

In the general out-door departments there were consultations, prescriptions, medicines, &c., given to 3,094 patients, both catholics and protestants. Out of these there were 1338 males and 1756 females.

In the out-door eye and ear department, 778 patients were treated, including 357 males and 421 females; and 5,853 prescriptions were given.

Thus the total number of patients treated at the hospital in both out-door and in-door department, was 4,791.

If we compare those figures with the statement of the preceding report we find the following increase.

	1880-81	1881-82	Increase.
In-door department.....	772	876	104
General out-door department....	1,609	3,094	1,485
Eye and ear out-door department	269	778	509
	2,650	4,791	2,098
