SPERM WHALE STEAKS TO OUT LIVING COAST

Washington, June 13.—Sperm whale steak and current jelly is one of the dishes the Bureau of Fisheries of the Department of Commerce wants the public to adopt in the campaign to prevent waste and conserve the supply of food-stuffs for the war emergency. The meat of porpoises and dolphins also is suggested to select as a palatable dish.

"Whales and porpoises are mammals, like cattle and sheep, and their flesh is meat and not fish," a representative of the department said today. "In texture and appearance it resembles beef, though the color is darker red, and the flavor is closer to that of meat than any other. It is devoid of all fishy taste. It is likely that it will soon be obtainable fresh, corned and canned, and it is recommended to those who have the opportunity to purchase it."

Residents of Seattle, Washington, and Portland, Ore., are already getting away with great quantities of whale meat and enjoying it, the same representative of the fish industry said, and he added that he had seen it served and consumed with relish at hotels there. Each whale furnished about 20,000 pounds of meat, which can be served as steak or pot roast.

Our facilities for caring for this class of patients are unsurpassed. This sanitarium is conducted along high-grade ethical lines.

Time required: Alcoholism, 3-5 days; Drug addiction, 10-20 days. No suffering. Charges reasonable. Write for booklet and information.

MERCHANTS' BANK

As the bank statement is probably a better barometer of business conditions and the state of trade in the country than most other sources of financial information and is much more easily

D. C. MACAROW, general manager of the Merchants' Bank.

analyzed and understood by the farmer and average business man, a few comments on the statement of the Merchants' Bank published today are well worth noting.

Probably one of the best criteria of the financial strength of a banking institution is the relation between the deposits and loans. In comparing these two items in the present statement of the Merchants' Bank, we find that the total deposits amounted to \$2,021,071, of which over \$2,000,000 were non-interest bearing. Against these deposits, the current loans and discounts (including \$377,252 outside of Canada) totaled \$63,115,540, showing an excess of deposits over loans amounting to \$2,398,966, 531, or about 46 per cent.

The assets have now reached a total of \$121,130,558, as against \$96,861,868 at 30th April last year—a truly remarkable increase of \$24,268,690 during the year. Of these assets the liquid portion totals \$2,021,071, being 48.87 per cent. of the liabilities to the public. Actual cash holdings, including deposit in the Central Gold Reserve, amount to \$1,917,228, or 15 per cent. of liabilities to the public—a strong and satisfactory position.
