Lewis Knocked Out.

London, May 11—Georges Carpentier tonight knocked out Ted (Kid) Lewis in the first round of what was to have been a twenty round bout for the light heavyweight championship of the world held by Carpentier. The end came when Carpentier drove a sharp right to the point of Lewis' jaw. The Englishman toppled over backward and lay motionless on the floor until the referee counted ten. Then Carpentier picked up his fallen foe and aided in carrying him to his corner.

The spectators were slow to realize the entered the arena life destination, a message to the rowing authorities in Philadelphia telling them that Hillton was on board and giving them that this would dock, so that they could be on hand to meet him. The captain feit that this would facilitate matters for Hilton, especially as he was arriving in a strange city.

Frenchman took advantage of this and put Lewis down for the count.

The management of the fight declined to make public the amount of gate receipts, or the percentage of them which would go to the fighters. When it was suggested that the receipts amounted to £30,000, it was said that this amount was not far wrong. From other sources, considered authoritative, it was learned that Carpentier will receive 33 1-8 per cent of the gate and Lewis 25 per cent.

AQUATIC. Hilton Belyea, Canadian and New England sculling champion, accompanied by his brother, Harry, sailed for Philadelphia on the S. S. Manchester Importer last evening. Friends and relatives on the wharf gave the champion three cheers as the liner backed out into the stream and started on her voyage. She is expected to arrive in Philadelphia Sunday.

what had occurred, but when finally they comprehended that the battle was over and Lewis was defeated there arose a storm of boos and cries of "foul" from all parts of the vast audience which drowned out the comparatively little applause Carpentier was receiving form his partisans.

From the bell to the end of the referee's count two minutes and fifteen seconds intervened. Carpentier weighed 175 pounds, the light heavyweight limit, while Lewis tipped the scales at limit to his declared that Lewis had that Carpentier's sensational that carpentier was no doubt that Lewis had the town of Gardner, Mass., one of the largest chair manufacturing centres in the country. As a result of a series of meetings of the Chamber of Commerce, which showed that nore than 100 families were being supported by charity, and that scores of requests for what little boxing there was and no officials appropriated about \$300,000 for public works. In describing the plan and its success, H. S. Gustafson, manager of the Gardner Chamber of Commerce, says:

"Gardner has a population of about 100.000 for public works are providing work for the unemployed has been accomplished by the town of Gardner, Mass., one of the largest chair manufacturing centres in the town of Gardner, Mass., one of the largest chair manufacturing centres in the town of Gardner, Mass., one of the largest chair manufacturing centres in the town of Gardner, Mass., one of the largest chair manufacturing centres in the town of Gardner, Mass., one of the largest chair manufacturing centres in the town of Gardner, Mass., one of the largest chair manufacturing centres in the town of Gardner, Mass., one of the largest chair manufacturing centres in the town of Gardner, Mass.

"Gardner has a population of about 17,000, and its valuation is in the neighborhood of \$17,000,000, so it isn't the biggest corporation in existence. Spending \$800,000 for municipal improvements just to give men work may not appeal to the metropolitan reader as cut of the ordinary, but it is a pretty big undertaking for a town barely within the city class. During the past year Gardner appropriated close to \$900,000, two-thirds of which were spent for absolutely necessary development and maintenance. The other third was spent to give employment to idle workers from the chair shops and other industries so that these men could get a week's pay and keep their families from starpay and keep their families from star-vation without the necessity of calling

vation without the necessity of calling upon charity.

"It was felt such improvements included the should be done largely by unskilled labor in order that as many citizens of Gardner as possible might be given employment. The board recommended the immediate clearing and grading of the lot and construction of the foundation for the proposed new Town Hall Building, which, when completed, will represent an outlay of more than \$350,000. An appropriation for the immediate improvement of Main street, with the condition that preferential employment be given to citizens of the town, was also recommended.

"The projects furnished work for about 500 men who otherwise would have had to fall back upon the town the street in a permanent road development of the finest in the state and is the first step in a permanent road development time."

To keep themselves and their families to keep themselves and their families going. The improvements included the story local residents.
