be long to him the Large amount to be with the salvation of the Dominion.

The salve the proceeds to him the Large amount the p to the Canadian farmer, that the News not rightly understand the meaning tives in the gallery were such dunce and its friends are standing. And it and bearing of this reciprocity mea- as not to understand what everyon because the farmer is to sure. After which, of course, it pro- else understood, that the Democratic labor against the Government by tellwhat he has to sell they would accommend that the political as that of a serious statement know union. Our people would find the that it was a monstrous falsification, what he has to sell they would accomplish the same end by indirect means.

THE "MARKET."

The market situation seems now to through he will be obliged to either have worked itself into a condition their products; this would leave the ative or without knowing that it would eat less or to save less, and that that is unanimously unsatisfactory. therefore he should be "against the That the farmers are not satisfied is way in Northern Ontario without busi- ployers. the United States would have removed of the city." That those who would the tariff walls down there would be or fairness, which protectionist papers these in any event. If this be true like to buy products from the excluded no reason why anybody should live are not prepared to trample under the former cannot be. If the decision farmers are not satisfied goes without in Canada, and the youth and beauty foot in hope of defeating the cause of the United States to remove the saying. That the lessees of the mar- of the Dominion would flock over duties was brought about solely by the ket are not satisfied seems clear the border. Finally, with the country well to state it without further delay force of economic conditions in that enough from the fact that they are ruined and depopulated, the Republic country, and was to no degree not trying to enforce the regulations would gobble it up politically, and that affected by the willingness of the and from the statement of Alderman Canadian Government to negotiate an Gowan that they would likely be will- failed the Star man, and he came to agreement, then the Canadian Gov- ing to drop the bargain. And it surely a no doubt unwilling conclusion with ernment is not to be blamed because cannot be supposed that the Aldermen this solemn assurance, penned especithe duties are to be removed. The are satisfied with a condition which aly for Sir Wilfrid's benefit: "This is blame must rest where the credit the chairman of the market commit- not a business matter he is considerbelongs. In crediting the Washington tee says is destroying the essential ing; but the political fate of Canada. Government with the removal of the purpose and object of the market by In the seat of Sir John A. MacDon-

News and its friends are giving anto have reached the time to take up Union." This is particularly good, of what they may have to put forth town and retail centre for the splenthat a market is not only a place where the farmer and the townsman must mean is that Canadian farm neet to buy and sell. It is also the products should be sold at home or most powerful magnet the city can provide for drawing to itself the in-How they would bring this about they terests of the immediately neighboring have yet to explain, as it rests with country and for securing the trade of the United States Government to say at the farmers for our retail stores. On peal itself. The whole burden of the any time at what rates such products the one hand the establishment of a may be shipped into the Republic, or good market tends to make moderate whether any duty shall be charged and uniform the cost of living in the on them, and therefore to say whether such products shall or shall not be living near the city to produce those seld in that country. How our pro- classes of products which will sell tectionist friends would go about it readily on the market as table necesto prevent the Canadian farmer tak- series. And by bringing the farmer to ing the advantage of the opportunity town frequently with products which offered by the removal of the United sell readily and for cash, it makes States' duty they do not say.
