English Harness Horses Coming.

NEW YORK, Jan. 7.—English harness horses, bred and trained in England will be raced in the Grand Circuit this year, according to A. C. Pennock, the former Cleveland reinsman, who has been in England for several years as the manager of the racing stable of Louis Winkles of Brighton, England. Pennock writes that he will sell from England for New York Jan. 15, and immediately after his arrival here will ship his horses to the North Randall track at Cleveland, where they will probably race for the summer campaign.

This will be the first time that a string of horses from the other side has been sent to the United States for racing purposes, and the result of their campaign will probably prove a problem which has for several years excited more or less comment, and that is whether the trotting horses bred in Europe, even tho of American parentage, are the equal of those bred on this side, for in the string there are two of the best European-bred winners of recent years. One of them is Dora, which at 3 and 4 years old was the champion trotter of Europe.
