C. T. PALSGRAVE.

MONTREAL TYPE FOUNDRY.—PRIZE

MEDAL, awarded to C. T. PALSGRAVE, at the World's Fair, London, 1851.

SILVER MEDAL awarded at the late Exhibition in Montreal, 1860.

Careful attention to the minutiae of Type manufacture in all its divisions has obtained for this Foundry a high reputation for finish, durability and justification. The Metal of which the Type is manufactured is peculiarly tough and lasting, and this, combined with the deep cut of the Scotch Faces, makes the Letter at least equal in durability, and superior in smoothness of face, to coppered type. The large Stock kept on hand enables the Proprietor to fit out any Office at a day's notice.

By special arrangement with Messrs. L. Johnson & Co., of Philadelphia, and the most eminent Type Founders of New York, and by importing in large quantities at a time, the undersigned is enabled to sell to the Canada Printer the NEWEST DESIGNS OF FANCY LETTER, BORDERS, &c. at a less cost than he could import a single invoice—articles being furnished at Manufacturers' prices, with the addition of the bare cost of importation.

PRESSES of the best Manufacturers and PRINTING MATERIALS of all kinds sold at Manufacturers' rates with freight added.

PRINTING INKS from the most celebrated Makers are sold at New York prices.

A new and enlarged Specimen Book is now in course of preparation and will shortly be issued.

Terms, 10 per cent discount for cash, or 6 months' credit for approved paper.

Old Type taken in exchange for new at 10 cts. per lb.

C. T. PALSGRAVE,
Cor. St. Helen and Lemoiné Streets, MONTREAL.
And 35 Colborne Street, TORONTO.
