However, the association de-cided that refreshments should be served on the grounds even if no revenue were derived therefrom. Messrs. Hunt and Gil-pin were then appointed a committee to arrange with some caterer to take charge of supplying the refreshments on this occasion. The baths will open, it was decided, in July, unless there were some very warm Saturdays in June when they would saturdays in June when they would start somewhat earlier. This decision was arrived at because of the fact that before the time of opening of the baths last year there were several accidents in the river, while after the baths had been started there had not been an accident of any kind. #### TWENTY MEN VOW WILL BE GHOSTS

New York, May 14.—The unalterable determination of twenty Chinese sailors to commit suicide simultaneously and all in the same place rather than keep their jobs, was a matter which yesterday engaged the attention of three powers. The twenty Chinamen are those who on Tuesday made a break from the Norwegian tramp Hercules, docked at Tompkinsville. The powers involved were the kingdom of Norway, the Chinese empire and the United States of America.

The matter which these three Governments took under advisement yesterday was nothing less than the closing of four seas against a possible scourge of dreadful ghosts. Wah Sing has said it! But let the Hercules sail forth from this port three weeks hence with the twenty rebellious Chinamen who tried escape and failed below her decks, and before the steamer has been twenty hours at sea there will be eventy holes in the Atlantic Ocean, with a Chinese that, woe-Chinese woe-to the Hercules and Capt. In China—and Wah Sing does not need to say it—the worst thing a man

can do to his enemy is to sit on that enemy's doorstep and commit suicide Forever and forever the ghost of that suicide will dog the feet of the enemy to do him ill.
