\$1 per annum.

FOOD FOR WEAK DIGESTION.

“In febrile, acute inflammatory and other conditions where
“an absence of digestive power prevails, it is not only useless
“to introduce food of the nature referred to (ordinary animal
“and vegetable food) into the stomach, but absolutely pernicious
“as from its remaining undigested, it can only prove a source
“of irritation and disturbance. Whatever is given should be
“susceptible of passing on without requiring the exercise of
“functional activity on the part part of the stomach.”

PAVY—On Food and Dietetics.

PANOPEPTON Bread and Beef Peptone—is the entire edible
substance of prime, lean beef and best wheat flour, thoroughly
cooked, properly digested, sterilised and concentrated in vacuo.

PANOPEPTON is the food par excellence in all conditions
where a fluid, quickly assimilable, agreeable and comprehensive
nutriment is required.

Made by FAIRCHILD BROS. & FOSTER, NEW YORK.
