FOOD AND CLEANLINESS.

Sydney Bulletin: All food is sacred. The community of man arose out of the necessity for combination in maintaining the food supply of the race. The honest sweat that goes to win our bread from the soil is not a thing to be treated lightly. A country like Australia, which holds the possibilities of a food supply infinitely beyond its own requirements, is holding those possibilities as a trust for the race. Yet in plain and sordid fact there is nothing which we treat with such easy contempt. Half the food put before Australians is either wasted or spoiled in preparation, sometimes by the manufacturer and dealer, and sometimes by those whose daily standards of living are too loose to regard the maintenance of life as worth a little trouble. Loaves of bread are tossed about by unclean hands; the deadly trying-pan makes a quick and evil meal for the worker in homes where the women have never given an honest thought to their job.

BRITAIN'S SURPLUSES.

London Chronicle: The Select Committee on Public Accounts do well to protest against the post-war habit of over-estimating by Departments. At the end of the last four financial years the Treasury had surpluses of 230 millions, 45 millions, 101 millions and 48 millions respectively. In other words, the taxpayers have during four years had to pay 424 millions more than was needed to run the country. They have been overtaxed on the average by no less than 106 millions a year. The money has not been thrown away; it has gone towards reducing the Debt. But in a period of bad trade and unsteady equilibrium, immediately after the ordeal of the war itself, there is no justification for taking from the taxpayer even to repay debt, more than the necessary and pre-arranged amounts.

PESSIMISM.

Le Figaro (Paris): After the enforcement of the Dawes report, we shall find ourselves in exactly the same situation as that in which we found ourselves after the payments of May, 1921. With this exception, that Germany in order to obtain an acquittance for her debts, will have no more efforts to make, no more deceptions to practice. She will then be able to enjoy the luxury, a new one for her, of straight dealing. She will be at liberty to print sales of notes representing for financiers the same value as was placed by Bethmann-Holweg in 1914 on the treaty of 1831. Scraphs of Paper! This must be the final result of all the toil by day and the toll by night, the notes and the negotiations, the compromises, the interviews, the journeys and the agreements, the conversations and the quarrels.

JAPS AND COLONIZATION.

Singapore Free Press: The Japanese do not on the whole either care for, or prosper on a large scale under tropical conditions. His orientation mentally and physically is northward and it is to the North rather than the South that he will turn as a race. The pressure of race expansion forced his leaders to consider the necessity for emigration, more especially as on the whole his country is not an over rich one naturally. Many colonization emigration schemes have been tried and others are to be tried.

YARMOUTH AND BRIDGETOWN HIGHS BROKE EVEN

A goodly number of local followers of baseball as well as many visitors were treated to good games on Friday afternoon when the teams from the Yarmouth and Bridgetown High Schools played a double-header. In the first game in the afternoon Yarmouth won by a score of 6 to 4, while in the evening the visitors well reversed the score when they completely blanketed the home team by a score of 9 to 0. The batteries in the afternoon were: Yarmouth, Margolian and Harris; Bridgetown, Dorey and Hoyt. Evening Yarmouth, Surette Robicheau, Surette and Harris; Bridgetown, Dorey and Hoyt.

SELFISHNESS IN STATES

Adelaide Chronicle: There is no charge more fatal to a man's character in the eyes of the world than that of selfishness, and a nation is but a man "writ large." The same principle of indifference to the welfare of other States, which certain statesmen are striving to make the policy of America, would lead to a strange era of pusillanimity and cruelty were it applied to the affairs of individuals. There would be no heroism in private life, no self-sacrifice, no risks run for the sake of duty. It is reassuring to find that President Coolidge, in the teeth of the bulk of his party, is declaring that he will have no part or lot in such a policy. No doubt, as a cable message stated the other day, it is a remarkable event in American history that a man who is the avowed nominee for the highest post in the United States, should still cherish in his advocacy of adherence to the World Court a policy which almost every other spokesman of that party has repudiated.

HUMANITY AND HERRIOT.

London Daily Express: The critics of M. Herriot complain that he is too human, too prone to be the kindly, easily approachable citizen, and not enough the high State official. If those charges be true, then we congratulate France on her emissary. For far too long a period the little lawyer-dictator Poincare kept himself aloof from normal human influence. His was the spirit of the bayonet when the time for bayonets had long since passed. His was the shaking of the mailed fist when stricken Europe was crying out for the hand of toleration and co-operation. . . M. Herriot will have to face bitter criticisms on his return. That is inevitable in a country where so many politicians are steeped in a passionate prejudice that will never admit of reason. But M. Herriot, even if the conference fails, will be strengthened by the knowledge that he came to the London conference not as a self-styled dictator or a malcontent, but as a great Frenchman interpreting the true spirit of a great humanitarian country.

NEW HANDBOOK ON THE MARITIMES

Much information in Publications of Natural Resources Intelligence Service.

When the Scottish editors visited the Maritime Provinces recently they remarked on the lack of knowledge in Scotland of this portion of Canada. This same condition exists elsewhere, unfortunately. To overcome as far as possible this discrepancy the Natural Resources Intelligence Service of the Department of the Interior at Ottawa has issued two handbooks, one on New Brunswick and the other on Nova Scotia. These reports contain a large amount of information that should be known about these provinces by their own people. It is suggested that those interested should send to the Director of the Natural Resources Intelligence Service for copies, and that they advise those whom they would like to know more about their home province to do the same.

FRUIT TREATMENT HEALS KIDNEYS

Anyone who has suffered with Weak or Irritated Kidneys—with the accompanying miseries of pain in the back, splitting headaches, swollen hands and feet, rheumatism and constipation—ought to try the Fruit Treatment for their trouble.
To those who use intensified fruit juices—"Fruit-a-tives"—for the first time, it seems almost impossible that the juices of apples, oranges, figs and prunes combined with tonics, could relieve kidney trouble.
But a short treatment of "Fruit-a-tives" gives quick relief and the regular use of these intensified fruit juices or "Fruit Liver Tablets" prove their marvellous virtues.
Get "Fruit-a-tives" today and begin the Fruit Treatment. At all dealers; 25c. and 50c. a box; or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

LAND TO CHURCH IN MEMORY OF MOTHER

Parker's Cove Congregation Receives a Gift of Twenty-five Acres.
Granville Ferry—Miss Sarah Blair, R. N., of New York, who is spending the summer at Stoney Beach, has given 25 acres of land at Parker's Cove to the Methodist Church, for the use of the Methodist congregation there. This valuable gift is made by Miss Blair as a memorial to her mother, who was a devoted member of the Methodist Church at Parker's Cove.

PHINNEY COVE.

Miss Iris Mitchell and Miss Edna Mitchell of Hampton, were Sunday guests to Mrs. Annie White.
Mr. and Mrs. Edmund Bent drove to Granville Ferry on the 11th for a few days with Mrs. Bent's parents, Mr. and Mrs. Richard Sarty.
Mr. and Mrs. Ruben Chute and baby, Mrs. Annie Farnsworth, Miss Florence Farnsworth, Mrs. Ethel Hamilton and baby, all of Hampton, motored to Parker's Cove on Sept. 2nd and on return stopped at Mr. Frank Chute's where a picnic supper was enjoyed, followed by a musical entertainment.
Mrs. E. V. E. Mason had a visit on the 7th from her granddaughter, Miss Mary Pigott. Miss Mary has been for several months with her uncle, Mr. Charles Pigott, in British Columbia, later going to Santa Cruz, Cal. From there Miss Mary, only 13 years old, came home, via Chicago, all alone, to Paradise, where her father is living.
Mr. Crisp enjoyed a motor trip to Victoria Beach on the 6th, in company with his friend, Mr. A. R. Nurse of New York, who is visiting his wife's people at Parker's Cove.

THE TOURIST BUSINESS.

Canada is enjoying a good season in the tourist business. It has been estimated that this industry now represents an annual financial turnover approaching \$150,000,000. But the fact remains that Canadians are not making the best of their opportunities by any means. Those who have studied the trade possibilities are convinced that it would be easily possible to increase the proportions of the business to \$300,000,000 a year by selling Canada's tourist attractions to the world—and particularly the United States—and by taking advantage of the opportunities of selling goods, service and accommodation to the tourists. And what other industry presents anything like the possibilities for satisfactory profits in relation to the costs involved and the consumption of our raw materials?

FIFTY CASES OF BIGAMY IN ANNAPOLIS COUNTY!

Emphatic Declaration by Rev. A. J. Prosser at Convention.

Truro.—The Social Service Council of Nova Scotia closed its annual convention here Thursday evening. Dr. J. J. Hunt, judge of the Juvenile Court, Halifax, at the morning session gave an address on child welfare.
Rev. A. J. Prosser, agent for the Children's Aid Society in Annapolis and Yarmouth counties, spoke on the social aspects of child welfare. He declared that there was too much laxness in giving children away to others. There should be legislation on this point, he said. He also declared "I don't care how widely it is published, there are in Annapolis county, fifty cases where persons are living in bigamous relations."
Rev. L. W. Parker, of Parrsboro, called attention to the criminal code which makes bigamy a crime, for which imprisonment is the penalty, and said it was the duty of Mr. Prosser or any other citizen to lay information in such cases. "Punishment, he said, is a detriment to crime, but let these cases go unnoticed and the crime and practice grows in the community."
Jane B. Wisdom, of Montreal, gave an address on "Delinquency as a child welfare problem."
E. H. Blois of Halifax, superintendent of neglected and delinquent children in this province, took part in the discussion which followed.
