doubles in population, ten thousand men will not be able to handle the freight trans-shipped at the head of Thunder Bay.

The "Twin Cities"-Port Arthur and Fort William-with a combined population of 32,000 people, are just on the edge of an era of great expansion. A lot purchased to-day in the beautiful residential section of

is one of the best investments possible to present to the investor. There is no element of risk. The land must increase in value from month to month. We can sell you a fine lot in Prince Arthur Heights to-day for \$100.

You pay only one-third cash. The next payment will not be due for one year, and the balance in two years.

These lots will, we confidently believe, be worth from \$200 to \$500, or more, in two years. That is the experience in real estate histories of substantial and growing cities.

Port Arthur is a growing city. Three transcontinental railroads are pouring the traffic of the west into Port Arthur and Fort William for shipment. The greatest grain elevators in the world are there. A great industrial expansion has been commenced, backed by cheap electrical power and vast mineral deposits.
