REFORMATION IN TRAUB.

Reform, reform is the cry of the day, While old-fashloned insuts are passing away. While caloric has triumphed, so pisinly 'twould sees O'er the old-fashloned method of putting by steam.

Let us giance at Toronto, which a few years ago, Was dark Muddy York, as you very well know, And see it to-day, midst our cities the best, And deservedly styled, the Queen of the West.

Just look, if you please, at its elegant homes,— Its beautiful churches, their spires and their domes. While its fine public building, erected with taste, Adora the sile of some old marsh) waste.

Is murshes have fied by the aid of our drains, Its forests are open'd by the speed of our trains; The pust we have seen, the present we see, Well, well, we may ask, what the future will be.

Even now, where the waves of Ontario roar, And dash their white spray on the long beaton shore, That spot so long sacred diors science invade, And the billows give place to a grand Esplanade

But reforms as important as these have been made, Which greatly have altered the aspect of trade, Old styles and old habits, old prices have past, And customs much better are practised at last.

The Honners for instance, which a few years ago Would cost you a dollar and a quarter, or so. A much floer style you now may procure, For less than one-fourth of that sum! I am sure.

Not did you then think that the terms were hard, If you bought a good print for a shilling per yard, But now you may purelanse for half of th t price, A cloth quite as good, and a style just as nice.

Will you call at McDONALD'S I if it is but to try, I'oun his well-sorted Stock how cheep you can buy And we venture to say, when you took through his sor You will wonder you never have found it before.

This a three story house, with the front painted white Which makes its oppoarance both graceful and light, With very large figures, which you plainly may see, Describing its number as Our Hi sphere are There.
