

Long ago we realized that the baking and roasting qualities of the oven of a range are of greatest importance to the range user. We brought our knowledge, gained by years of experience, to bear on this one point. The result was the Imperial Oxford Diffusive Oven Flue. With this exclusive feature, the Imperial Oxford stands to-day the most perfect baking and roasting range on the market.

After getting this most important feature of a range to such a point of perfection we naturally did not neglect any other improvement which could add to the working of the range. These improvements were incorporated in the

Imperial Oxford Range

because they added to the life of the range, simplified its operation or economized fuel.

Of these improvements the draw-out oven rack is one which will instantly appeal to the cook. The handle of this rack is outside the range—always cool enough to hold with the bare hand. By pulling this handle forward anything roasting in the oven may be drawn out on the oven shelf to be basted without touching the hot pan or reaching into the oven. The same applies to the testing of bread, cake, or pies.

We would like you to see the Imperial Oxford Range. If your dealer doesn't handle it, write us for illustrated literature and the address of the nearest dealer who does.
