**Row on Schooner.**

Some of the crew of the schr. Mary Jane, lying at Job's western wharf, drank more than was good for them yesterday evening, and at 8.30 a free for all fight started on board and drew a crowd to the place. The men beat each other about the decks, their clothes were torn and blood flowed. Some of the contestants narrowly escaped going overboard, and Officers Lee (2) and Gardner arrived there stopped hostilities for a while. The men started to fight again when the officers took a hand in and arrested the ringleader who was badly cut about the face. The man violently resisted arrest and after a struggle was handcuffed and brought to the station followed by hundreds. The others then made their escape but one of them was captured later by Consts Furlong and Lee; others implicated will be summoned.

Germany warns France of the dangerous consequences which it is likely will follow the occupation of Fez by the French troops. The German Government is closely watching developments in Morocco. In view of the hint thus given, it is believed that the French column, which is hurrying to the relief of Fez, will be halted outside the capital.

**FOOD IN SERMONS**

Feed the Dominie Right and the Sermons Are Brilliant.  
A conscientious, hard-working and successful clergyman writes: "I am glad to bear testimony to the pleasure, increased measure of efficiency and health that have come to me from adopting Grape-Nuts as one of my articles of diet."

For several years I was much distressed during the early part of each day by indigestion. My breakfast seemed to turn sour and failed to digest. After dinner the headache and other symptoms following the breakfast would wear away, only to return, however, next morning.

"Having heard of Grape-Nuts food, I finally concluded to give it a trial. I made my breakfasts of Grape-Nuts with cream, toast and Postum. The result was surprising in improved health and total absence of the distress that had, for so long a time, followed the morning meal."

"My digestion became once more satisfactory, the headaches ceased, and the old feeling of energy returned. Since that time I have always had Grape-Nuts food on my breakfast table."

"I was delighted to find also, that whereas before I began to use Grape-Nuts food I was quite nervous and became easily wearied in the work of preparing sermons and in study, a marked improvement in this respect resulted from the change in my diet."

"I am convinced that Grape-Nuts food produced this result and helped me to a steady condition of mental and physical strength."

"I have known of several persons who were formerly troubled as I was, and who have been helped as I have, by the use of Grape-Nuts food, on my recommendation." Name given by Postum Company, Battle Creek, Mich.

**Uncle Walt THE POET PHILOSOPHER.**

Spring! It is a precious boon—good old April, May and June. Then nights are cool and calm, so that slumber is a balm, and the days are mild and sweet, so that labor is a treat. And the flies have not yet come, and the skeeters do not hum, and the frogs don't yet aspire to excel the village choir, and we walk with springy tread, thankful that we are not dead. O the spring's a boon, in truth! It restores our vanished youth; even gray and paled men feel like three-year-olds again (unless they're watched) they hope with some widows to elope, and the widows, bless their souls, charm us with their caracoles, for we all are growing young when the good old spring is sprung. You are worse than dead, my friend, if, when winter's at an end, and the joyous spring is come, you are feeling dour and glum. Any man whose blood is red, any sport who isn't dead, feels inclined to whoop and waltz, feels like turning somersaults, feels like punching someone's ear, when the gladtime spring is here!

**Harbor Grace Notes.**

Quite a number of new ploughs have been got from St. John's and purchased here by our farmers and others this spring. This shows that more interest is being taken in the tilling of the land than heretofore.  
The S.S. Euphrates arrived from Bell Island on Saturday evening with a number of workmen. It was the intention to return to the Island yesterday, but owing to the high wind the return trip was not undertaken till daylight this morning. We hear that five steamers left the Island on Saturday with passengers for different parts of the bay.  
It is rumored here that a young man who has been at the Lunatic Asylum, St. John's, from this place for some years, died at the institution in January, and his friends were only made aware of it through an inmate writing last week. There should be some way of letting the friends of these unfortunates know of death immediately and not in a roundabout way after four months.  
Hello, Carbonifer! What's the news to-day? Not much. Beautiful day; we are gradually recovering from our heavy loss by storms. We got our mail on Saturday night, thanks to Postmaster Monlon, although the train was very late. Why, friend Carbonifer, you got ahead of us in that respect; only part of our mail could be delivered before 12 o'clock. Good-bye.

The members of the Young Girls' Sewing Class of the Presbyterian Church presented their new clock yesterday, which was purchased from R. H. Thomas from the proceeds of a recent sale. The clock is a very handsome one. In referring to the gift yesterday, the pastor, Rev. F. S. Coffin, stated that the gift was thankfully received, not wholly for its value, but as a token of what even the young people can do for the church.

A house on Lady Pond Road, owned and occupied by the Misses Fitzgerald, two old ladies, was totally destroyed by fire on Saturday night. The inmates barely escaped with their lives, one of them being an invalid. When people from town arrived on the scene the people were taken to the nearest house, nearly a mile away, where they spent the night. Everything was burnt, and their case is a hard one.

The new race boat built by Mr. Warren for the British Society was taken to the Society's hall on Saturday. The band was in attendance and played lively airs as the boat was being carried along. Our annual regatta this year promises to eclipse all previous efforts.  
The boys of the Juvenile or King Edward Branch of the British Society intend having an apron sale in the hall next week. It may seem ridiculous to the uninitiated for the lads to have such a sale, but it is a fact, all the same. Admission to the sale will be free, but it is said that parties not purchasing will be asked to pay before they will be permitted to leave.
