frightened ladies, and bloody encounters took place among the men. Dr. Dario Marco del Pont saw his son stabbed be-understanding and fulfilling the duties fore his eyes by a ruffian who appropri-ated his buoy. A gentleman from Buenos Ayres named Giralod clung to the paddlewheels for more than three hours, along with Mr. and Mrs. Ackerley; also the Escribano Garrido with his wife. They were all dreadfully burnt: Poor Ackerley lost three chil-

dren, and poor Garrido and his wife thinks it impossible to cross the country were scorehed to death or drowned from side to side. before assistance could reach them. The fiames from the America were so over powering that the boat from the Villa del Salto could not approach her within 100 yards. Garrido leaped off first, and was picked up just as he was sinking. Ackerley went next, and having obtained a good English life buoy courageously returned, and had the inexpressible returned, and had the inexpressible pleasure of saving Lis wife, though in an almost dying state from burns and im-mersion for such a length of time. Words cannot describe her anguish at the loss of all her precious little ones, at one fell swoop. The saddest part of the disaster is, that nearly all the women the loss of each of the disaster is, that nearly all the women disaster is, that nearly all the women and children perished, which is explained by the crew running away with the only

ships. From these reports it would appear that there will be a good market in England for Canadian built wood vessels during the present year, and vessels during the present year, and inconting to the census just taken whole. The doubtless a largely increased number of the total population of New Zer and is vessels will be built in our shipbuilding 256,393. This number which is exposed to the census just taken whole. The polled is vessels will be built in our shipbuilding consistence consists of 50,356. Units of the census just taken whole.

The N.Y. Times had lately pertinent remarks on compulsory educa-tion in the United States. During the early settlement of New England, and early settlement of New England, and for years after the attainment of national independence, so well was the value of education understood that there needed no enactment to render it compulsory. But all this has been greatly changed. Owing to the great foreign immigration, London, 11th .- A meeting in Hyde Park yesterday to protest against the passage by Parliament of Park's regula-tion bill was attended by about 4,000 persons. Proceedings were orderly throughout. One feature of the demonthe comparative poverty of certain es in the Southern States, thousands stration was the burning of a copy of the objectionable hill.

throughout. One feature of the demon-classes in the Southern States, thousands and even millions exist amongst, the population without even the rudiments of knowledge which are afforded by a common-school education. In New York State alone pearly a quarter of a million persons cannot write. In Pennsylvania the number is only a little lower; in Ohio somewhat lower yet; and in the whole Union, there are, we are told, more than five and a half millions of what are termed "illiterates." It is true that a large proportion of all these are of foreign birth; and yet that makes the danger to the State, perhaps, all the
