## MC 2035

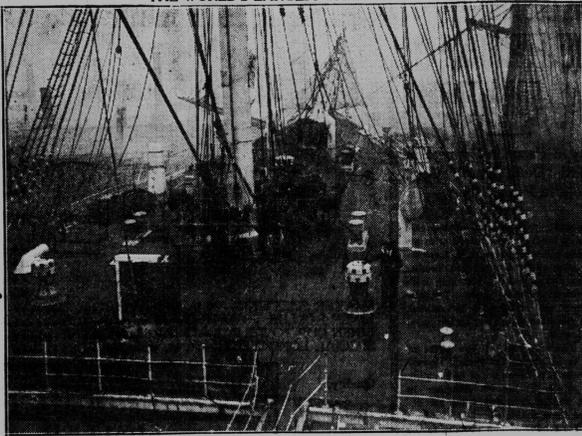

THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, JANUARY 7, 1922

### GROWTH OF EAST ST. JOHN SCHOOLS

East St. John and Little River have to hustle to keep up with the growth of their school population and there will be two new class rooms opened and two new teachers on the staff when the schools open there on Monday. Five years ago there was only one school in that district, the wooden school at Little River, and there were thirty pupils. When the schools closed at the end of last term there were sixty-nine pupils at Little River, taught in one class room by Miss Cooper, and in the East St. John school there were ninety-seven pupils, taught in two class rooms by Miss Gertrude McGuire and Miss Hazel Belyea. There were also several children of school age for whom there was no room and so two new class rooms have been made ready during the holidays. The work cost between \$5,000 and \$6,000.

The Little River school hardly knows itself as the same building. Instead of the one room structure with an unfinished attic there is now a two-story building with a large class room on each floor. The upper room has had a hardwood floor put in and the walls wainscoted. An addition has been built on the front end, besides giving space for the stairway and providing entrance for both class rooms. It contains cloak rooms for the teachers and the scholars. It had not been anticipated that the development would be so great in the Little River district and the urgent need for more school room accommodation was forcibly brought to the attention of the community when one teacher had sixty-nine children of all grades in one room. Miss Cooper has resigned from her position as teacher at Little River and Miss Armstrong and Miss Edna Hazlett will be in charge of the two classes there on Monday.

The new brick building at East St.

The five-masted bark "France" which arrived at Surrey Commercial Dock, England, recently, after a voyage from New Zealand. She left Wellington on September 5, and on her way across the Pacific passed the "Quest," Sir Ernest Shackleton's Antarctic ship. The photograph shows a portion of her main deck and gives an idea of the great size of the craft.

John had provision for two rooms on the ground floor and two rooms on the upper floor but those on the upper floor were left unfinished when the school was opened. During the vacation the upper rooms have been put in order, floors have been laid and plastering, glazing and painting have been done. Desks have been placed in the room which is to be used on Monday and all that is now needed to have the other room ready for use is the desks. Miss Hazel Gillott will be the teacher in the new room at East St. John.

The East St. John school is all prepared for a rapid growth in the school population as when it was built, it was planned as the first section of four rooms for a completed eight-room school. No more basement space will be required when the second section is built and the ground is already school property. In the present basement are twin furnaces giving adequate heat for the present building with combined hot air and hot water system. There are also two large playrooms in the basement. The school has a commanding site high above the road, giving a spacious view of Courtney Bay and the city as well as the rising land to the east and north. There is plenty of playground space around the building

and throughout there is an excellent system of electric lighting.

**KNOX CHURCH SCOUTS.**  
The Boy Scouts of the First Knox, Knox church, and their girl friends were very pleasantly entertained last night by their scout master, Harold Berryman Wetmore, at the home of his mother, Mrs. Fred Z. Fowler, 247 Charlotte street. The minister, Rev. R. Moorhead Legate, and Mrs. Legate also were in the party and the evening was a merry one. Dancing, music and games were indulged in and there was keen competition for the prizes awarded the successful competitors in the games. Refreshments were served and when the guests left for home some time near mid-night, they one and all voted the evening a splendid time and thanked their host and hostess cordially.

**FORMER PUBLISHER DEAD.**  
Boston, Jan. 6.—James W. Duppuy, formerly publisher of the Boston Advertiser and the Boston Record, dropped dead last night when attending a meeting of the directors of the Home for Destitute Catholic Children. He was born in Ireland in 1844 and was connected with the two newspapers for twenty-seven years.

### SIR ADAM BECK REFUTES RUMOR

Some days ago it was brought to the attention of members of The St. John Hardware Clerks Association that citizens opposed to municipal distribution of hydro developed current were saying that in the Ontario towns one of the reasons why lighting charges were so low was that property owners or consumers were obliged to pay sums of \$100 to \$200 to the municipality as their portion of capital costs, at the time of connecting their premises with the hydro system.

The Hardware Clerks did not have at hand any information on the matter, at the time, so they immediately telegraphed to Sir Adam Beck, Chairman of the Hydro Electric Development Commission of Ontario, asking if this report were correct.

Sir Adam Beck's reply is as follows: "St. John Hardware Clerks Association, St. John, N. B.—Hydro customers do not contribute any money towards the construction of plant equipment or any part of system. Customers pay light and power bills only at established rates in the various municipalities. Adam Beck."

**Vapo-Cresolene**  
A Vapo-Cresolene  
Coughs and Colds, easy to use and effective  
You just light the little lamp that vaporizes the Cresolene and the Vapo-Cresolene is in the air. The soothing antiseptic vapor makes breathing easy, soothes the throat, loosens the chest, breaks up congestion, and protects the mucous membrane.

## Canadians Must Know More About Japan

Called into world life by an American Commodore, seizing with avidity upon many new things for its advancement from western civilization, protesting undying friendship for the United States, but struggling with seemingly irreconcilable differences, developed by marvelous leaps into one of the five greatest naval and military powers of the world, and now to become a signatory partner with Britain, the United States, France, and Italy in preserving "peace on earth, good will toward men,"—it is imperative for every Canadian to know more about this great Ocean Empire of the East, and to know what has happened in the Seventy Dazzling Years since Commodore Perry knocked at the Mikado's fast-locked door and summoned Japan to take her place in the family of nations.

**Do You Know**  
What is the attitude of Canada, Australia, and New Zealand toward Japan?  
How much new territory Japan has annexed in the past 26 years?  
How much Chinese territory is under Japanese "influence"?  
The age of Japan's "civilization" and how little she owes to Europe?  
How extensively the trade of the Pacific is in Japanese hands?  
What are the duties of children to parents in Japan?  
The average wage earned by Japanese workers?  
The extent to which modern labor unrest is permeating Japan?  
What Japan's chief food product is?  
What is the family status of a mother-in-law in Japan?  
How big an army Japan could raise on short notice?  
How many Japanese there are in the United States?

**Do You Know**  
That Japan, which had no dealings with the outside world before 1853, is now one of the world's great commercial powers, with the fourth greatest merchant fleet and a foreign trade of \$2,000,000,000 a year?  
That Japan, which had no banks, no financial system, no credit, in 1868, now has a strong and elaborate financial system with great banks and stock exchanges, holds a billion dollars worth of gold and has such credit abroad that she has been able to borrow over \$750,000,000 from foreigners?  
What restrictive laws has Japan against foreigners? About woman's rights movement in Japan? How rapidly they are increasing? Why a Japanese woman is very much concerned as to whether her horoscope casts her as a cow, rabbit, snake, monkey, or tiger? What you will see checked, instead of hats or coats, in the check rooms of Japanese restaurants and theatres?
