Copy.

Ottawa, July 11, 1910.

Dear Sir,-

As you are doubtless aware, the United States Government has approached the Canadian Government on the subject of negotiating a reciprocal trade treaty between this country and the United States.

That I may be in a position to faithfully and intelligently represent your views to my colleagues in the Cabinet, I would be obliged if you would favour me with a brief statement as to the probable effect of such arrangement upon your business, also with any views or opinions having a bearing on the subject which you would like to have considered either from the point of view of your own interests in particular or the general interests of the Province and the Dominion.

Yours faithfully,

WLMK
