THE PRESBYTERIANS.

Rev. Mr. Mullin's Case Before the General Assembly.

Rev. Dr. Macrae Presents the Case on Behalf of St. John Presbytery

The Whole Matter Referred Back and to Report to the New Brunswick Synod.

Toronto, June 16 .- The greatest part of the time of the general assembly to-day was occupied with the consideration of the anti-remedial resolution presented on Monday by Revs. Principal Caven of Knox college, Toronto, and King of Manitoba college, Winnipeg. Both gentlemen delivered strong addresses in support of the resolution. Principal King, in concluding his address, stated that whatever the result of the elections, he was perfectly free to say that the people of Manitoba would resist the re-establishment of separate schools. Rev. Dr. MacLennan of Point Levis,

Quebec, opposed the resolution, and moved in amendment that the assem-bly's deliverance of last year, in which the church body did not commit itself, be substituted. He was seconded by Rev. Dr. Campbell of Montreal. The latter thought that in passing the resolution the assembly would be doing just what they had condemned the Roman Catholic bishops for, viz. Calling upon the members of the follow a certain course the elections Rev Dr Sedgewick of Tatamagouche, N. S., characterized the resolution as a political one, and one that condemned the policy of one of the great political parties.

Finally the resolution was carried. there being some dissenting votes. During theday the judicial committee presented its report on the case of Rev. Mr. Hyland of the Ottawa presbytery. The presbytery some ago tried Mr. Hyland on a serious charge of immorality. The evidence was then considered such as to lead the presbytery to suspend Mr. Hyland from his charge. The judicial committee, however, recommended that the finding of the presbytery be reversed and the suspension be removed. There was no objection to this and the assembly adopted the recommendation. The afternoon session adjourned an hour earlier than usual to allow delegates so desiring to attend the reception given at Government house by Lt. Governor and Mrs. Kirkpatrick. Most of the comm the reception and spent a pleasant

Toronto, June 17.—At this afternoon' session of the general assembly the case of Rev. Mr. Mullin was dealt with. The matter was laid before the assembly last year, and came up again this year as a reference, both the presbytery of St. John and Mr. Mullin having agreed to accept the finding of the assembly. The presbytery re-legated the matter to its judicial comwittee in the early days of the present meeting, and this afternoon mmilitee reported through Rev. Mr. Mr. Mullin sever his connection with his congregation upon the first day of November, 1897, and on and from that next summer a catechist be employed to assist Mr. Mullin in his wide and scattered field. Mr. Mullin was asked if he agreed with the finding of the On his replying in the negative, it was agreed that the as-

sembly should hear both sides of the Rev. Dr. Macrae, convener of the judicial committee and a member of the prebytery of St. John, presented the case on behalf of the committee and presbytery. It is understood that while the case was being heard in committee Rev. Dr. Macrae did not ect in his capacity as convener. The reverend doctor then stated his ver-sion of the case. He stated at the outset that there was no charge of v.rong doing against Mr. Mullin, and that personally he had a great regard for him. The tenor of his remarks were to the effect that for some time past the presbytery, though it used obtain any satisfactory information. statistically or otherwise, in regard to was still dependent upon augmentation funds, although the presbytery held that it should long ere this have become self-supporting, and that many

persons in the charge desired Mr.

Mullin's removal. Rev. Mr. Mullin replied in a vigor ous address, and made out a good ca for himself. In his opening remarks he insinuated that the movement against him had its birth among some in his charge who had found fault with his political opinions. He stated held the present charge his congregation had built a church costling \$1,500 in Williamston; one in Stamley costing \$2,700; one at Tay costing \$1,500, and also purchased a block and built a manse at Stanley at a total cost of \$2,500. On these buildings there was preciates the value of such interest. only a debt of \$1,100; \$300 on that at dwelt at length on the various steps taken by the St. John presbytery to was nothing to warrant any way dissatisfied. With reference to the judicial committee's recommendation to place him on the aged and infirm ministers' fund, he said that he was healthy enough to continue in the active ministry, unless acident or death intervened, for a number of years; that to force him to retire would be an injustice to himself and to place him on the fund named would be an injustice to ministers more deserving of aid than himself.

After considerable discussion, Rev.

Principal Caven of Toronto moved

that the matter be referred back to

the presbytery of St. John, with in-

structions to watch the state of Mr. Mullim's charge and to report to the synod of New Brunswick. This was made the main motion in place of the condition committee's report and was carried. It was decided to hold the next meet ng of the assembly in St. Andrew's

evening of the second Thursday in A special committee was appointed to consider the advisability of selecting a permanent place of meeting.
This committee will report at the next meeting of the assembly.

M'ADAM JUNCTION.

The Railway Men's Christian Associa tion Public Meeting

and His Honor Judge Stevens of Charlotte County.

Addressed by W. H. Blackaller of Montres McAdam Junction, N. B., June 16 .- A public meeting under the auspices of the Railway Men's Christian associ tion was held in the Union church here last evening. Music was furnish ed by a picked choir, Mrs. William presiding at the organ. The principal peakers were W. H. Blackaller of Montreal and the Hon. Judge Steven of Charlotte county. J. Wesley Hoyt, vice-president, presided at the meet ing, and on the platform were Rev. B. G. Scaboyer and the following officers of the scciety: Luke Lawson, president; Thomas Armstrong, of the managing committee and Henry Har vey Stuart, secretary. The opening exercises consisted of music and the reading of the 23rd Psalm and prayer by Mr. Blackailler. Mr. Hoyt in the opening address sketched the progress of the society in McAdam since its or-ganization on the 27th of Jamuary last. Now it has a comfortable reading room and a well stocked library, containing besides a goodly supply of books sev eral hundred periodicals, daily, week y and other papers. McAdam is the first C. P. R. station at which the organization of the R. M. C. A. has been stablished The chairman read a telegram from Sir S. L. Tilley regretting that through indisposition he mable to be present. A letter was from H. P. Timmerman, general super-intendent of the Atlantic division, expressing regret on behalf of Mrs. Tim merman and himself that on account of pressure of business they were unself very heartily in sympathy with the society's work, and placed the use of the C. P. R. waiting rooms at its disposal for the purpose of holding neetings should the accommodation be required, this statement being enthusikistically received by all present, us was also the intimation given by the chairman that he thoroughly be lieved that their worthy superintendent would help them in their efforts to extend the accommodation, which all felt was urgently needed in order to produce better results in the working of the association. The chairman also referred to the kindly interest taken by Mr. and Mrs. Hale in the welfare of the association, as was instanced by the many conveniences found in the reading room, and regretted that circumstances prevented their being present on this occasion. The chairman then called on the Rev Mr Seaboyer, who in the course of his remarks appealed to the railway men to show themselves on the side of truth and right. Mr. Blackaller on rising to address the meeting met with a most hearty reception. A railway

moral and social wellbeing of railway men. He gave a clear and concise statement of the objects and workings provide at all the principal railway centres rooms where the railway men can meet and engage themselves with such things and in such surroundings as will procure for them a better social and religious atmosphere; rooms which shall be found books, papers games, etc., etc., to counteract the influences which tend to lead men to seek their amusements in the saloon and other places of more or less ob-

lectionable character. He believed

men must be based on the gospel of Christ. The railway companies in many places had come to see that it paid them to support such associations, as it gave them a far better class of employes. He then gave a very interesting report of the great progress made in other places in the establishing of these associations for the benefit of railway men. The Hour Judge Stevens then followed with an interesting address, which found its interesting address, which found 4ts way right to the hearts of its hearers. He pointed out the great value of good books, and recommended especially the study of biography. He referred to lames Watt, Sir Humphrey Davy, and others who had risen from the humbler walks of life to places of great prominence and usefulness. He dwelt strongly on the association with kindred minds, and appealed to young men to be Christians if they would be successful in life. He spoke of the efforts of the association as a step in the right direction, and one that could not have failed to accomplish much good, and advised all the young men to join its membership and participate in the benefits to be derived therefrom He expressed his willingness to help forward the movement on any occasion which might arise, as he believed that any effort put forth in this direction could not fail to be of benefit to the community at large. The audience expressed their appreciation of the kind ly interest shown in the association by the judge by frequent marks of ap-

the course of his remarks and with a hearty round of applause on resuming President Luke Lawson next gave few well chosen remarks, and moved a vote of thanks to the speakers of the evening, who had come so far to address the meeting, which was carried unanimously, and to which Messrs. Stevens and Blackaller replied very feelingly. A collection was taken for the society's benefit. The meeting closed by the singing of the hymn Blest be the tie that binds, followed by a verse of the national anthem, asm displayed throughout and the frequent applause which was elicited by the remarks of the speakers demon-strate that the rallway men of Mc-Adam are fully alive to the benefits such an association is to them, and it was freely expressed that the meeting would mark a very decided advance
