

3. *Resolved*, That in order to make our prayers and sympathies more effective, we recommend all our Pastors to take up Quarterly Collections in all their congregations for aiding worthy young men in qualifying themselves for the Christian Ministry.

In behalf of the Committee on Education,

J. L. PHILLIPS, *Chairman*.

Resolved, That the Report be referred to the Educational meeting.

The Report on Missions called for, and read by Rev. B. Minard, Chairman of Committee, as follows :

Whereas, The parting words of Christ to His disciples were—"Go ye into all the world and preach the Gospel to every creature," and in compliance with this commission they scattered the seed of divine truth, everywhere preaching the word. And,

Whereas, The early churches were planted and sustained by Mission enterprise, and Christianity to-day is the outgrowth of this mode of operation. Therefore—

Resolved, 1st.—That Mission work means something more than passive resistance or the holding of ground already taken, but it implies and inculcates piety and holiness in the hearts of laborers—the consecrated, united, diligent and perpetual advance of the Gospel in the form of aggression upon every system of evil whether at home or abroad.

Resolved, 2nd, That we give to our Home and Foreign Missions our fostering care and the hearty co-operation of not only our heads and hearts, but also pocket books, since these enterprises, ordained as they are of God, constitute the right arm of our denomination.

Resolved, 3rd. That the Ladies' Foreign Mission Society, inaugurated a year ago in this Province by our esteemed Missionary, Sister Julia Phillips, receive from our pastors and respective churches every form of encouragement and assistance that their time and circumstances may permit.

B. MINARD, *Chairman*.

Resolved, That that part of the Report relating to Foreign Missions be referred to the Foreign Mission meeting, and that part relating to Home Missions be taken up.

Rev. S. N. Royal spoke of the great need of missionary work in our home field, and his willingness to labor that destitute Churches may be helped.

D. Weston spoke of the necessity of fuller consecration in Christian work. He thought every minister should be a great stove in the Church, and warm up the whole congregation.

Rev. J. L. Phillips spoke of his interest in Home Missions. He thought the ministers were to blame for not teaching their people to give. The water of life is free, but must pay for the pitcher. The minister may be the big stove, but must have little stoves all a-fire in every pew, all over the house. Why should a Church by dying all the time. It is
