coil and a passive support on the floor of the se. The golden gag that stopped the ical utterances of the company's now unal counsel was a coup worthy of the tags there's the same there's the same that the same shown. It may be, too, that the public purse is gradually closing to the demands of the Government's importunate thild whose career these gifts had hitherto helped to make splendid. The present vigorous litigation to establish a claim of enormous dimensions apparently well-founded would suggest, too, that Sir John Macdonald's political craft warms him that his friends in the Lower Provinces are growing weary of the sailway's Atlantic craft sogior. It is well however, that so great molicy. It is well, however, that so great material power in Canada, or in any my, as the Canadian Pacific Railway ilway has benefited one as much as the

in the negotiations that ended in the charter of the railway, and that the then wealthy members of the syndicate were very chary about risking their all in a scheme so bold and so ponderous. It is in no way splikely that the trumphent return of the Conservative party in 1882 and 1887 was almost as much due to the success of the Canadian Pacific as to the National Policy.

New Ministers and New Negetiatlens.
A short time ago Sir Julian Pauneciote was appointed British Manister to Washington; and, more recently, the appointment of the Charch of the Redecement of London was announced. So there will be new ministers and new negotiations, and on the American side an entire new government as well. It is also talked of that the scane of the nerotiations will be changed from Washington to London, at all eyents to begin with, Mr. Lincoln's departure will be the Britisher gets to Washington, but so before. Meantime Mr. Blains will have his instructions prepared with great care, so it is said, which is likely snowth.

Well, perhaps the new negetiations, conducted by new ministers, may end in something the conductive than what came of the last targets and market from the platform.

The Philiparmonic Society has engaged Mons. Ovide Musin, violin virtuosity fluore, A few senior, when the performed of the church of the Redecement of for its concert on May 18.

The oholr of the Church of the Redecement of the church of the Redecement of the church of the Redecement of the church of the senson will be performed.

A dramatic entertainment was given in Science Hail last night. The furney "Good for nothing and a scene from "Still Waters Run Deep Peedfred very creditable interpretations in the hands of Mr. Chas. Watts, Miss Nowland. J. Stevens, J. Harrison and Mr. B. Signerstaff. She has

ed by new ministers, may end in something more satisfactory than what came of the last attempt. It is said that Mr. Lincoln will carry with him instructions touching a new extradition treaty as well as other things. With regard to the main matter of all, the fishery difficulty—we may say that outside appearances are "from fair to middling."
Canada is not advancing any startling demands, and apparently the Yankee fishermen are beginning the season of 1889 in tolerable good numer. At the same time we may quite expect Secretary Blame to prove a thorough-going "Uncle Sam" as far as driving a hard bargain is concerned. But then we may as well remember that he is put in his present

place for that purpose.

Among things foreshadowed we can see this much, that Lincoln will get a big welcome in England, on his father's account; and ere he leaves he may have made a reputation of his own, who knows? It is certain that the war time President was immensely popular with the English masses, who sook one very open and obvious way of signifying their disapprovant al of government by "classes" at home. His son will find a favorable and friendly air blowing around him in England; a circum-stance which oughs to help towards good

One thing we may congratulate out-selves upon—during the coming negotiations no attempt will be made to settle existing difficulties by the expedient of commercial anneration to the United States. The men for that sort of thing are not in power in Canada now, nor are they likely to be for some time to come. It should be our prayer none the less that we may see such results as shall tend to perfect friendship with the United States, and at the same time to per-petuate our perfect independence of our big neighbor. That the two nations should remain asparate, yet friendly, is surely among things possible; and the more we fix our attention upon this possibility, the easier and

the more reasonable it will appear to be.

We notice that among the latest despatches is one from Washington to the effect that Maine senators and representatives have had several conferences with Mr. Bleine, and that they are looking for an aggressive policy.

"Senator Frye," it is added. "says he favors of the services of the serv they are looking for an aggressive policy. "Senator Frye," it is added, "says he favors no renewed attempt at negotiation, but simply a dignified insistence upon rights. The license issued by the Canadian authorities under the modus vivendi, agreed upon by the negotiato a year ago, are not satisfactory, because the compel payment as if for a privilege for wha belongs to the States by right. A firm attisude on the part of the Government, Senator Frye believes, will bring Canadians to time."

At present we remark merely that the above, which comes to The New York Herald from Washington, is evidently intended for home-consumption. Other testimony is to the effect that the American fishermen themselves are a great deal better estisfied with the censes than the politicians are. Of course. we know that there are people who would move heaven and earth, if they could—to pre-

FIGHTING SHY OF THE OPINION OF THE CITY SULICITOR,

The Street Railway's President Wants & Know What the Board of Works is Coing to Do-Come Now, Gentlemen, Talk Business.

The sub-committee of the Board of Works

appointed to consider the application of the Toronto and York Street Railway Company to be allowed to lay a street car route east of the Don met yesterday. There were present Ald. Fleming (chairman), Carlyle (St. Thos.) Carlyle (St. And.), Tait and Small. Mr. G. F. Shepley, representing the Toronto Street Railway Company, was also on hand to watch licitor on the matter, as published in vesterday's World. Ald. Tait and Carlyle (St. Thos.) both took exception to some of the

ubject.

Ald. Carlyle (St. And.) opposed any such course. He held that the continual putting off of a decision in this matter was keeping the on of a decision in this matter was keeping to be people of the East End from a proper stress car service. The chairman was in favor of another meeting, and the sub-committee adjourned without taking action, to assemble again at the call of the chair, which will probably be in two days' time.

and seventeen other property owners in St.
Matthew's Ward appeared to protest against
any other than the Toronto Street Railway
Company being given the right of laying the route across the Don.
Senator Smith was the first to speak. \*1

Company being given the right or laying test of route across the Don.

Senator Smith was the first to speak. "I suppose you know, gentlemen," he said, "that it he business which has called me before you accompanied by my solicitor is the proposed route over the Don. I am anxious to find out the reason why we are prohibited from laying the tracks after the action of the city in instructing us so to do. We took the instructions in good faith and have expended fully \$20,000 in getting the necessary plant. Our rails are lying on the ground, we have built sixteen new cars, bought a lot of additional horses and have our men in readiness. This thing is not just to us. If we have no rights let us know and we will then see what we can do. But do not keep nagging at us week after week. Act like men toward us and when the time comes take the franchise away from us, I am propared for that. I am sure, gentlemen, if I have said anything hurtful to your feelings I am sorry for it."

Ald. Baxter then got up and opened out into a glowing eulogium on the Toronto Street Railway Company, holding that it furnished the best service on the continent of America, and that in view of the letter of the City Solicitor there was no other choice but to let the T.S.R. Co, go ahead with the work.

Ald. Peter Macdonald, as leader of the deputation, got in some fine work on his absent rival, Ald. E. A. Macdonald. He proudly pointed to his following of seventeen, staing that they were all property owners along the line of Broadvew-avenue, and firm adherents of the T.S.R. Co. They did not want companies of straw, and were boun file residents of St. Matthew's Ward and not people interested in property in the village of Chester.

William Barrett, The Potato King, was the only commoner allowed to speak. He charged that the Toronto and York Street Railway Campany was a thing of straw and that Ald, Fleming and E. A. Macdonald were both interested in land proposed to be served by the new company.

Ald, Fleming at this point interrupted him.

"Jobject,"

do not speak."

Ald. Fleming: 'I wish to state that I am
not interested one dollar's worth in the company."

Mr. Barrett: "Then I take it all back and Mr. Barrett: "Then I take it all book and say I believe you."

This was about the most interesting portion of the debate, which occupied fully two hours. Ald. Shaw and Carlyle put, themselves on record as favoring the T.S.R. Co. Mr. Shepley got in a few words, the whole question was thrashed out and there was any quantity of loud talking. The matter was indjourned for a few days, the Chairman pledging himself to have all the kinks straightened out so that the City Council could pass, upon it at its meeting on Monday night.

Entirely Cured and, for the past year, have not found it necessary to use any medicine whatever. I am now in better health, and stronger, than ever before.—O. A. Willard, 218 Tremont st., Boston, Mass.

I was troubled with Scrofulous Sores for five years; but, after using a few bottles of Ayer's Sursaparilla, the sores healed, and I have now good health.—Elizabeth Warnock, 54 Appleton street, Lowell, Mass.

Lowell, Mass.

Some months ago I was troubled with Scrotnlous Sores on my leg. The limb was badly swollen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy failed, until I used Ayer's Sarsaparilla. By taking three bottles of this medicine the sores have been entirely healed, and my health is fully restored. I am grateful for the good this medicine has done me, — Mrs. Ann O'Brian, 158 Sullivan st., New York. Ayer's Sarsaparilla, Prepared by Dr. J. C. Ayer & Co., Lowell, Mass, Sold by all Druggists.
