

CHRONIC CYSTITIS SUBINVOLUTION OF UTERUS ABORTION -- STONE AND CYSTITIS ENLARGED PROSTATE. R. W. Felkin, M.D., L.R.C.P. Edin., L.R.C.S. Edin., F.R.S.E., F.R.C.S., etc., etc., Alva Street, Edinburgh, Scotland, says: "I have used Sanmetto extensively; indeed on two occasions the chemists were out of stock. I have been exceedingly pleased with it in numerous cases. I may especially mention three cases of chronic cystitis, three cases of sub-involution of the uterus, one case of abortion, one case of stone and cystitis (unfavorable for operation), and four cases of enlarged prostate. I shall go on prescribing Sanmetto as occasion serves."

OPIATES NOT TO BE PREFERRED. -- Pain, while being conservative, is oftentimes unkind and must needs be modified and controlled. Remedies like morphia which tie up the secretions, are often objectionable. Antikamnia has no such unfavorable effects. As a reliever of neuralgia, dependent upon whatever cause, and rheumatism and gout, it is of great value. In the intense pains ever pre-

sent in the pelvic disturbances of women, cellulitis, pyosalpinx, *et al.*, it is to be preferred over opiates. This drug, for convenience and accuracy of dosage, is now prescribed, to a great extent, in the tablet form. Patients should be instructed to crush the tablet before taking, thus assuring celerity. The manufacturers have thrown around their product the security of specially protected packages, for both powder and tablets. And each tablet bears a monogram indicating its composition. Physicians should therefore insist on the presence of these conditions -- *Ex.*

TO USE GRANULES HYPODERMICALLY. --

1. Boil a little water in a spoon over a flame; this sterilizes it.
2. Take up a syringe-ful to wash out and sterilize the syringe.
3. Dissolve the required amount of granules in a sufficient amount of the water remaining in the spoon to equal the amount required for injection, boiling while dissolving.
4. Take up solution in syringe and when cool enough inject. -- DR. W. H. WALLING, in *Medical World*.

The Latest and Best....

HAPPY RELIEF ABDOMINAL SUPPORTER

No. 1.

241 SPADINA AVE.,

TORONTO, April 7th, 1894.

I have used Mrs. Pickering's Happy Relief Abdominal Supporter in my practice, and have found it to give entire satisfaction. A patient who had suffered for many years from an enormous hernia, being almost disabled thereby, has found the most complete relief from its use, and is now able to perform her household duties. She had tried other supporters, without the slightest benefit.

C. McKENNA, M.D.

Physicians or Patients sending measurement, a perfect fit is guaranteed, measurements to be made directly around the body from A, B, C, also distance from C to Navel, and from A to C, also from C to waist.
