FINANCIAL and COMMERCIAL

J. S. BACHE & CO.'S LETTER ON FINANCIAL SITUATION

NEW YORK, Nov. 30—The suspension of cash payments, which was coincident with the issue of clearing house certificates throughout the United States, is about at an end, as indicated by the disappearing premium on currency. The enormous imports of gold, amounting to over 100 millions, is the real force which has accomplished this result. It appears now that the act of the administration in arranging an issue of 100 millions 3 per cent. certificates (practically greenbacks drawing interest with one year to run) was unnecessary and perhaps unfortunate. The issue of fiat money in times of distress is the resort only of third or fourth-class nations. It was felt, however, by some that the desire of the administration to "do something" would have a good effect in allaying distrust, and it may be that, like a poultice applied on the wrong place, the faith cure feature of the operation did have some beneficial results. Chas. N. Fowler, chairman of the banking and currency committee of the house, the most thorough student of currency and economic conditions in congress in a remarkable and courageous statement protesting against issue by the government of the 100 million certificates, says: "On Friday, November 15th (two days before the treasury circular was issued), the crisis of the present currency panic had been reached and successfully passed through the splendid achievements of the American bankers."

It must be remembered that Mr. Cortelyou was a most important part of the committee of bankers, and that the tremendous influence of the treasury's millions of cash was used freely and effectually by him during the successful passage through the acute crisis. Mr. Cortelyou, in his circulars arranging the certificate issue, was cautious and wise enough to provide for the possibility of terminating the issue at any time and for curtailing allotments to almost any extent, and on Thursday he announced that no more subscriptions would be received, and that possibly no more allotments would be made on the subscriptions already received. It is to be hoped that the amount finally put out will be small. It is now estimated at $35,000,000.

The danger which will next confront us through our currency situation will be the vast amount of paper money now out. These government certificates add to it. There is a point where paper issues persisted in will drive gold out of the country and our money system suddenly collapsing will land us on a paper basis. The volume of National bank notes has been increasing for years and rapidly increasing for the last two years. The issue amounted to over 900 millions before the panic. This will have probably been increased many millions more by January. We have approximately 500,000,000 greenbacks inconvertible and perpetual. A condition which would make large conversion of our paper money into gold suddenly desirable would bring us face to face with a crisis.

The brigantine was still fast tonight and her load of 300 tons of iron will have to be removed before she can be pulled off. She lies 100 yards west of the hook beacon, is head-on, well up on the beach and resting easily. She has sprung a leaw. She was bound from Demerara for St. John, N. B.

CHARTERS.

In the sail tonnage market an improved business was reported in West India chartering, but in all other departments trading was light. Rates for West Indies and southern coastwise business continue to incline in shippers' favor, although not quotably lower than in the recent past. In the South American lumber carrying trade rates are steady, influenced by a moderate demand and very light supply of tonnage of suitable class.

Lumber.—Br schr Arona, 532 tons, from Mobile and Apalachicola to Demerara and Fort de France, about $7 and $8, respectively; schr Jessie Lena, 279 tons, from Mobile to Arroyo (P. R.), $7.50; Br schr Prosperare, 378 tons, from Pansacola to Port Spain, at or about $7.50; Br schr Silver Leaf, 283 tons, from the Gulf to San Domingo, $6; Br schr C W Mills, 318 tons, from Fernandina to Havana, two trips, $5.50.

Br schr Coral Leaf, 374 tons, New York to Baracoa with general cargo and back with cocoanuts, p t; Br schr Mary Hendry, 249 tons, New York to San Domingo, with general cargo and back with sugar, $6 for the round and port charges; Br schr Silver Leaf, 283 tons, from San Domingo to New York with sugar, $3 and port charges.

THE NEWS SUMMARY.

More than 3,000 bids were submitted for Panama bonds Saturday. It is announced that the issue is many times over-subscribed at an average price well above the present market price of the bonds.

W. P. Brown of New Orleans published the estimate of this year's cotton crop placing it at 11,500,000 bales.

An instalment of 10 per cent. on the new St. Paul stock calling for about $10,000,000 is payable today.

Bank statement showed percentage of reserve 20.11 per cent. against 19.99 last week excess of loans over deposits $114,795,900.

LONDON SPECIAL,—American stocks failed altogether to respond to advance here on Saturday opening lower and losing from 1-2 to 1 per cent. all round by the afternoon. Weakness seems to have been due to an attempt to realize stock bought in New York to stimulate the rally. Money market outlook is better. Market is very narrow and what looks important changes could be made on a few hundred shares even in relatively active stocks.

LIVERPOOL, 2 p. m.—Futures steady, 3 to 3 1-2 net advance.

LAIDLAW & CO.'S LETTER.

NEW YORK, Dec. 2—Viewed from any standpoint Saturday's bank statement was unsatisfactory and served as an unpleasant reminder that the leading institutions were still using extraordinary means to preserve the situation. While due allowance must be made for the abnormal banking conditions throughout the country and the complex movements of money incident thereto, the fact that the receipt of $60,000,000 new gold on the heels of prolonged and drastic liquidation in the stock market, resulted in no material betterment of the position of clearing house banks is a matter worthy of serious consideration. No one can cavil at the recovery of prices that occurred during the latter part of the week, for the freer supply of money on call and the increasing indications of a gradual return to normal conditions warranted some demonstrations calculating to restore general confidence. No more effective means to this end could be found than that of a moderate hardening of securities prices, but few fair-minded observers will contend that the recent rally did not proceed too fast for stability. Until the limits of this reaction can be more clearly approximated any efforts to bring about a sustained advance will be fraught with danger and frowned upon by the conservative interests which have undertaken to protect the situation.
