BOERS FOR CANADA

It Is Also Thought That Senator Turner Would Not Be Accept-

Ottawa, Ont., Feb. 23.-It is reported in official circles that the Government has formally protested to the home Senators Lodge and Turner as two of the United States representatives on the Alaskan boundary commission. The feeling here against these two men is most intense. The treaty calls for the selection by each country of three "impartial jurists of repute."

One of the ministers said that it category of "impartial jurists" it is more than probable that Canada will withdraw from the proceedings altogether, as it is held to be useless to go into the game with the dice loaded. Senator Lodge delivered a speech at Northampton, Mass, on Oct. 16 last, in which he remarked that the claims of Canada in regard to the Alaskan boundary were such that the United States could not accept them, and that no nation with an ounce of selfrespect could admit. Similarly, Senator Turner, when the treaty was under discussion in the Senate, strongly opposed the Canadian contention. It may be asked what is Canada going to do about it in view of this objectionable party having been nominated by President Roosevelt, and his determination that he will serve. Canada could do one thing, and only one, and according to rumor, that step may be taken. It could refuse absolutely to have anything to do with and the United States settle matters

in any way they please. AS VIEWED IN LONDON.
