SARNIA SUNBEAMS.

A new lodge of the Ladies of the Maccabees, to be known as Danford Hive, No. 14, was instituted at Point Edward on Tuesday evening last. The Port Huron Daily Times is now pub-

lished twice a day.
The I. O. O. F. of Sarnia and Mooretown give a grand excursion on the Erie and Huron Railway to Rond Ean on Wednesday, Aug. 22.

Port Huron citizens are apxious to have their disease-breeding Black River made into a clear, running stream, and a project is on foot to dig a canal from Lake Huron, above the lighthouse, to empty into the River St. Clair, flowing through the present mud-colored stream, and converting it into clear water. The estimated cost of the same wilt be about \$100,000.

A large excursion party from Wingham and Stratford will picnic here at Bayview Park on Saturday, Aug. 11.

George Lucas, jun., John E. Smith, W. Barrie and Mrs. Wm. Luscombe are the delegates from Sarnia to the I. O. O. F. Grand Lodge at Kingston. Next Wednesday, Aug. 15, is Sarnia's civic holiday and the great meet of the

Dicycle club. The steamer United Empire arrived down from Duluth on Wednesday afternoon with about 100 passengers and a large cargo of

freight. The Salvation Army of Sarnia and vicinity are going to hold camp meeting services at Bright's Grove, lake shore, for a week, commencing Saturday.

#### Moved Its Works. (Springfield, Mass., Republican.)

The people of Brazil, Ind., are beginning to see the importance of a firm maintenance of law and order as they had not scenit before. They had a sheriff who appeared during the strike wearing the strikers' white ribben, and swearing in strikers as deputies, who in their turn put oil cans filled with emery on the locomotives-all of which was winked at by the citizens. Now the Chicago and Eastern Illinois Railroad Company has ordered its shops at Brazil tern down and removed to Illinois, and these facts are cited to protesting citizens as the reason. The company, of course, cannot afford to keep its works at a place where public sentiment in regard to property rights is such as it has appeared to be there. The removal of the shops will be a great blow to the place, and there is much agitation about the matter.

BRUCE.

Mr. Michael Sadlier, of Dyer's Bay, near Wiarton, was returning from a visit to the McNair settlement, a distance of some three miles through the woods, the other day, when he met a huge bear. Mr. Sadlier had his gun with him and shot Bruin in the right place. It took three bullets to kill the brute, which was a large male, measuring eight feet in length. The hide was taken.

than a drunken brawl. All the participants except Johnson have been discharged by the Port Huron magistrate, who has the evidence against Johnson under consideration, to ascertain if extradition proceedings can be taken thereon.

#### MIDDLESEK.

As an evidence of the unpopularity of the present ward system, A. McKellar, of Mosa, presented a petition for its abolition to between 50 and 60 electors, and all

signed it but one.

Mr. Richard Coad, O.L.S., of Glencoe, left on Tuesday for the Nipissing district to survey a township for the Ontario Crown Lands Department. He will be accompanied by a party composed as follows; Wm. Coad, Ekfrid; Neil Leitch, Glencoe; Mr. Paussett, Sarnia; Lieut. Billings, London; Al. Black, Dutton, and T. W. Armstrong and chopping gang of Nipissing. He expects to be gone five or six weeks.

A very painful accident befell Mr. A.

Gleadinning, of Greenway, the other day. It seems he was driving on the road and when about a quarter of a mile south of Greenway fell off his wagon. The horses continued to walk on until stopped by Mr. S. Pollick, who turned them round and frove back to where the unfortunate man lay in an unconscious condition, with his head twisted under his body. Mr. Poliick straightened him out and in a short time he began to revive. He was at once taken home and medical aid sent for, and on ex-amination it was discovered that his spine was injured. He is now lying in a critical condition, with both arms and legs paralyzed. It will be some time before the doctor can tell whether he will recover or not. The names of the successful high school entrants from Belmont public school are: Jennie Black, 425, No. 11, Westminster; Louisa McCallum, 455, No. 17, North Derchester; Abbie Simpson, 422, Belmont; Robert Black, 475, Belmont; Herbert Brankobert Bisck, 470, Deimont; Herbert Bran-ion, 424, Mapieton: Farquhar Campbell, 475, No. 27, Yarmonth: Wm. No. 7. South Derchester; M. Lorne Petut, 473, No. 7, South Dorchester. A sad accident occurred at Greenway Wednesday. It appears the 9 or 10 year old son of Mr. Robert Hutchinson had led a young horse out to water and fastened the rope halter around his waist in order to pull a pole out of the well. The horse took fright and kicked the boy and ran into an adjoining field, jumping and galloping for nearly half an hour, dragging the unlucky lad. Mr. Hutchinson endeavored to catch the infuriated animal, but he could not hold it. Finally the shricks and screams of the painstricken parents attracted the attention of several of the neighbors, who soon came to their assistance and after running back over the farm they got near enough to cut the rope, but it was too late, life had fled. The mutilated corpse was at once taken to the house and many of the sorrowing friends and sympathizing neighbors gath-

ered to hear the sad story related: Mr. Neil Brown, sen., of Be'mont, while in his barn gathering eggs on Tuesday, had the misfortune to fall and break his leg between the hip and knee. Mr. Brown is pretty well up in years, and his chance of recovery is not encouraging.

John Noble, who for the past few years has been superintendent of the Kilmartin Sabbath school, was surprised a few evenings ago, when at a gathering in the church he was presented with a purse containing \$25, accompanied by an address from the teachers and members of the school.

OXFORD. It would appear from the number of burglaries that shave been perpetrated lately that Woodstock is harboring a bad gang. The Rapson Hotel is the latest sufferer from their depredations. The hotel was entered about 3 o'clock Wednesday morning and \$10 extracted from the till in the bar-room. A revolver is also missing. The burglars effected an entrance by prying up one of the

widness and breaking one of the fasteners.

A number of cars forming part of a C. P.

The accident happened on a curve of the St. Thomas branch. Luckily the train was loaded with dead freight, and the track was soon cleared by a wrecker from London.

NEW RULES OF THE ROAD. .

What Pedestrians May Expect if the Cyc ling Craze Continues.

We are informed that a general meeting of all the French cycling clubs is to be held shortly for the purpose of drawing up a code of rules for foot passengers, which is afterward to be submitted for approval to the public authorities. We have been permitted to examine the first draft of this remarkable scheme, which is worded as follows:

"Whereas, The number of cyclists is on the increase, and as a natural consequence the number of pedestrians is constantly diminishing; "Whereas, The cyclists will shortly be

in the majority; and "Whereas, That minority ought to sub-

mit, it is hereby enacted that: "Article 1.—Every pedestrian is to be supplied with a bell and a signal horn, which he shall sound on crossing a street whenever he spies a cycle on the horizon. "Article 2. - At night the foot passenger shall carry on his breast a lantern con-

taining a lighted taper.

'Article 3.—Any foot passenger who, by his awkwarkness and want of attention, shall occasion the fall of a cyclist by stupidly allowing himself to be run over, shall be liable to a fine of 50 to 100 francs; after a repetition of the offense he shall be transported to a mountainous region. "Article 4.-France shall be entirely leveled in order to save cyclists the annoy. ance of hill climbing.

"Article 5.-The horse races at Longchamps to be abolished and the site transformed into a summer cycling course."-Paris Figaro.

#### Origin of "Strike."

An early use of the word "strike" occurs in the London Chronicle for 1765. In the September of that year are numerous references to a great suspension of labor in the northern coalfield, and the colliers are stated to have "struck out" for a higher bounty before entering into their usual yearly "bond." In confirma-tion of Mr. Leaton-Blenkinsopp's statement at the last reference, it may be added that the strike is twice called a "stick."

(London Chronicle, October 8, 10).
One of Harriet Martineau's earliest pamphlets was a tract entitled "The Tendency of Strikes and Sticks to Produce Low Wages," published at Durham in 1834. The time-honored illustration of profitless labor, "carrying coals to Newcastle," probably received its first slap in the face during the strike of 1765. A paragraph dated Newcastle, September 28, in the London Chronicle, says: "'Tis very remarkable that on Wednesday several pokes of coals were brought from Durham to this town by one of the commoncarriers, and sold on the sandhill for 9d a poke, by which he cleared 6d a poke."

A Great Feat at Billiards. John Roberts, the great billiard player of all time, has added another to his long list of wonderful achievements, scoring an all-round break of 1,017 in an exhibition game against Diggle at Glasgow. A few months ago such a performance would have caused quite a sensation in the billiard world, but the public have grown accustomed to the great doings of Roberts, and seem to think there is no limit to his powers. This is the second time in his career that he has made over a thousand off the balls, spot-stroke barred, and comes next to his record break of 1,392 at Manchester, when, as in the present instance, his opponent was Diggle.—London Daily News.

The British Museum. The average number of students in the reading room of the British museum is six hundred and fifty-one each day. The attendance in the library and sculpture gallery has been less this year than usual, but the number of visitors to the museum shows an increase of fifty thousand over last year.

## Summer Outings.

The season for summer outings is at hand, and those in search of pleasure and the most charming scenery find that of all lines of railway leaving New York none furnish as desirable and picturesque a route as that of the New York Central. Comfort, safety and speed, polite and courteous attention has made this road popular with the traveling public, and it is the line generally used by merchants from the west, coming and going.

Business men, especially in these times, journey on short notice, and naturally select a medium of travel which combines speed with safety. It is the thorough supervision of its trackage, the discipline and long service of the employes, that puts the Central Hudson at the head of the railway system of the State, and makes in one of the best in the world .- [Drygoods Chronicle.

Enots and Miles. There is a decided difference between the knot and the mile. Three and one-half miles equal, within a small fraction, three kmots. The result of this difference, of course, is that the speed of a vessel in miles per hour is always considerably larger than when stated in knots, and the onfusion of the terms sometimes gives rice to rather remarkable claims of speed performance. When a twenty-knot ship, for testance, is mentioned it should be rememb red that this really means over 23 miles. - [Cassell's Magazine.
