

## BITTER ORANGES

For Marmalade making. The bitter oranges we have this season are fairly good size, and sound. They are not good for anything else, but they make delicious marmalade.

25c. DOZEN.

VALENCIA ORANGES, 20c. a dozen. Very juicy and fine flavored.

SEEDLESS ORANGES, 30c. and 40c. a dozen. Some especially nice ones, rich and juicy.

FANCY LEMONS, 20c. a dozen.

CAIRN'S MARMALADE, 20c. a jar.

CROSSE & BLACKWELL, 20c. a jar.

H. MALCOLMSON

## WE NEVER GUESS

People everywhere eventually insist on receiving the ideal service they get here without insisting. The public at large is not one-half as particular as we are in this matter of pure drugs, or in regard to the accurate filling of their prescriptions. In the buying, selling or handling of drugs we never guess. We make sure that everything is right in every particular.

RUSH OF IMMIGRATION.

Great Possibilities of Western Canada—Wheat Returns Have Raised Interest to The Point of Enthusiasm

Her great wheat crops have turned out to be seven-league boots in the march of Western Canada towards prosperity, and the rush of immigration in that direction during the past year indicate that her neighbors and friends desire a share in that prosperity. The estimates approximate 65,000 as the number of people who have gone to Western Canada in the past year. The record crop of 1901 fastened attention on the great possibilities of that vast prairie country, and the returns of 1902 have raised interest to the point of enthusiasm. That this enthusiasm has a solid basis only a glance at official figures will demonstrate. The wheat crop for 1902 is officially estimated at 68,000,000; 60,000,000 will be exported; 64,000,000 was produced by Manitoba alone, and 2,000,000 of the 2,500,000 acres under cultivation, is located in that province. But the region for three hundred miles west of Manitoba and for four hundred miles northward of the Canadian Pacific Railway is capable of the same results. The average yield of wheat per acre in these districts this year is nearly thirty bushels. Such figures have made Western Canada look very attractive in the eyes of farmers wishing to better their condition, and Mr. E. F. Stephenson, inspector for the Department of the Interior, reports 14,725 entries of land sales for the fiscal year ending June 30, 1902. The total area disposed of Mr. Stephenson estimates at 7,000,000 acres. A part of this, of course, represents the large holdings of companies organized for carrying on the industry of wheat raising on an extensive scale. The British-Canadian Wheat Raising Co., is one of the large corporations of this character.

## WORLD OF SPORT

THE RING

Quite a number of local sports went to Detroit last evening to see the fight for the bantam championship of the world between Andy Tokell, the local champion, and Harry Forbes, which resulted in the latter securing the championship.

Forbes was decidedly the cleverer man, although his English opponent had a longer reach and was stronger.

The fight was a fast ten round bout. Tokell being badly battered up, while Forbes, according to Detroit papers, came out without a scratch, although they admit the Briton did hit him once or twice in the contest.

BASEBALL

Lidney Carder, the young Englishman who joined the local football club last fall, has received a paper from his home in England in which is described the game the team of his town had with the Canadian team which has been touring the old country.

The Canadians lost by a score of 44 points to 4.

Mr. Carder receives a paper from England each week that has nothing but football news in it. It is rugby almost altogether, very little association football being played.
