

H. GUNTER'S DEATH BY TRAIN A CAMPBELLTON

Prominent North Shore Lumberman Crushed To Death By Locomotive At Campbellton. Fredericton Shocked At News of Fatality—Another Evidence of False Economy.

Special to The Standard. Campbellton, N. B., Nov. 12.—The community was shocked this evening to learn that Herbert H. Gunter, president of the Wm. Richards Co., Ltd., had been crushed to death beneath the wheels of a locomotive at the Mowat Crossing near the I. C. R. station.

Victoria Street crossing is just at the East entrance of the railway yard, there being five tracks. The great express had just arrived a few minutes previous to the accident, which occurred about 6.30 and a shunter was making up the train for the morning's east bound local. This is done by taking the cars one by one and running down the track to the switch, which is beyond Victoria street, and backing them into the crossing on the north of the station platform.

Shunting in Progress. It appears that Mr. Gunter came down Victoria street just as this shunting was in progress and endeavoring to get through the crossing. He was struck by the engine and three wheels of the engine passing over him. When first aid came to him he was pinned beneath one of the driving wheels of the engine, and his life was extinct. Some difficulty was found in removing the body which was not accomplished until about half an hour had elapsed, after which it was taken to the undertaker Graham's rooms on Water street.

Mr. Gunter was a genial kind hearted man, and very popular with all who knew him. No man ever applied to him for assistance in vain and since coming to Campbellton two years ago, he has made hosts of friends who will deeply regret his untimely death. For a number of years he resided at Boistown, where he conducted the business for the Wm. Richards Co. part of the business for the Richards Co. was transferred to him in this town he lived at Fredericton, and in fact his family are residing there still, with the exception of one son, William who is employed in the company's office here and who is now on a visit to his home, having left yesterday morning for Fredericton. The deceased was made president of the company after the death of Wm. Richards and subsequent to the sale of their Miramichi and Nashwaak interests to the Miramichi Lumber Co., Mr. Gunter came to Campbellton to conduct the business here. The remains will be taken to Fredericton tomorrow morning for burial.

An Inquiry. An inquiry was made into the cause of the accident tonight by Coroner Doherty. Only one person was on the scene at the time and his testimony was that the deceased in crossing the track slipped and fell, and as he was on the opposite side to the driver, the engine was upon him before he could get out of the way.

The accident called forth many expressions of disapproval of the I. C. R. Board of Management in doing away with the lights in the yard on the ground of economy. Up to a couple of months ago there were two arc lamps which served to keep the yard and the crossing well lighted but whether the accident would have happened or not if the lights had not been ordered out is rather difficult to determine under the circumstances.

At all events it is claimed it was almost impossible to see anything just at this point and the railway authorities are being strongly censured for what is claimed false economy. Another matter which is being sharply criticized to the placing of so many tracks across Victoria street. When the work was started the Board of Trade was asked to give a guarantee without avail. It has been claimed since that the railway should place gates at this crossing with a man on guard to insure safety of the public.

Fredericton, N. B., Nov. 12.—News of the tragic death at Campbellton today of Herbert H. Gunter, a well known local lumberman, caused a great sensation here when word was received by his family this evening. The sad affair has been practically the sole topic of conversation about the hotels and other public places tonight and the entire community is shocked. The late Mr. Gunter was one of the most prominent lumbermen operating on the North Shore. He was president of the William Richards Co., and when they sold the Miramichi interests to the International Paper Co. consummating one of the biggest lumber land deals in recent years in New Brunswick. Mr. Gunter

Auditor General Criticizes Dealings of Government With The Dredging Ring

Objects To Certain Transactions Made By The Department In West Side Dredging. Interesting Information For St. John Readers In Report of Government Official.

Special to The Standard. Ottawa, Ont., Nov. 12.—The Auditor General's report contains a long correspondence on the subject of the dredging of the No. 6 berth, Saint John, N. S. It begins on March 27, 1909, when the Maritime Dredging and Construction Company applied for a payment of \$12,952. Mr. Scammell, the engineer, placed a price on the removal of large boulders at \$19.90 a cubic yard. The Auditor General states that he is not satisfied with the fairness of the price paid for work performed.

Will Not Sell. It is likewise stated on the very best authority that before Mr. James Ross would sell a share of his coal company, gentlemen representing holdings to the value of \$3,000,000 assured the president that they would not sell their stock even if par were offered, deciding to run their chances of becoming a part of a greater corporation created out of these two great Canadian Companies. Consequently the president was relieved of the obligation which he for a long time felt that he was in duty bound to protect the minority stockholders who had so loyally stood with him during the protracted difficulties with the Henry Pellat left for Toronto to last evening Mr. Ross remained in the city to see the end of an agreement that has created the greatest interest in the commercial and financial community.

The Closing Merger. It may also be added that the merger of the Dominion Coal Company and the Dominion Iron and Steel Company into one great company to be known as the Canada Steel Corporation, is now nearer an accomplished fact than ever before. In fact as soon as the transfer of this large block of coal stock is made active steps will be taken to bring about the union of the two companies, although it can be said that no basis as to prices of the two companies entering the merger has yet been reached or discussed.

Special to The Standard. Halifax, Nov. 12.—Mr. G. S. Craig, superintendent of the Excelsior Insurance Society, of Toronto, who has been in Halifax for some time, has been in the city since last Friday is enormous. The greater portion of the railway and the coastline on the north side of the island have been seriously damaged. Landslides are numerous on the main railroad, and communication has been completely cut off. Many bridges also have been carried away.

Fragmentary Reports Trickling Through, Tell Of Much Damage In Wake Of Southern Gale.
