

MONTREAL MINING EXCHANGE.

SLOCAN SOVEREIGN AGAIN STRONG
—INDICATIONS OF REALIZATIONS
IN SPOTS—CONCESSIONS NOT THE
RULE—GOLDEN STAR STILL
WEAK.

Market may be termed broad and moderately active, with free offerings in some stocks. Among the most prominent in this category are Big Three, California and Okonagan. When the present offerings are absorbed a decided advance in the lot may be looked for unless they last out the present bull spell. In most other stocks dealt in the demand seems to exceed the supply, and activity is the result in many quarters accompanied by an improvement in prices. In this list Gold Hill Development is the most prominent. For the past three months large blocks of this stock were for sale both here and in Toronto, and whenever from 6 to 6½ was bid shares were showered on the buyers. To-day it is scarce at 10. This advance is sufficient for the present, on all bulges it should be sold.

Slocan Sovereign was in demand at 34 and 35, it closed offered at 36.

Blocks of California still come out, 12-500 changing hands to-day.

Virtue sold at 44. The price of this stock is easily affected, selling orders breaking it two or three points, whilst attempts to accumulate stock cause quick advances. Golden Star was sick at 40. It declines steadily and may at any time rally, but we look for lower prices yet, as dissatisfied holders continue to throw the stock over.
