

7½c to 8c per lb. wholesale, 8¼c to 10c retail. Cheese, wholesale 11c to 11½c per lb.; retail 12½c to 18c per lb.  
 Beef—Inferior \$5 to \$6 per cwt., extra, \$6 00 to \$6 50 per cwt. wholesale, 5c to 8c per lb. for ordinary, 9c to 10c for superior, retail.  
 Calves scarce at \$4 to \$6 each.  
 Sheep at \$5 to \$7 each, according to size and quality.  
 Lambs \$2 to \$4 00 each.  
 Butter—Fresh, wholesale, at 20c to 25c per lb., retail 30c to 3½c per lb. Tub butter, dairy packed, 23c to 25c according to quality, wholesale, retail, 25c to 30c.  
 Eggs—16c per dozen, wholesale; retail 16c to 17c per doz  
 Salt—\$1 75 to \$2 per barrel.  
 Water Lime—\$1 50 per barrel.  
 Potatoes—25c to 40c per bushel, wholesale; 45c to 55c per bushel, retail.  
 Apples—Common to good, \$1 50 to \$2 25 per barrel, extra \$2 60 per barrel.  
 Coal Oil—20c to 37c for Canada; 40c to 58c for Pennsylvania.

**London Markets**—April 13.—*Fall Wheat*, 98c to \$1, the latter price for extra samples only. *Spring* 76c to 81c. *Barley* wanted, at 76c to 85c. *Oats* continue steady at 36c to 40c. *Pease* wanted at old rates, 46c to 52c. *Clover* and *Timothy* is well supplied in the stores, although but little comes to market. *Timothy*, \$1 75 to \$2 50; *Clover*, \$4 75 to \$5. *Hay* has been scarce this week, at \$9, \$10 and \$11. *Oat Straw*, \$2 to \$4 per load. *Hogs*—Very few received, rates from \$5 to \$5 50. *Beef*—Good hind-quarters sold readily at from \$4 to \$6 per 100 lbs. *Potatoes* scarce at 75c. *Butter*—The scarcity of butter still continues. As high as 40c per lb. was paid for rolls on Saturday. The price has moderated since, and to-day small lots of good quality sold for 25c. The supply is still limited and will continue so for some time. *Hides*—Green, \$5, dry, \$10 per 100 lbs. *Sheepskins*, \$1 25 to \$2.—*Prototype*.

**Hamilton Markets**—April 12.—*GRAIN*—*Fall Wheat* per bushel, 80c to 87½c; *Spring Wheat*, 75c to 80c; *Barley*, 75c to 80c; *Buckwheat*, 45c to 50c; *Pease*, 50c to 55c; *Oats*, 44c to 45c; *Corn*, 70c; *Oatmeal* per barrel, \$6. *Provisions*—*Potatoes*, 62½c to 75c per bushel; *Apples*, 50c to \$1; *Butter*, fresh, per lb. 25c to 30c; do in firkins, 15c to 20c; *Eggs* per dozen, 12½c to 15c; *Beef*, hind-quarters, \$4 50 to \$5 50; do. fore-quarters, \$3 50 to \$4; *Pork*, \$6 25 to \$6 62½; *Chickens* per pair, 25c to 50c; *Cheese* per lb., 9c to 12c; *Lard*, 12½c. *Hay*—\$7 to \$10 per ton; *Straw*, \$1 50 to \$3 per load. *SEEDS*—*Clover Seed*, \$4 50 to \$5; *Timothy*, \$1 15 to \$2 25.—*Spectator*.

**Montreal Cattle Market**—April 12.—*First Quality Cattle* \$7 to \$7 50; *Second and Third*, \$6 50 and \$5 50; *Milch Cows* \$15 to 200; *Extra* \$30 to \$35; *Sheep*, ordinary, \$1 to \$6; extra, \$3; *Lambs*, \$2 50 to \$4. *Hogs*, live-weight, \$5 50 to \$6; dressed, \$7 to \$7 50. *Hides*, \$5 to \$5 50. *Pelts*, \$1 75 to \$2 60. *Tallow*, 6c to 5½c.

REMARKS—Supply and demand about equal.—*Witness*.

**New York Cattle Market**—BULLS' HEAD, April 12.—Scarcely anything, however poor, could be had for less than 14c, and good fair retailing steers, such as shop butchers usually buy, were held still at 15½c to 16c, while selected animals from the best droves were weighed out at an agreed shrinkage for 17c per lb. The weather was unfavourable, and the yards muddy, but neither the rain nor the filthy yards prevented a brisk trade, and few cattle were left unsold at night. *Milch Cows* are in good demand, and are worth \$3 per head more than last week. Good Cows are scarce, being kept in the country, where they are worth as much as here. Fair Cows, without their calves, are bringing \$50 to \$60, and good milkers \$65, and even more, per head. *Veal Calves*—Receipts very large, being made up mainly of little, half-grown animals totally unfit to sell for veal. The high price of milk leads farmers to send off their calves when one or two weeks old. They suffer less, however, as hundreds of calves had to be sold at 5c to 6c per lb., which would bring 8½c and 9c if kept well fed two or three weeks longer. More than half the calves now coming to market will not weigh 100 lbs. alive, and it is a disgrace to our system of markets that such animals are sold for veal. The top price for fat calves is 9c, and of 100 head sold by a Forty-fourth street dealer only 7 brought that price. "Bobs" are bringing \$1 50 to \$2 each. *Sheep*—live weight, 10c to 10½c per lb. *Hogs*—live weight, Western corn fed, 8½c to 9½c per lb.; distillery-fed hogs, 8½c to 9c per lb.

**Albany Markets**—April 12th.—*Flour and Meal*—The market is much excited, and upon the receipt of intelligence from New York, holders of all descriptions put up prices full 25c per barrel. With increased orders from the East and a large home demand, which is in part speculative, much buoyancy is felt. The stock has been much reduced during the past week, and of some descriptions the market is almost bare—particularly for low grades. *Extra State* is selling at \$7 20 to \$7 50; *Finest Genesee* \$5 to \$8 50 and *Extra Genesee*, including city brands \$9 50 to \$9 75. *Corn Meal* is firm with an upward tendency. *GRAIN*—*Wheat* is in good milling request and prime is plenty. Inferior *White Genesee* at \$1 78 in store. *Rye* without sales. *Corn* has advanced 3c per bushel with moderate receipts and an active demand at \$1 23 for *Round Mixed* at the Central Depot, \$1 30 for *Round Yellow* here, and \$1 31 for do. in car lots, delivered at East Albany. *Barley* quiet. *Oats* in moderate request at 87½c, delivered. *Wool*—A firmer market, with an improved demand. Sales 5,000 lbs. super Pulled at 75c, 25,000 lbs. do. do. on p. t. and 6,000 lbs. extra do. on p. t. *Beeswax*—This week: *Premium* \$3 50 to \$9 00; *Extra* \$7 50 to \$8; *First Quality* \$6 50 to \$7 00; *Second Quality* \$5 50 to \$6 00; *Third Quality* \$4 25 to \$4 75. *Sheep*—There is a marked falling off in the supply of sheep, while the demand continues active—no might say remarkably so, considering the lateness of the season. It is the skins, owing to the high price of wool, rather than the mutton, that are wanted, and hence there is not now paid the customary difference between light and heavy sheep. To-day, for instance, while 9½c to 9¼c per lb. is paid for prime wool sheep, averaging only about 90 lbs., it is difficult, if not impossible, to get 10c for extra heavy, averaging from 135 to 140 lbs. *Hogs*—*Hogs* are up to 9c for the best heavy corn fed fat State and Western, and the demand is good, for the East as well as for New York. The range of prices is from 7½c for common light to 9c for extra prime head. Extra heavy stillers are worth 8½c to 8¼c. Of the receipts 10,500 were shipped directly through to New York. But few are being taken here now.

**Boston Markets**—April 12th.—*Flour*—The market is firm and the demand is good. Sales of Western superfine at \$7 25 to \$7 50; common extra, \$7 75 to \$8; medium do., \$5 25 to \$5 75; good and choice do., \$9 to \$11 50 per barrel. *GRAIN*—*Corn* is very firm. Sales of new Southern yellow and old Western mixed, \$1 45 per bushel. *Oats* are in good demand. Sales of Northern and Canada at 64c to 67c per bushel. *Rye* is selling at \$1 31 to \$1 35 per bushel. *Shorts* are firm at \$39 to \$40. *Fine Feed and Middlings* \$40 to \$43 50 per ton. *Provisions*—*Pork* is firm and in good demand. Sales of prime at \$20 50 to \$21 50, mess, \$23 50 to \$24 50; clear, \$28 to \$27 per bbl., cash. *Beef* is in steady demand. Sales of Eastern and Western mess and extra mess at \$14 to \$18 per bbl., cash. *Lard* is in moderate demand. Sales in bulk at 13½c per lb., cash. *Hams* are selling at 16c per lb., cash.

**THE PRACTICAL SHEPHERD,**  
 A COMPLETE TREATISE ON THE BREEDING, MANAGEMENT AND DISEASES OF SHEEP,  
 BY HON. HENRY S. RANDALL, J.L.D.,  
 AUTHOR OF  
 "Sheep Husbandry in the South," "Fine-Wool Sheep Husbandry," &c., &c.  
 PUBLISHED BY D. D. T. MOORE,  
 ROCHESTER, N. Y.

THIS WORK, first published last fall, has already reached its fifteenth edition, and the demand has thus far been extraordinary. A new and revised edition is now ready, and others will follow in such rapid succession, that all orders can hereafter be filled promptly. No volume on any branch of agriculture or husbandry ever had so rapid a sale, or gave such universal satisfaction. The work is a timely one, and unquestionably THE BEST AND MOST COMPLETE TREATISE ON SHEEP HUSBANDRY EVER PUBLISHED IN AMERICA. It is cordially welcomed and highly approved by both press and people. Witness the following extracts from a few of the numerous reviews and letters the work has elicited.—

From the Canadian Agriculturalist.

As sheep husbandry is daily acquiring more importance in Canada, we can safely recommend to our farmers "The Practical Shepherd" as the most comprehensive and valuable treatise on this subject that has yet emanated from the American press. Every farmer having a flock of sheep, of whatever breed and however small, would do well to procure a copy.

From the New England Farmer, Boston.

"The Practical Shepherd" is a work that has long been needed by our people. It should be in the hand and head of every person owning sheep.

From J. H. Klippart, Sec. Ohio State Board of Agriculture.

I shall with great pleasure recommend the "Practical Shepherd" as being the great American work, if not really the best work in the English language on the subject.

From Hon. I. Newton, Commissioner of Agriculture.

I beg to thank you for the very interesting work, "The Practical Shepherd." It was much needed, and fully supplies the wants of the farmer.

From the Maine Farmer.

The name of the author, Hon. H. S. Randall, is a guarantee of its completeness and reliability.

From Col. H. P. Johnson, Sec. N.Y. State Ag. Society.

It is the best practical sheep book, I think, ever published, and does great credit to Dr. Randall.

From Hon. T. C. Peters, former Editor of the Wool Grower.

The book is all that any one could ask on the subject. It is the best of its kind, and superior to the heretofore—Youarr. You have fully vindicated your fastidious taste in the style the volume is issued.

From the Ohio Farmer.

The reputation of the author—who ranks as the authority in this country upon all that pertains to the breeding and management of sheep—will induce a large and continued demand for "The Practical Shepherd."

From the Michigan Farmer.

Mr. Randall has made the very best book extant on American sheep husbandry.

From the Country Gentleman and Cultivator.

As a whole, this book is unquestionably in advance of anything of the kind now before the public.

From the Scientific American, New York.

It is vastly important that those who raise sheep should obtain all the information possible how best to manage their flocks, and we unhesitatingly recommend "The Practical Shepherd" as the most interesting and reliable work on the subject extant.

THE PRACTICAL SHEPHERD is sold only by Agents and the Publisher. It comprises 454 large duodecimo pages, and is printed, illustrated and bound in superior style. Price \$1 50. Those not supplied by Agents can receive copies by mail, post-paid, on forwarding the price to

D. D. T. MOORE,  
 Editor Rural New Yorker, Rochester, N. Y.

AGENTS WANTED for the above work in the sheep and wool growing counties of Canada.

FLAX AND HEMP CULTURE.

Just Published, the sixth edition of "A MANUAL OF FLAX CULTURE AND MANUFACTURE," embracing full directions for preparing the ground, sowing, harvesting, &c., &c. Also, an ESSAY by a Western man, on HEMP AND FLAX in the West: Modes of Culture, Preparation for Market, &c. With botanical descriptions and illustrations.

The work, first published last season, is in handsome style, pamphlet form. Price only 25 cents—for which a copy will be sent to any point reached by the U. S. or Canada mails.

Address—

D. D. T. MOORE,  
 Rochester, N. Y.

MOORE'S RURAL NEW-YORKER.

The second quarter of Vol. XV. of this valuable and immensely popular AGRICULTURAL, HORTICULTURAL, LITERARY AND FAMILY WEEKLY, commences April 2—a good time to subscribe. The

RURAL is known and admired in all sections (outside of Rebellom) from Maine to Minnesota, and Canada to California. It comprises over a dozen distinct departments, including Agriculture, Horticulture, Sheep Husbandry, Domestic Economy, Literature, News, &c., &c., and employs the BEST TALENT. Among its editors and contributors are the Hon. H. S. RANDALL, author of "The Practical Shepherd," &c., who conducts the department devoted to Sheep Husbandry, and P. BARRY, Esq., author of "The Fruit Garden," and former editor of *The Horticulturist*, who ably treats upon Horticultural affairs. Indeed, as the *N. E. Farmer* said years ago, THE RURAL is like a honey-comb, having sweets in every cell. Taste and see. Terms, only \$2 a-year—less to clubs. Two special men numbers sent, post-paid, on receipt of ten cents.

Address,

D. D. T. MOORE,

Rochester, April 15.

FARM AND WILD LAND FOR SALE.

THE subscriber offers for sale a CLEARED FARM of 60 ACRES, on Yonge Street, near Toronto, with buildings all complete. ALSO, 1400 ACRES OF WILD LANDS,

In the Townships of Sydenham, County of Grey; Sommerville and Bexley, County of Victoria.

The Wild Lands very cheap for cash or short terms of payment. Titles indisputable.—Apply to

G. J. F. PEARCE,  
 Richmond Hill P. O.

April 15, 1864.

7-11

FRESH SEEDS.

THE subscribers have received their usual supplies of English and Foreign Seeds—growth of 1863—which they offer upon favourable terms to farmers, gardeners and merchants.

Their stock comprises in part the following—250 Bushels Turnip Seeds, sorts; 3,000 lbs. Large Red Onion, warranted; 1,000 lbs. Mangold Wurtzel, sorts; 1,700 lbs. Carrot Seeds, sorts; 600 lbs. Radish Seeds, sorts; 600 lbs. Cabbage Seeds, sorts. Also, Pease, Beans, Lettuce, Cauliflower, Pot Herbs, Melons, Corn, &c. &c., Land Plaster, Superphosphate of Lime, Linseed Cake, superior food for cattle.

LYMANS, CLARE & CO.,  
 226 St. Paul Street, Montreal.

April 15, 1864.

7-11

RIGA FLAX SEED.

THE subscribers offer for sale a small Parcel of Riga Flax Seed, for sowing, just received, viz. "Jura," which they will dispose of at cost of importation. Also, Riga Flax Seed, first growth of Canada, of superior quality. The price of the former is \$6 50 per bushel, that of the latter \$3. Cash with orders, post paid.

LYMANS, CLARE & CO.,  
 226 St. Paul Street, Montreal.

April 15, 1864.

7-11

COE'S SUPER-PHOSPHATE OF LIME.

TESTIMONIALS.

FROM DR. THOMAS ANDERSON, Professor of Chemistry in the University of Glasgow, and Chemist to the Highland and Agricultural Society of Scotland. In a communication to Messrs. Law, Young & Co., Montreal, of August 15th, 1863, he says:—

I HAVE analyzed Coe's Super-Phosphate of Lime, manufactured in Montreal, Canada, which is clearly a well and carefully manufactured Manure, made from excellent materials and thoroughly genuine.

FROM HENRY CROFT, Professor of Chemistry in University College, Toronto, and Chemist to the Board of Agriculture of Upper Canada. In reporting an analysis which he made of the Super Phosphate in September, 1863, remarks:—

"The Manure—containing in the insoluble portion, phosphate and sulphate of Lime—and in the soluble part so large a proportion of the salts of ammonia in such a form as to be readily assimilated by the plants,—must be a very valuable substitute for Guano or other Manure, and the oils present may be useful in driving away insects, independent of any action as a manure."

COE'S SUPER-PHOSPHATE.—We have been requested to publish the following testimonial with respect to the fertilizing qualities of Mr. Coe's excellent manures. They are rapidly becoming known as one of the best agents which could be applied to exhausted and other soils, and the demand for them is now so large that the manufacturing factory has had to be increased in extent and capacity.—

ST ANDRE AVELIN, Feb. 24, 1864

DEAR SIR.—In the spring of last year I tried in my garden your super-phosphate of lime on tobacco and turnip plants. On one hill of an ill prepared piece of ground, I planted, in hills of four feet apart, one hundred plants of tobacco, with a handful of the super-phosphate to each hill. I planted on the other half, one hundred of the same quality of plants, on which I used strong barn yard manure for each hill. The growth of both fields was very fine but the plants where the phosphate was applied got stronger and keener, some measured seven feet ten inches high. Whereas those where barn yard manure was used only grew five feet high and ripened two weeks later. The result of my experience on turnips has also proved that super phosphate of lime, as a fertilizer, is at least equal, if not superior, to guano.

Very respectfully yours,  
 A. SIGUIN, M. D.

Andrew Coe, Esq., Montreal.
