VIOLATING GAME LAWS.

Snipe Shooting to a Considerable Extent Now Going On.

Complaints have been made that the game laws are being violated and the wardens are seemingly doing nothing to prevent it. The most flagrant are now being committed in connection with snipe shooting. Everyday dozens of men can be seen on the Courtenay Bay flats blazing away without any attempt at concealment, and their work has been well repaid by the undisturbed state of their game pouches.

The law is very plain on this point, and leaves no room for argument to the guilt of those who are taking part in the sport at this early date. The law states that every one guilty of an offence liable to the penalty hereinafter provided, who between the dates hereinafter specified, hunts, takes, kills, or destroys any snipe or woodcock between the first day of December and the first day of September following. The penalty provided is a fine not less than \$4 and not greater than \$10, or imprisonment from 4 to 10 days.

POLICE COURT.

Some One Has Stolen Money From Another.

A number of Saturday and Sunday drunks were before the police magistrate this morning.

Ernest Meim, a native of Norway, made his second appearance before the police court during the short time he has been in the city. He is drunk on the regular picture of scenes at St. John, which appear on each card, there is in one corner a neat facsimile of our currency. Each card shows a obverse and reverse sides of one coin, and the issue includes the one cent copper, five, ten and twenty-five cent silver coins, and in a few days the fifty cent will also be issued. These cards will be extremely popular with tourists who are miserably ignorant or have friends who take an interest in this science. Several new scenes are also being engraved for this issue and among them is a picture of the new library.

UNIQUE SOUVENIR CARDS.

A unique form of souvenir postal cards is now being issued by the Tourist Association. The design is the work of the secretary, Mrs. Olive, and is something original in this line. Besides the regular picture of scenes at St. John, which appear on each card, there is in one corner a neat facsimile of our currency. Each card shows a obverse and reverse sides of one coin, and the issue includes the one cent copper, five, ten and twenty-five cent silver coins, and in a few days the fifty cent will also be issued. These cards will be extremely popular with tourists who are miserably ignorant or have friends who take an interest in this science. Several new scenes are also being engraved for this issue and among them is a picture of the new library.

WAS NOT ON FIRE.

Report That the Beatrice Waring Had Been Destroyed Was Untrue.

The Beatrice E. Waring arrived at one o'clock at Indiantown looking none the worse for the severe scorching she was supposed to have gone through on Saturday night, according to one of the morning papers. Capt. Peatman laughed when the article referred to was shown him and declared it was imagination clear through. With the exception of the usual kitchen fire over Sunday there was not a speck of blase on the boat. The report was spread by a person driving along the Belleisle shore Saturday night who saw the Waring pass up the bay with all her electric lights and seemingly wrapped in flames from stem to stern. Whether he thought the boat was actually ablaze or whether the brightness of her lights suggested the idea to him and he spread the report as a joke is not known, but it was taken seriously and flew from mouth to mouth. It was communicated to the Champlain as she was coming down from Fredericton and thus brought to the city. Several anxious inquiries were made this morning as to the boat's safety.

"It was a compliment to her lightning power," said Captain Peatman.

PUBLIC SCHOOL OPENED.

Attendance About Same as Last Year.

Between the hours of eight and nine o'clock this morning the streets were alive with children returning to school after the holidays.

The attendance at the different schools for the year just commencing promises to be, so far as it is at present possible to estimate, equal to that of last year. Possibly at one or two schools there will be slight increases in the attendance, while at one or two others there may be a small falling off. The attendance at the High School last year was nearly 500. There was present this morning almost that number, and there were few vacant seats in any room. At the Victoria the attendance is about the same as last year.

TOOK A BATH.

Runaway Horse Badly Frightened a Yachting Party.

On Sunday afternoon while a small yacht was tied up at the end of the Clifton ferry wharf making some slight repairs, they were badly frightened by a runaway horse that for a moment threatened to jump on the frail craft. The horse had got clear of the rig to which it had been hitched and was running along at a terrific pace and heading directly for the spot where the yacht was moored. When close to the yacht the horse stopped, made a slight turn and clearing the boat sank into the water. It came quickly to the surface and had no trouble swimming ashore.

ILL-TREATED HIS HORSE.

If the secretary of the S. P. C.
