

# Typewriting is an Art

We teach it in a scientific manner, using the Touch Method, under the direction of a **Special Expert Teacher.**

We provide **Fifty Standard Single Key-board Machines**, and require all students to become proficient touch operators. We then give them instruction in the mechanism and use of **Ten** different styles of machines, including Smith-Premier, Remington, Yost, Jewett, Empire, etc., so that our graduates go out prepared to operate any machine met with in business offices.

**Don't you think**

we can produce better results than a school with 20 machines or less, and no special teacher for the work?

**We do**

and the brightest young people in our Dominion are finding it out.

A Typewriting Room, C.B. College

The best of it is the same good work goes on in every department the year round. You can enter our School at any time, and complete any term you like without interruption through closing for holidays.

**Central Business College...**

Yonge and Gerrard Streets, Toronto  
Shorthand, Typewriting, Telegraphy  
and Penmanship Departments

## Church & Chapel Organs

We make this line of business one of our specialties.

We handle the product of such celebrated makers as **Mason & Hamlin, Estey, Karn and Thomas.**

We carry everything in the line of Reed Organs, from a portable organ for missionary work, to a double bank organ with pedal notes.

Prices and terms to suit almost any case  
Inspection or correspondence solicited

**GOURLAY, WINTER & LEEMING**
