THE MARKETS.

Revised every Monday for THE WEEKLY SUN.

St. John Markets.

Meats and poultry are about steady, with the exception of turkeys, which are 3 or 4c per lb lower for such as are offered. Butter has declined sharply, and eggs are very low, a lot of case eggs changing hands Monday at 8½c per doz. Such potatoes as coppers are rather lower in price, but white varieties, being more in demand, are firmer. Large shipments of potatoes are going to the states both by rail and water. One firm outside of the city have shipped ne less than thirty carloads. A schooner was loaded here last week, and shipments are still steadily going forward. The price ever the border is not very high, but the demand has been good, and on the whole the farmers are doing fairly well, while at the same time old stock COUNTRY, MARKET. fairly well, while at the same time eld steck is being worked off, which, if held, would make the market for new so much the poorer. Upper prevince new cheese sells in the market and elsewhere about town at a range from 111 to 1210 per lb by the single cheese

FISH.	MATERIAL SECTION	

There is nothing new in cured fish of any and other fresh sorts except halibut are cheaper, though, apart frem gaspereaux, which are very plentiful, the receipts are still small. Large sales of gaspereaux are made for bait, and large quantities are being salted down. A few shad were taken last week in the harbor. Salmon are still scarce, but cheaper. The fish trade is not active at present.

Island and Ontario markets are firmer, the latter advancing ½c en Monday. We quote small retail lots ex warehouse at 45 to 52c small retail lots ex warehouse at 45 to 520 as to quality. Beans are marked up about 20c above last Menday's figures, for Canadian, beth grades, and the market is reported firm. A telegram to W. Frank Hatheway on Monday quoted beans 50 higher than on Saturday. Pot barley is firm. Seeds show no change from last week. With regard to hay there is nothing new here, but the hay market is exceptionally weak on the other side at present, and the prospects for heavy crops throughout Britain most encouraging. In consequence exporters of hay on this side who have engaged considerable steamship space in advance are getting anxious, as they may stand to less money unless the steamship agents come to their rescue. It is said that

With molasses down to 100 in Resheden

With molasses down to 10c in Barbados this market is easier. McDonald has reduced the price of his tobacces I to 3c per lib to the wholesale trade, and jobbing prices are proportionately reduced. There is no change in sugar quotations, but the market is very firm. There was a further advance of 1-16c on granulated in New York on Friday and a despatch from New York yesterday quoted both raw and refined firm. There are no other features of special note this week.
