STATEMENT FROM BRICKLAYERS' UNION

Only Two Men Involved at Present, but Germain Street Strike May Extend to Other Cities--International Affair.

In consequence of the refusal of the Hassam Paving Co. to insist on the payment of a fine of \$25, by two men in their employ, the Bricklayers' and Masons' Union, the latter body yesterday morning declared a strike against the company and called their men off the work there. The action of the union affects only two bricklayers that were employed and Mr. Low, manager of the company, said it would not affect the progress of the work in Germain street a particle.

Mr. Low said the union had no jurisdiction over the men employed and, therefore he would not interfere in the matter. The local union had objected to the two men employed in laying the cement sidewalk, working overtime, between the hours of 12 and 1 and 5 and 6. Mr. Low said the men in question were paid \$6 a day, which was higher than the union scale here, and were also paid for overtime.

It was often necessary, he said, to have these men stay after the usual hour to finish off the work on which they were engaged, as it could not be allowed to stand over. The men were satisfied to do this and he did not see that the local union had any right to interfere. He said he was arranging for men to take the places of those who had been engaged in laying the bricks for the manholes and catch basins and the work would go on the same as usual.

Neither Mr. Low nor the officials of the Bricklayers' Union are worrying over the strike on Germain street, as only two men are involved. Mr. Low stated yesterday that he had secured two new men to work in place of the strikers.

The Bricklayers' officials say the difficulty which involves the right of the local union to regulate local conditions could have been adjusted if Mr. Low had not ordered the two men from Lawrence to ignore the Union here. They had no objection to men working overtime, but their regulations prohibited work between 12 and 1, and 5 and 6, and should not be set aside without the consent of the local.

Statement From President. The president of the Bricklayers' Union issued the following statement last night:--

"In reply to Mr. Low's statement in the Times that the Bricklayers' local Union has no jurisdiction over the two men from Lawrence working for the Hassam Company, I would like to state that the St. John local has control of all I. U. men working in its jurisdiction, and the International Union has the right to say what hours men work. As regards the catch basins being put down with concrete, I might suggest that the Hassam method be employed, as it seems to take in St. John. As regards the contracting jobs being expensive in St. John, I might say that the Bricklayers of Union No. 1, St. John, are as good as can be found anywhere. Perhaps it would not be to the best interests of the Hassam Co. to import any more 'experts' to Canada, as there is a law in regard to alien labor."

I am pleased to know that Mr. Low blames the dogs for destroying the work, as Mr. Clarke stated to a member of No. 1 union last Monday night that he would not be surprised if some of our members had destroyed the work. I might also state that the Hassam Co. has taken the wrong side of this matter, as we are not asking the Hassam Co. to pay the fine of the imported men, we merely want our local regulations complied with.

JAMES MCGHERR. President of B. and M. I. U. of St. John. Another official of the union stated that there was some possibility of the strike being extended. A. R. C. Clarke is connected with the Hassam Company, and the bricklayers working for him on the Marsh bridge road contract may be called out. However it is understood the matter will be laid before the International officers before further action is taken.
