DOWLING BROS. The Largest Retail Distributors of Ladies' Coats, Jackets and Blouse Waists in the Maritime Provinces. A Notable Disposal OF New Spring Coats

We think we're right in saying that our stock of Ladies' Coats is well known to be the most extensive in the Maritime Provinces every season, and this season is no exception. Never had we so many spring garments, and never such notable bargains as now. Although the season for wearing them has only just opened, the price cutting has been radical all through the department, and St. John ladies are now offered smart, nobby Coats and Jackets with graceful cut and beautifully tailored, at prices never looked for except at the very end of the season.

DON'T GO IT BLIND.

Many people do, when they are buying Shoes. Some go into the first Shoe Store they come to and take most any pair of Shoes the Salesman says "fit."

Other Shoe buyers are attracted by the price, alone. This is folly. The safe buyer will come here and be correctly fitted with the best of Shoes, pay a fair price, and be happy ever afterwards. Shoes for Men, for Women, for Children, for everybody. Satisfaction and Shoes go in the same package here.

Scheme to Divert Trade Between Maritime Province Ports and Bermuda Through an American Port.

(Portland, Maine, Express.) That a line of steamers will be running from Bermuda to either Portland or Boston inside of a year was the statement in a letter received today by British Vice Consul J. B. Keating, from capitalists J. B. Keating, from prominent capitalists of the British island. It was evident from the tone of the letter that Portland was the port favored, as this city is absolutely free from competition in the Bermuda trade, while the Boston field is well covered by the steamers of the United Fruit Company, which run to the West Indies as well as Bermuda. About a year ago, it will be remembered, the Express published a story that a line between this port and Bermuda was a possibility. The letter received by British Vice Consul Keating today is a verification of this report and in it it is stated that if Portland will help out the line, it will undoubtedly be established. If this city will give the Bermudan promoters sufficient encouragement, steamers between Portland and the British island will be a certainty of the near future. A prominent capitalist of Bermuda, Edgar Meyer, of St. Georges, spends every summer here, with his family, and he has long been enthusiastic over the idea and is one of the chief promoters of the project to establish such a line. Portland, it is declared, is particularly adapted for such a line. At the present time great quantities of merchandise are being shipped from the upper provinces in Canada, to the lower provinces and exported, as well as imported, through the ports of Halifax and St. John. This trade, it is stated, could be diverted, on

The scarcity of tonnage for the coasting trade in lumber and coal is causing a rapid advance in rates, and the prospects are that vessel owners will get a good profit on the season's business.

account of the fact that it could be handled much quicker and cheaper, to Portland. Bermudan oranges, bananas and other tropical fruits could be brought direct to this port, without going through several hands, as they do at present and be sold here at about one-half what they are costing at the present time. From a tourist standpoint the line would be a great thing for the port. It has been suggested by the Bermuda capitalists that in summer Bermudans could be brought here to the Ottawa House and other Maine resorts and in winter Portland and Canadian people could be taken to St. Georges, where a magnificent new hotel has recently been erected, and to other Bermudan resorts. The Bermudan capitalists who are in communication with Consul Keating state that such a line would be guaranteed free of charge, almost free towing, freedom from taxation, and possibly a subsidy, if established. It could be run very cheaply and it is felt could be operated profitably, in a short time building up a big trade. At the present time the steamers of the Quebec Steamship Company, from New York are running to Hamilton, which is 15 miles from St. Georges, and they are overcrowded and unable to take care of the great passenger traffic which is pouring in upon them. Other lines running to the island are reporting the same conditions. It is known that certain Portland capitalists are willing to take hold with the Bermuda capitalists in establishing such a line and that all that is needed is encouragement by this city to make it a certainty.

SUDDEN DEATH OF C. E. KAULBACH—M. P.

Halifax, N. S. May 26—Charles Edwin Kaulbach, ex-M. P. for Lunenburg, died at his home very suddenly shortly after 1 o'clock Saturday, in the 74th year of his age. His death was a great shock to the whole community. He was apparently in good health and had made no complaint of feeling unwell. After lunch he was engaged in conversation with his large business interests and at ten minutes to 1 had been in conversation by telephone with Hon. W. H. Owen of Bridgewater. He was talking with Mr. Owen concerning some legal papers and had asked his wife to go to his vault at his office which is next door to his dwelling, to get the papers in question. When she returned he had left the phone and upon enquiry Mrs. Kaulbach learned that her husband was in the bath room. A gentleman calling to see Mr. Kaulbach, Mrs. Kaulbach called to him but got no reply. She knocked at the bathroom door, but receiving no answer became alarmed and hid the door broken down by a carpenter who was at work on the premises. Mr. Kaulbach was lying on the floor dead. A doctor was immediately called and pronounced the cause of death heart failure. With the exception of one term, he represented Lunenburg in the Dominion parliament from 1878 to 1904. He was the richest man in Lunenburg.
