The Midnight Marauder Again.

About 1.30 Tuesday morning Mr. Eli Harris, who resides on Hamilton St., was awakened from his slumbers by hearing a noise at the rear door of his residence and getting out of bed and coming down to the place he was surprised to hear the footsteps of a man running away as speedily as possible from the house. Investigating, Mr. Harris found that the marauder had forced off the bolts on the outer door and was doing his best to break open the inner door when he heard Mr. Harris coming and sprinted away. He evidently next gave attention to the residence of Mr. Alan English on the same thoroughfare for he also was aroused by hearing a noise at the back door and investigating he also heard the man running away and found that the outer door was burst open. This is evidently the party who burglarized the residence of Messrs. Russell and White, Springdale Street, as exclusively reported in the Telegram.

The Tridium in honor of the Holy Name began at St. Patrick's Church last night. Rev. Fr. Poppy preached the sermon, which dealt principally with the subject of "Human Respect." When a man is asked to do anything that be good and right in the sight of God he should not refuse when asked to join the Holy Name Society, they should not refuse through a feeling of human respect. There was a large attendance. To-night Rev. Monsignor Roche will preach, and to-morrow night Rev. Fr. McDonnell. This course of sermons is especially instructive, and none who could afford the time should miss them.

Valuable Apple Tree.

Thirty thousand dollars was the sum recently offered an eastern Washington nursery company for an apple tree located near Lake Chelan. The proffer was made by a syndicate which desired to propagate the tree. It was turned down by the nursery company, which will develop the fruit itself.

The tree is 20 years old and is called the Chelan. The fruit is golden yellow and is said to be different from that of any other apple grown in Washington. It is also said to possess exceptional keeping qualities, a box having been kept in storage in Spokane for two years without any marked deterioration.

Twenty years ago, the story runs, an Indian planted a handful of apple seeds, three of which grew. The fruit of but one of the trees was good for anything. The tree is now of great size and a prolific bearer. Last year at the National Apple Show at Spokane fruit from the tree took first prize for new varieties of apples.

MORE DISCOVER ASSASSINS' PLO A RUSSIAN

There was great activity on the part of the police yesterday in consequence of the discovery made by detectives on Tuesday night of an Anarchist arsenal and bomb factory in a house in Stepney.

The more the insignificant house in Gold-street, where the discovery was made, is examined the more sinister does the whole system appear. A large gang of Anarchist assassins is believed to have been at work, and search is being made for other depots of bombs, pistols, ammunition, and explosive chemicals which are said to exist in the East End of London.

The dead assassin, hitherto known as "Levi" and "Gardstein," has been finally identified as a Russian named Poloski Morountzeff. A Russian convict in Parkhurst Prison has been brought to London in connection with the case, and is said to have given information of a plot in which this
