CONVOY SYSTEM SATISFACTORY

Sir Leo G. Chiozza Money Makes Statement in House of Commons.

London, Jan. 29.—Replying to a question in the House of Commons today, Sir Leo G. Chiozza Money, parliamentary private secretary for the ministry of munitions, said the ocean shipping controller, on behalf of the shipping controller, said the ocean convoy system continued to work satisfactorily. Since its inception, in the middle of 1917, more than four million tons of shipping had been conveyed with a loss of only 1.6 per cent, including ships sunk through the dispersal of convoys and through bad weather.

NEW YORK NEEDS STILL MORE COAL

New York, Jan. 29.—Although New York's coal supply is now sufficient to assure almost normal daily departures of steamships, fuel administrators regarded the situation tonight as still serious. They declared not nearly enough coal was arriving at tidewater points. It was estimated that the city saved about 15,000 tons of anthracite and 5,000 of bituminous on the second heatless Monday.

The severe weather conditions did not prevent the calling of the supply ships for the Allies in this harbor in most need of fuel.

NEARLY HALF A HUNDRED KILLED IN LONDON RAID

GEORGE BROTHERS WILL FORTY-SEVEN PERSONS AND MORE KILLED IN 170 IN ENGLAND

Loss of Life Heaviest Caused by Any of New Series of German Aerial Attacks Which Began Early This Winter—Casualty List Largest Since Raid of June 13, 1917, When 97 Persons Were Killed and 437 Wounded—One Machine Brought Down.

Toronto, Jan. 29.—The following comment on the market situation as regards foodstuffs appears in Canadian Grocer:

While the food controller has not established a price for the new grade of flour it is generally understood by the millers that the price for Manitoba flour will be around \$11.10 per barrel, on account of the arrival of the new crop on this basis at any rate. In some instances mills have started to grind the new grade of flour. Rolled oats continue in firm market with a general advance recorded on the part of the manufacturers of package oats. One of the important advances to be recorded during the week was that on canned pork and beans and canned meats of various kinds. Higher prices have also been made effective on bicarbonate of soda, cotton twine, salad dressing, fruit jars, wax paper, hand cleaner, lye. A reduction was recorded in the price of Epson salts.

One of the refineries reduced the price of sugar to the basis of the two refineries who had previously reduced. An embargo on the shipment of sugar from the United States is likely to be only a temporary measure by way of relieving the freight situation. Canadian sugar men anticipate there will not be any serious consequences to the Canadian trade, as there are some stocks of raw sugar in hand and these will in all probability be sufficient to meet requirements until the embargo is again lifted.

There is a strong undertone to the tea situation, due to the high freight rates now prevailing on the Pacific Ocean. Stocks of tea in Canada have been fairly heavy recently and this has held the market in an easy position for some time past. Lima beans were in better demand than the second lot. Storage butter was in firmer market during the week. New-laid eggs are arriving in better quantity and the price on this grade was lower. Storage eggs are getting within narrow compass and the price on this grade showed a higher range. Foultry supplies are light with very little being shipped to distributing centres.

THE QUEBEC BANK APPEALS SEPARATE SCHOOL COURSE

Decision of Appellate Court Expected to Be Referred to Privy Council.

Toronto, Jan. 29.—Formal notice of appeal was entered by the Quebec Bank, the Bank of Ottawa and other defendants yesterday in the action launched by the Ottawa separate school board, from the decision of Mr. Justice Chate, whereby the commission appointed by the Ontario legislature to administer the school was held responsible for and held to refund all expenditures save those which would have been incurred in the normal administration of the schools.

It is expected that the decision of the appellate court, whatever it may be will likewise be appealed and that the case will go to the privy council.

DR. THOMPSON WILL WIN IN THE YUKON

Congdon, Opposition, Has a Slight Lead, But This Will Be Wiped Out by Soldiers' Vote.

Dawson, Y. T., Jan. 28.—Yukon's deferred election for member of parliament was held today. Returns in all districts except Mayo, Glacier and a few small outlying districts give F. T. Congdon, opposition candidate, a majority of twelve for the entire territory.

Dr. Alfred Thompson, Unionist candidate, says he easily will overcome this by the soldiers vote overseas and the outlying districts. His majority estimated among the soldiers is 200 which would leave his entire majority, it is said, between 100 and 200. The Congdon forces are still confident of good returns from outlying districts and overseas.

When the Kidneys Fail

Poisons Remain in the Blood, Which Cause Pains and Aches—Read What the Surest Way of Getting the Kidneys Right.

Brookville, Ont., Jan. 29.—If you have headaches, backaches and aching pains you have reason to suspect the kidneys. Pain is caused by poisons in the blood, and poisons only remain in the blood when the kidneys are defective and fail to do their work.

This Brookville lady has reported her case because she believes that a great many people are suffering as she did without knowing the cause or cure.

Mrs. Frank Noyes, 9 Stuart street, Brookville, Ont., writes: "For years I was afflicted with kidney complaint. I became very nervous, was easily worried and had frequent headaches and neuralgic pains, especially through the back. I had indigestion, poor circulation of the blood and often was bothered with weak spells. I commenced using Dr. Chase's Kidney-Liver Pills, and had only taken two boxes when I felt greatly relieved. I continued the treatment, however, until I was completely cured. In all I took about ten boxes, and have not been troubled in this way since. I highly recommend Dr. Chase's Kidney-Liver Pills. I think also that the Plasters and Ointment can't be equalled."

Here is another letter to show how rheumatic pains disappear when the action of the kidneys is awakened by Dr. Chase's Kidney-Liver Pills:

Mr. John May Walkerton, Ont., writes: "I was troubled with rheumatism in my legs and I became so lame that I could scarcely get around. Dr. Chase's Kidney-Liver Pills were recommended to me, and so I commenced using them. After I had been taking them for awhile I was delighted to find that my rheumatism had left me, and today I am as sound as a bell, able to get around and attend to business. I have made use of Dr. Chase's medicines in many ways for the last forty years, and can not speak too well of their good qualities."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 35 cents a box, all dealers or Edmundsons, Bates & Co., Limited, Toronto. You cannot expect such results from substitutes. Insist on getting the genuine.

War Flour Good Flour

By Caro M. Brown

Chemist—Lake of the Woods Milling Company Limited

In the interest of food conservation, it has been proved most economical to insist upon a standard loaf of bread from all bake-shops, and this is only possible when a standard flour is manufactured. In order to effect this standardization of flour all over Canada, the Government requires that the mills make not less than 74 per cent flour from wheat, that is 74 pounds of War Flour is to be made from 100 pounds of wheat. This is only very slightly more than most mills are already extracting.

Not "Graham" Flour

The slight increase of flour extracted will be true flour, and not bran or dust. Formerly this slight amount of flour had been allowed to go into the feeds for animal consumption, but when every grain of wheat counts as it does now, this is too extravagant a practice. There need be no apprehension as to the quality of Government Regulation flour. It is NOT to be "Graham," nor even so-called "Whole-wheat" flour, and it is NOT flour mixed with Bran and Shorts. It will be simply pure flour as taken from the wheat berry, purified and sifted exactly as in the past; but, instead of several grades, such as FIVE ROSES, HARVEST QUEEN, LAKWOODS, etc., being separated, all the flour will be blended together and only one brand will be on the market.

Colour More Creamy

The War Flour will not have quite the white colour of FIVE ROSES, but for all practical uses it will give identical results in baking. Flavour, texture, general appearance and nutritive value will not be impaired in any way.

Excellent Baking Results

Foreseeing that some regulation of this sort was imminent, we have been trying out in our Laboratory recipes for Bread, Cakes and Pastry, using the new "War Flour," our idea being to ascertain if any modification of present methods should be adopted. There need be no fear that the new flour will make unpalatable bread, cake or pastry. We were more than pleased with the results, and found that for bread no variation seemed to be necessary.

Some Suggestions for Housewives

In making pie crust and puff paste, we have obtained the best results by using very slightly less water than with FIVE ROSES. The crust was flaky, crisp and well-flavoured. For cake, we followed exactly the same recipe in using FIVE ROSES and the War Flour; the cake from the War Flour was equal to that from FIVE ROSES in lightness and texture, was excellent in flavour and as rich, creamy colour.

As the War Flour will be used in gluten, care should be taken in making baking-powder biscuit and pastry not to work it or handle it any more than is absolutely necessary, as this toughens the gluten, resulting in a texture less tender and flaky. It will require a little study and ingenuity on the part of each housewife to adapt her favourite recipe to this flour, but the little time given to this will be more than repaid by the results obtained.

Makers of Five Roses Flour

Montreal and Winnipeg

FIVE ROSES IN KHAKI—To conserve wheat so essential to the Allied Cause, your favourite brand is now being milled according to Government Regulations. But the name "FIVE ROSES" which, for over a quarter century, has been a positive assurance of quality is still your protection. Users of "FIVE ROSES Government Grade" Flour are assured of the best available flour under all conditions. Fortune possessors of the famous FIVE ROSES Cook Book can bake with the new FIVE ROSES with practically no change in their present recipes and in the certainty of excellent baking results.
