#### The Tale of Perfect Time in a Watch

From Mainspring to Hairspring, between them lies the secret. The Mainspring is the power which it transmits to the active parts of the watch. The Hairspring has the control and regulates the motion. The fitting is most delicate; it is a 100th part of a hair. (Impossible isn't it!) Yet it is enough to interfere in its performance, to wonderful in its adjustment. The friction from accumulating dirt, lack of oil, etc., destroy these perfect fittings. Do not let your watch run to ruin from neglect. Remember our business is the care of watches, and our opinion costs nothing.

### THE SYRINGE PIPE.

Has the advantage over all other Pipes. An article that smokers have always been inquiring for since Briar Pipes first came into use. The Syringe Pipe means a Pipe smoking at its very best.

To be had at  
**CASH'S TOBACCO STORES, WATER ST.**

The Economy of "Paisley Flour"  
—the true raising powder—is so great that a 5 cent tin is sufficient for a pound of ordinary flour, a 22 cent tin for half a stone.

And do you know

that by using Paisley Flour, cake making at home is very little trouble; also it is much cheaper than using cake mixtures.

A great advantage of home baking with

**"Paisley Flour"**  
The SURE raising powder

is that you know what is in the cake—that all the ingredients are clean and sound.  
Use one part Paisley Flour to eight parts ordinary flour.
