COST OF LIVING MAY RESUME WORK ON

At Least Uncle Sam Had Some South Coleman Properties Are Royal ... Standard

Uncle Sam obtained a slight relief from the rising cost of his living last month, his almost continuous advance in company, which is controlled by Mr. Burry or so long, giving way to a small decline. During December the index number also all backward to a little extent, and the two consecutive reactions have inspired the hope that the upward trend has been effectually checked and prices definitely established on the down-grade gain.

On Feb. 1 the index number for New Nork worked out at \$9.4692. This was the invest figure touched since last October, but, at the same time, it was the highest fir any February, and showed an advance of \$6.7 per cent. over the same date last war. It is also \$8.2 per cent. over February f, 1911, and \$8.9 per cent. over following table shows the high and low records of recent years:

Subject to Previous Sale, We Offer at \$3 Per Share 70,000 Shares of

NORTHERN GOLD REEF, Limited

ST. ANTHONY GOLD MINE

Sturgeon Lake, Ont.

Capital Authorized, \$3,500,000. In the Treasury, \$2,750,000. Par Value, \$5.00 Per Share.

YOUR FINAL OPPORTUNITY

The issued capital—nominally \$1,000,000 at par—represents on basis of present offer \$600,000. The proceeds of this offering will discharge at maturity balance due on purchase and equipment of property, and leave in Treasury approximately \$45,000 to cover operations until bullion shipments are resumed. As the new 10-stamp and tube mill, in operation since the 10th of February, will have a production of \$1,000 worth of bullion per day, the Company will soon declare dividends and be free from necessity of asking for any further working capital. So the present shareholders and those who are fortunate enough to participate in this small allotment will of course not need to issue any more of the stock now in the Treasury.

Assets and Expected Profits

Against the 200,000 shares that will com-\$600,000) there is \$900,000 in ore blocked out and on hand; a plant worth \$75,000, and incidental assets worth \$13,000, or a total of \$988,000. On this very conservative estimate of the value of the ore in sight—and totally disregarding the fact that there are large bodies of ore yet untouched—there is provided absolute security of capital investment, and over 50 per cent. dividends. The \$900,000 estimate of ore is based on figures showing \$10.00 and \$12.00 values to the ton.

New Facts About Ore Values

On February 14th we received a statement from the Mine Superintendent that cross-cutting on the 300-foot level shows a vein width of 12 feet, with average values at that point of \$19.35 to the ton.

St. Anthony ore is extremely free milling, and the new methods installed for amalgamating and cyaniding should extract practically all values contained therein. In fact, the ore blocked out will show as high percentage of extraction as that of any gold camp in Northern Ontario.

Undeveloped Assets

The Company owns and controls 498 acres, only a limitel portion of which has yet been developed. The vein lies along the

contact between the Schist and Granite. This formation is geologic proof of great hepth of vein and uniform value. The contact can be traced for almost six miles, and passes through practically the entire holdings of the Company.

Management and Location

The management is in the best of hands. The property is very favorably located, adjacent to the Grand Trunk Pacific, and by Company's steamer from south end of Sturgeon-Lake.

J. C. Houston, M.E., F. C. Loring, M.E., A.
A. Cole, M.E., Cobalt, have all reported favorably on the present status and future development of the St. Anthony Mine. Copies of their complete reports are obtainable from the Northern Gold Reef, Limited, Standard Bank building. Toronto; also complete prospectus, detailed map and statutory information.

Allotment

This offering of 70,000 shares comprises 50,000 Treasury shares and 20,000 already issued shares. The Treasury shares are being allotted first.

Subscription books will close immediately pon receipt of subscription for balance of shares now remaining unallotted.

Mail subscriptions on appended form, subject to provisions of prospectus filed with Provincial Secretary, or telegraph at our ex-
