Wellington and Front-streets East, Toronto.

CIVIC ELECTRIC LIGHTING.

The Fire and Light Committee resolved, after an animated discussion, to recommend the submission of a bylaw to the ratepayers relative to civic control of electric lighting.
Ald. McMurrich presided; the other
members present were Ald. Allen, Hubbard, Bell and Davies.

ment convinced of the benefit of the city undertaking electric lighting, but I am willing that the question should be submitted to the ratepayers. It should, I think, if the majority of this committee think fit, be submitted as a separate bylaw at the same time as the submission of the \$250,000 bylaw for water mains. The question of tenders will be considered after the will of the seconds is known.

will be considered after the will of the people is known.

Then the chairman read the Bertram Company's offer. He thought the name of the firm was a better guarantee than any deposits, certainly better than a \$5000 guarantee. He also cited the City Engineer in favor of civic control of sleatic lighting.

Ald. Bell: I think as I did at the last Ald Bell': I think as I did at the last meeting, that the committee has not got sufficient information to decide this question to-day. We have no official figures before us. I would like time for further consideration. I am not prepared to say whether it is advisable to submit this question to the ratepayers or not. If we recommend this to the people we should give them the figures to whide their vote.

ple we should give them the figures to guide their vote.

The Chairman: It is not for us to go into details of engineering. It is sufficient if we decide whether the ratepayers shall vote on the question or not. The people know that the City Engineer thinks civic control would be for the best interests of the city.

Ald. Allen favored the submission relying on the accuracy of the Engineer's ing on the accuracy of the Engineer's,

Ald. Davies could not understand Ald. Bell's objection. The matter ought to have been decided one way or the other long ago. At one time he thought it would be better to renew the contract with the Electric Light Company for a year or two rather than issue such a large amount of debentures; but in view of the way in which the Consumers' Gas Company has used the city, he now thought the time had arrived when the

thought the time had arrived when the city should equip an electric light plant, and that as soon as possible.

All the information needful for a decision was contained in the Bertram offer and the City Engineer's report. If the kity is not to do the work itself he thought it should be given to the Bertram Company. If electric lamps could be had at \$60 a lamp the yearly saving would be \$18,000 or \$20,000; and this in a few years would pay for the outlay. the outlay.

Nothing But Gas! Through the auditors it has been established that the city is entitled to a reduction in the price of gas, but these representations and reports year after year have ended only in gas. (Laugh-

things to continue. With civic control of electric lighting we shall be in a posiof electric lighting we shall be in a posi-tion to tell the gas company what should be done by them in the interests of the city. Instead of the present manipulation of their profits, the citizens would then get the benefit. There would be no necessity then for private citizens to enter suits at law against them for over-charges. He con-cluded by moving the submission of the question to the ratenavers as a separate question to the ratepayers as a separate

Ald. Hubbard also replied to Ald. Bell.

The only fair and honorable way was to let the people decide. Should this be favorable, he thought the Bertram Company should have the provision of the plant, as they had revealed their figures in the city's interest.

Ald. Hubbard also replied to Ald. Bell. of the blood, diseases of the kidneys and bladder its far superior to preparations costing a dollar a bottle. Its price is only 25 cents a large bottle.

FOR SALE EVERYWHERE. ASK FOR IT

Still Unconvinced.

Ald. Bell, in reply, said no one was more strongly opposed to the Gas Company's tactics than he. Still the speeches he had heard had not changed his opinion. He supposed the motion would carry but he reserved the right form of the carry of the converse of the conver to oppose it, not only in council, but on the public platform. (Laughter.) The Mayor favored the question going to the people.

The motion was then put and carried,
dissentient.

The motion was then put and carried,
Ald. Bell being the only dissentient.
The Chairman: What amount shall we insert in the bylaw?
The members conferred and agreed that the question of cost should be referred to the City Engineer. His estimate will be inserted before the question comes before the Executive.

The annual examinations for cadetships in the Royal Military College will take the several contents.

street, to superintend western district; Deputy Chief Villiers at Yonge-street, for the northern district.

These transfers were recommended: Foreman Charlton of No. 2 to Dundas-Foreman Charlton of No. 2 to Dundas-street, and to be recognized as senior foreman of the western, who shall take command of all fires in that district until the arrival of the district or other chief; Foreman Irwin from Dundas to Portland-street; Foreman Smedley, to remain at

Foreman Frank Smith of No. 1 to Wilton-avenue, to be senior foreman of the eastern district; the foreman at Wilton-avenue transferred to Lombard-street.

A buggy was recommended to be purchased and stationed at Lombard-street Firehall for the use of the chief and deputy chief, at a cost of \$80.

All these recommendations were adopted.

The chief recommended that a two-horse hose wagon be substituted for the hose reel at the Queen-street firehall. The cost would be about \$225. The The cost would be about \$225. The only additional expense would be the purchase of one-horse and keep of same, about \$157 a year.

He further recommended a new hose

He further recommended a new hose wagon for Brock-avenue, at a cost of \$150; and that small "Fire-king" extinguishers be attached to the several hose wagons, at a cost of \$100, for the putting out of incipient fires.

A hook and ladder equipment for Ossington-avenue, at a cost of \$4000, and a one-horse chemical engine for Yongestreet at a similar cost, were recomet, at a similar cost, were recom

commensurate with the interests the city has at stake. He objected to the expenditure in Ossington-avenue, where the station was amongst cabbage gar-

Ald: Hubbard asked the chairman if the insurance companies contemplated do not 44 3-4. St. Paul closed at 56 1-2 establishing a salvage corps.

Evice at 8 5-8, Reading at 4 7-8 and N.Y.C. mend the submission of a bylaw to ratepayers relative to civic control lectric lighting.

Ald. McMurrich said personally he was lectric lighting.

Ald. McMurrich said personally he was very much in favor of such a course.

He had not been able to effect, such a result, but he was hopeful of doing so. He spoke of their success in New York, Montreal and other cities.

Ald. Bell moved that the chairman, the secretary of the fire department and the chief of the benefit of the city setablishing a salvage corps.

The New U.S. loan sold to-day at 119 1-8 to 119 3-8.

Bradstreet reports a decrease in whent this week of 2,718,000 bushels east of Rockies, and a decrease of 2,853,000 bushels.

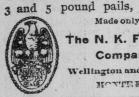

Ald. Bell moved that the chairman, the secretary of the fire department and the chief of the brigade make inquiries of the visible decreased 4,477,000 bushels. Ald. Davies seconded and it was so re-

Henry A. King & Co.'s special wire from Ladenburg, Thalmann & Co., New York:

The stock market continues to disappoint the bullish portion of the street, During the early hours prices were steady and the bear contingent seemed to be somewhat dismayed by the absence of liquidation. In the afternoon, however, the Cammake bear brokers attacked the Grangers and produced more or less impression in spite of the manifestly artificial character of the movement. The salient features of the market is that the success of the bond issue was not developed outside, interest

in railroiad securities either here or in London, and that the exchange market holds remarkably firm in spite of the manifest efforts of the bond syndicate to avert a further rise, with the attendant possibility of good exports. The market was so inactive at the end of the day that it would be difficult to ascribe to it any absolute tendency. At the same time it is impossible to describe the closing tone as anything but weak.
