

N. Y. IRREGULAR---HEAVY CRASHED HIGHER---LOCAL MARKET DULL

ROCK ISLAND WAS CHIEF DISTURBER Southwestern Groups Reflect-ed Heaviness on Wall Street Yesterday.

STEEL DEPRESSED Amalgamated Copper Took Leadership in Metal Stocks.

NEW YORK, April 21.—The feature of today's market was its periods of dullness in contrast with previous feverish sessions. Despite the apparent falling away in business, however, transactions again exceeded 1,000,000 shares for the seventh consecutive full session.

On the surface there were indubitable signs that what is vaguely known as the substantial interests, including a large proportion of the professional element, had renewed operations on the selling side under cover of sporadic gains in the specialties. Rock Island was once more a disturbing factor, declining below its minimum price of the previous session and constituting one of the most active issues in the list.

Meintyre gained almost two points and closed 47 1/2. Reports from the camp say that Meintyre is producing well over two thousand dollars a day, and that ore from the rich find has helped bring the average of ore milled to a higher figure.

U. S. Steel was under steady pressure and early in the session relinquished leadership to Amalgamated Copper, which with allied stocks constituted the most impressive features of the list. The further advance of the metal shares was concurrent with yet another rise in the commodity prices of the commodity, coupled with circumstantial reports that the British Government had virtually acquired control of all the available supply in this market.

Trading in bonds marked a high rate for more than a year. A very considerable part of the day's business was in New York Central debenture in demand exchange and an easier tendency to remittances on Rome.

Canadian Car and Foundry Co. stock put on a queer performance on the Toronto Exchange yesterday. Opening at 47 in the morning, seven at 47, jumped to 70 1/2 between 10 and 11 a.m., then fell to 70 1/2 and closed at 70 1/2 for the morning. In the afternoon one trade of 50 shares at 66 1/2 was the only active stock with no quotations at all. Montreal was no doubt largely responsible for the Can. Car action.

RALLY YESTERDAY IN TIMISKAMING Partial Recovery From Monday's Break Livens Mining Market.

NEW YORK Turned Seller of Big Dome Yesterday as Expected.

Timiskaming's rally after Tuesday's break supplied the feature in mining share trading on the Standard Exchange yesterday. In the morning session a low of 88 1/2 was reached, but an upward movement started in the afternoon and the price was carried to 42 1/2. Beaver sold down to 37, but rallied at the close to 38 1/2.
