Rewards Offered for the Capture of Japanese Ships.

A Regular Schedule Adopted by the Government of Formosa.

CHINA AND JAPAN.

A Great Naval Engagement Expected for the Possession of Nagasaki.

London, Aug. 10.—A disputch from Shanghal, says:—The government of Formosa has published a schedule of rewards for Chinese who capture or destroy Japanese ships or capture Japanese seldiers or sailors. who may be taken dead or alive. The government offers six thousand taels or almost £2,000 for the destruction of a Japa-nese warship. For the destruction or capture of a small warship, it promises £,000 taels or about £1,200. Two hundred taels will be paid for the head of a Japanese officer, and 100 taels for the head of a

Japanese private.
Tokio, Aug. 14 — It is officially announced that the government has received the report of the Japanese efficer who was in command of the Japanese squadron which recently attacked Wei-Hai-Wei. The report says that on Aug. 7 nineteen Japanese warships left Corea for Wei-Hai-Wei, which they captured at midnight en the 9th. A terpedo fitilla was immediately sent out. On the following morning shots were exchanged with the enemy's forts. But, the report concludes, the Japanese found that the Chinese fiset had gone away.
VICTORIA, B. C., Aug. 16 —A private

letter received by the steamer Tacoma an nounces that the expectation among the English residents of Japan is that a great naval engagement will be fought for the possession of Nagasaki, Japan's best coaling station, and the one nearest to China. The entire Pei Yang squadron is looked to as the attacking ferce, while Japan would concentrate the cream of her navy to assist the land ferces in the defence. At the sailing of the Tacoma the movements of the chief vessels of the Pei Yang fleet were shrended in mystery, and their descent upen some portion of the Japanese coast was daily anticipated. British residents of the Orient estimate China's naval force as fully equal to Japan's in moderness of equip-ment, speed and strength.

The trouble was precipitated by curiosity en the part of the populace to see Mrs. Hall and her baby. The mob in its eagerness became violent, and Dr. Hall was obliged to appeal to the governor of Pyong Yange for pretection. Aid was promised but did not come. During the night Dr. Hall's helper and the former owner of the house the dector was accupying, was arrested. Other indignities were heaped upon him, Going to prison to secure his helper's release, Dr. Hall found there also a helper of the Presbyterian mission, conducted by Mr. the Presbyterian mission, conducted by Mr. Meffat. Mr. Hall and his family were the for their safety, the missionaries tele-graphed to Dr. Scranton at Secule and by him the facts were laid before the American and British legations, where steps were immediately taken for the protection of those people, pending action by the governor of Pyong Yange, which is heatile to Christians. The house of Dr. Hall was stoned at night. Natives were forbidden to supply the missionary with food or water. It was not until thirty-six hours after orders

Among the points added to the map by the virtue of the discoveries made during this survey are Capes Gressam, Whitney, Armour and Scotland Island. On July 1, with seven men and an aluminum beat, I started to force my way nerth over the pack ice, but I was compelled, after several days of frightful struggle with the ice, to give up the attempt. On July 4 I started to return to Walden Island, crossing Dove Bay. We were all compelled for hours to wade through water. He went after his own record of 2,05%, gained at Nashville last fall, in two heats of a race, and also the track record of 2 063 made by the pacer Johnston in August, 1889. As he passed the quarter in 301 the crowd applauded. Then the half was covered in 1.012, and when the gelding passed under the wire within a quarter of a second of the world's pacing record in 1.04½, the grand stand trembled with applause. Geers returned to the starting place and acknowledged the tribute to the pacer's power by lifting the black cap which he always wears in the races. "Pa" Hamlin was happy as he saw his pacer place the figures down.

The Northwest assembly yesterday rejected a bill to impose a general tax of half a cent per acre on all lands in the territories. The object of the bill was to raise revenue for public works which cannobbe undertaken with the small federal subsidy, but it was regarded as a step towards direct baxation or single tax theory, and as such

rejected.

The company which is developing the water power at Rat Portage fer manufacturing and other purposes will be ready to supply Winnipeg with electric power within the next twelve menths. The scheme is now well advanced, and an effer to turnish the city a five hundred horse power will be submitted to the council at its next meeting. The power will be conveyed to Winnipeg, from Rat Portage, a distance of 150 miles, by electric wires.

The wounded man thought some one had discharged a revolver, and one had discharged a revolver, and that he had been shot, for he called out to Captain Cerbin, who was standing near:
"Jim, I'm shot." Governor Daly was standing close to Col McDonald when the explosion teck place. The glass penetrated through the leather of a thick boot tep and made a cut three-quarters of an inch deep, severing the branch of an artery. Surgeon Jacques attended to the injured man. There has not been a serious accident on the range for thirty years, and this morning Colonel to begin till the surgeon, who was late, arrived.
