Vol. XVI. HALIFAX, NOVA SCOTIA, APRIL, 1904. No. 4

## **PANOPEPTON**

**Presents all the Indispensable Qualities of a Proper  
Food for the Acutely Ill**

**It is indispensable** that a proper food for the sick shall afford adequate nutrition in a perfectly soluble and diffusible form.

**It is important** that a food for the sick shall contain all the elements of a complete nutrient in the proper proportions.

**It is desirable** that a food for the sick shall be pleasing and satisfying to the patient.

**In PANOPEPTON** all these indispensable, important and desirable qualities are happily combined.

**PANOPEPTON** is in every respect a proper food for the sick, the ailing, and the poorly nourished.

Panopepton was originated, and is made, by

**FAIRCHILD BROS. & FOSTER**  
New York

Literature: "Clinical Observations",  
"Clinical Reports", etc., will be  
gladly sent to physicians upon request
