Industrial Insurance Rates Reduced by The Prudential

Future Industrial Policyholders will profit to the extent of many millions of dollars by The Prudential's latest reduction in premium rates through increased benefits. By the Company's voluntary concession, Industrial Policyholders whose policies were issued since January 1, 1907, and were in force July 1, 1909, will have

OVER 20,000,000 ADDED TO THEIR POLICIES

Justice and liberality prevail in The Prudential's dealings with its Policyholders.

What is Industrial

Life Insurance? :

It is a system of Life Insurance introduced on this Continent by The Prudential and designed principally for wage-earners. Premiums range from 3 cents per week up, and are collected weekly by Agents who call at the homes of the Policyholders. The policies are issued from ages 1 to 70, for amounts from \$15 up, on the lives of both sexes.

The Prudential made the greatest gain in insurance in force in 1908 of any Life Insurance Company in the world.

LATEST BID FOR BIG FIGHT REPORTED FROM IRELAND

London Sportsman Doubts if Jeffries and Johnson Will Ever Meet—Girls' Great Swimming Feat—The Baseball Players—General Sport.

The London Sportsman prints a report from Dublin that a movement is on foot to raise a purse of £10,000 to have the Johnson-Jeffries fight in Ireland. The paper doubts the probability of the two pugilists ever meeting.

Abe Attell has not yet made up his mind whether he will meet the winner of the Doolittle-Moran bout abroad or insist that the match take place in the United States. Moran announces that a Welsh syndicate has put in a bid of \$15,000 and it looks as if this figure will get the fight, which has stirred up the United Kingdom as no other battle in the history of modern pugilism.

Reddy Gallagher, of Denver, is trying to form a company in Denver to secure the Jeffries-Johnson fight. He figures on issuing 500 shares of stock at \$100 a share and to limit the holding to a single share. He believes the fight would bring millions to Denver, while giving that city advertising such as it never before received.

Peter Maher, "the Irish champion," has been used for a diver by his attorney, J. J. Maher, in the case of the late John J. Maher, who was killed by a falling safe. The case is now before the court.

Packey McFarland has signed up to fight "Cyclone" Johnson, Thompson of Syracuse, Ill., before the club offering the best inducements. The agreement was reached at Chicago on Monday. They are to weigh in at 133 pounds at 3 o'clock on the day of the contest.

Bert Keyes gave height, weight and reach about to Sammy Smith at the American A. C., Saratoga, N. Y., and won all the way in a ten-round bout. Keyes forced the mill at all times and it was only Smith's cleverness that saved him from a knockout.

Blink McCloskey, a veteran Philadelphia welterweight, has a muddle on his hands in Paris that will take some time to straighten out. Blink signed for three fights with a promoter, each bout to net the boxer \$100. The other night Blink insisted that he get \$1,000 before entering the ring against a welterweight named La Croix. This was paid. La Croix had so much the better of matters that McCloskey was unable to continue. This increased the credit of the management and his troubles in explaining his position. McCloskey will now have to defend a suit for breach of contract.

A despatch from Perth, N. B., states that Kid Shoo, the Hallowell, Me., light weight, refused to meet Jack Ryan, of St. John, there last night, owing to the small attendance. Ryan boxed a few rounds with Dave Gasey, a local man.

Miss Akyroyd was attended on the swim by John Bray, and his manager, James F. Winston, her brother, Albert, and her father, James K. Akyroyd. She bore up well all through the swim, though she was troubled considerably with her eyes.

The swim was much more difficult than any straightforward course of the same distance owing to the baffling cross currents encountered between Governor's Island and the bathhouse.

The Halifax Recorder says: "The Maritime Rowing Association will hold their first championships this month. The date has not yet been decided upon, but will either be August 28 or September 4. This association is now affiliated with the Canadian Association. Applications for the M. P. A. A. rowing championships will be asked for as usual, but if nobody applies for them, they will not be held."

Baseball A strong corps of pitchers is a prime necessity in baseball. However strong a ball club may be in other departments, it will almost never win a majority of games played in a season without good pitching.

There are but two exceptions in the history of major league baseball, the Detroit Wolverines of 1887 and the Boston Red Sox of 1891, both of which proved pennant winners with rather mediocre pitchers. The great batting abilities of both clubs carried them safely through the season.

Wagner the Great is due back in the game, but if many of the fans have their way he will not return to shortstop. Abatischio's wonderful work there and his great batting have caused hundreds to ask Clarke to put the Flying Dutchman on first in place of Abstein, and leave Abby where he is.

As the Italian has been clouting the ball for something like 400, as well as doing

just as well in the field as Honus ever did, the fans figure that the batting strength of the Pirates would be increased immeasurably by putting Wagner on first, where, as is well known, he can play a stellar game.

Harry Lumley, manager of the Brooklyn team, may be out of the game for the remainder of the season. He is suffering from a misplaced tendon in his right shoulder, and decided to visit Bonesteele House at Youngstown, O. The injury was sustained in Saturday's game, when the right fielder made a snap throw of a base hit into his territory.

Pitcher Jim Vaughn will not wear a Brooklyn uniform at least for the present. His services have been awarded to the New York Americans by the National Commission. It appears that Stallings sold him to the Cacao club with privilege of repurchase. That team changed hands and the new owners promptly put Vaughn on the auction block.

George Stallings is doing well in New York, despite the fact that his pitching staff is not above the standard of a Class B league.

As in 1908, the Highlanders started off this year in great style and then fell down hard. This season they have reversed for a second time and are coming back strong, as the records of the Westerners who have thus far played at the Washington Heights Park attest.

Stallings has no pennant winner, but he is going to make some of the prospective flag chasers work before he gets through.

In an exhibition the Detroit Americans defeated the Scranton State league team on Sunday 13 to 11. "Ty" Cobb essayed a new trick, in the pitcher's box, for four innings and his experiment came near costing his team a defeat.

Athletic Martin Sheridan, the giant athlete of the Irish-American A. C., was the star performer at the Cavan Men's games at the Celtic Park, New York, on Sunday. Sheridan got first prize in the 12-pound shot put and running hop, step and jump and third place in the 16-pound hammer throw.

In the hop, step and jump Sheridan, with 4 feet handicap, beat Champion Dan Ahern, who finished third from scratch. Sheridan's actual leap was 46 feet 9 inches, while Ahern's effort was 48 feet 9 inches.

It looks as if Lughli, the Italian, is a good runner after all. Any champion who can beat Harry Hillman at 600 yards and come within a second of Tom Burke's record, is surely a fine performer. Lughli made a great impression during his recent races in Boston, but now the Italian is going better than ever.

Lughli in action is not unlike Charlie Kilpatrick, when the latter was in his prime, but the Italian surely will have to go faster than ever to get nearer Charlie's world record figures for the half mile at 1:33.25.

During the second heat of a motor-paced bicycle race, best two in three, 10 mile heats, at the stadium, at Clifton, N. J., on Saturday fell wry wry yppp N. J., on Sunday, Jimmy Moran, of Chelsea, Mass., was thrown heavily through the bursting of a tire, fracturing his collarbone. Elmer Collins, of Boston, won the race.

Jim Pilkington, the grand old man of aquatics, is still to lead the destinies of the National Association of Amateur Oarsmen. President Pilkington has now held the presidency for the last 20 years and come within a second of Tom Burke's world record figures for the half mile at 1:33.25.

The annual mid-summer meeting of the

National Roller Polo League was held at Rocky Point, N. L., on Sunday, with all the clubs represented, including Providence, Pawtucket, Fall River, New Bedford, Brockton and Worcester. It was voted to increase the circuit to eight clubs, and applications were received from several cities.

The Taunton Polo Association was given a franchise for that city, and W. Fred Mason given a conditional franchise for Lawrence. He must file a bond for \$1,000 at once to erect a new building in that city. Failing to do this, Thomas H. Kearns of New Bedford, will have the franchise on the same terms.

The programme of the two days' racing at New Glasgow is as follows:

First Day—Wednesday, Aug. 25.
218 Class trot and pace \$300
224 Class trot 300
Second day—Thursday, Aug. 26.
226 Class trot and pace \$300
221 Class trot and pace 300
Two-year-old colt race, special condition, 1 mile heats, best 2 in 3 . . . 100

STICK TO IT Until Coffee Hits You Hard.

It is about as well to advise people to stick to coffee until they get it hard enough, so that they will never forget their experience, although it is rather unpleasant to have to look back to a half dozen years of invalidism, money and opportunity thrown away, which really is the terrible price paid for the weakest kind of a "mess of pottage."

A woman writes and her letter is condensed to give the facts in a short space: "I was a coffee slave and stuck to it like a toper to his 'cups,' notwithstanding I had headaches every day, and frequently severe attacks of sick headaches, then I used more coffee to relieve the headaches, and this was well enough until the coffee effect wore off, then I would have sick spells."

"Finally my digestion was ruined, severe attacks of rheumatism began to appear, and ultimately the whole nervous system began to break down and I was fast becoming a wreck."

"After a time I was induced to quit coffee and take up Postum. This was half a year ago. The result has been most satisfactory. "The rheumatism is gone entirely, blood is pure, nerves practically well and steady, digestion almost perfect, never have any more sick headaches and am gaining steadily in weight and strength. "There's a Reason."

Read "The Road to Wellville," in pinks. One appears from time to time. They are genuine, true, and full of human interest.

The \$210.14 received from the relief committee of the grand lodge of California has been distributed pro rata to the various lodges which contributed.

The proposed new grand lodge constitution as prepared by a special committee was printed and distributed and notice of several amendments have been filed. There had also been filed a notice of amendment to the subordinate lodge constitution.

At yesterday afternoon's session of the Rebekah assembly there was considerable discussion over the disposition of the fund raised by the president for the Rebekah home. No action was taken, however.

The committee on the state of the order submitted a report showing the order to be in an excellent condition.

SHIP SUBSIDIES

(St. Paul Pioneer Press.)

If our shipping is given an equal chance with that of other nations and cannot hold its own in the markets of the world, it is a pretty poor thing and the less we spend upon it the better. Any merchant marine built up by subsidies is bound to be a weak and expensive proposition. The business that stands on its own foundation is the one that deserves and will win success. We need a merchant marine and there is no reason why American ships, if unhampered by ill-considered regulations and legislation, should not pay. We talk about protecting the American sailor and then admit that there are no American sailors. If Uncle Joe will just cut out the useless restrictions regarding shipping there soon would be no scarcity of American ships and American sailors.

Two more Americans have been made knights of the Pope-Knights Commanders of the Order of St. Gregory. They are Morgan J. O'Brien, formerly justice of the New York supreme court, and Eugene A. Philipin, formerly district attorney in New York.

A DISORDERED STOMACH MEANS BAD BLOOD

Nine times in ten, stomach derangements are responsible for sallow complexion, dull eyes, thin body and colorless cheeks.

It is the stomach that supplies nourishing blood to the muscles, the nerves, and skin. If the stomach is healthy, plenty of nutritious matter will be absorbed by the blood. If it is not healthy, the food will ferment and, undigested, will pass along through the bowels, furnishing so little nutritious matter that the blood becomes impoverished, and the glow of health vanishes.

If you suffer from nervousness, sick headache, belching of gas, sour taste in the mouth, heaviness after eating, heart burn, foul breath, or any other miserable stomach disturbance, get rid of it now by using Mi-o-na, the mighty cure for indigestion, and the sooner you get it the quicker you will be healthier and happier.

It will relieve any distressed stomach condition almost immediately. It will make eating a joy. You can eat what you want without fear of distress.
