AIDS THE POOR WIDOW

Deserving Women Who Want to Keep Their Children Are Given a Chance -Tearfully Grateful for Help Given Them by State.

Chicago, Nov. 29-The new state law pensioning deserving poor mothers with families became operative yesterday. Forty mothers, most of them widows and the sole support of that many broods of children, received checks for amounts ranging from \$18 to \$120. The distribution of this noney brought happiness to a hundred hearts from which it stands off

nunger and cold. The Pension act allows \$5 to \$10 a month for each child. Nearly all the mothers were tearfully grateful. The pension allows them to keep the famtogether and exercise the care

essary for growing children. The deserving mothers and children are investigated by officials of the Juvenile court. When the home influences are found to be good and the mother deserving the money is paid to the mother. Before the law was. passed the mothers who found it impossible to support their children turnd them over to the Juvenile court and that institution placed them n other homes. For the support of each child the county paid \$10 a month in the new homes. The pension law authorized the county to leave the children with the parent and pay them the

\$10 a month for each child. The state has not appropriated any money, but the law empowers the county to hand the money to the parent instead of taking the child and paying strangers for its care. The payments are made by County Agent Joseph Meyer, at the order of Judge Pinckney of the Juyenile court, and the family must live on the money and not make further demands on the

CATTLE EXPORTS DECREASE.

Big Falling Off in Live Stock Shipments to Great Britain.

Montreal, Nov. 29-The export live stock trade from the port of Montreal for the season 1911 was brought ss. Montreal, of the Canadian Pacific date tipple in Alberta with a capacity line, with 616 head of cattle for London. The season on the whole has been a very disappointing one, as compared with previous years, as the total number of cattle exported has been he smallest for the past twenty-nine years, or since 1882. The total exports this year were 45,966 head of cattle. number of cattle there were 15,691 head from the United States, making the actual salpments of Canadian North-West ranch and Ontario cattle only 30,175 head, while a year ago the total exports amounted to 72,555 head, of which there were only 179

head from the United States. The large falling off in this depart. ment of the export trade is to some extent attributed to the fact that American exporters were drawing the bulk a their supplies from Canadian sources throughout the season in order to fill their engagements with steamsnip companies from their own peeted that the steel would reach Cal-gary by the first of the year, but the Building of bridges and culveris over and this, coupled with the increased consumption of beef throughout Canada, and the much higher prices prevailing in the home markets than in the fcreign markets, have all tended

CHAMBERLAIN FOR ITALIANS.

Feels Strongly Over the Charges Against Army in Tripoli,

Chamberlain, though he has drawn from active politics, follows public affairs with the closest atten day last," says the Morning Post, "he expressed the utmost indignation at the scandalous attacks in a portion of the British press on the government and army of such a friendly nation as Italy, which proceeded from misin 1.200 feet is reached there will be a formed or prejudiced observers, who were careful to conceal the provoca-

tion on the other side and the treat ment of the Italian troops who fell in the fleld." Mr. Chamberlain dwelt on the prolonged friendship between Italy and Great Britain, and declared that Englishmen would always gratefully renember the attitude of the chivalrous Italian nation during the South African war, when the British governmen and the British navy were the objects of a similar campaign of mendacity waged by several English newspapers which are now attacking Italy. "On being asked whether publicity

the friend to whom they were made Mr. Chamberlain replied: "Tell him he is at entire lib repeat what I said to him on Sunday about the Italian war in Tripoil and

MISS JACKMAN DIES PENNILESS

Exhaustion Caused Death of Novellst
