MILITIA CHANGE.

(Sussex Record).

It is understood that Lieut.-Col. C. N. Fairweather will retire from the command of the 74th regiment in a short time and will be succeeded by Major O. W. Wetmore. The passing of Col. Fairweather from active particiaption in the affairs of the 74th will remove from its establishment an officer who was a thorough militiaman in every sense of the word. The selection of Major Wetmore as commanding officer of the regiment will be learned with pleasure on all sides. He is a good officer and has the record of being one of the best rifle shots in the Dominion, having been on the Bisley team several times. When the 74th again goes into camp it will be under his direction.

# PLAN POWER FROM OCEAN AT EASTPORT

Eastport, Feb. 23—At a board of trade meeting on Wednesday W. S. Alexander called attention to an offer made by the Maine Hydraulic Power Companyy to erect a station at Dog Island to develop power from the ocean, saying that, owing to the great rise and fall of the tide, Eastport offers better inducements for this enterprise than any other part of the country, and stating that the company would build a plant if the city would contribute $25,000, the company to furnish the balance of the $100,000 needed. The project appeared so interesting to the citizens that it was voted to appoint a committee to investigate.

The Sussex board of trade will have an address from A. G. Turney and carry out the plan for a commercial orchard. It joins other boards in calling for more aid to immigration from both federal and provincial governments. It will send delegates to the immigration congress at Fredericton.

In connection with the Back-to-New Brunswick movement which has been inaugurated by the St. John Board of Trade, it was decided that it would be impossible to hold an old-boys home week there but the board decided to offer entertain all visitors for one day, June first, when the troops will be in camp. It is proposed to arrange a special programme for that date and the militia authorities will be asked to assist.

It was decided to write to the management of a woollen mill in the province and ask on what terms they will locate in Sussex.
