Ottawa, January 15, 1916.

Dr. Otto Klotz,
Dominion Astronomical Observatory,
Ottawa.

Dear Dr. Klotz:

I have received this morning, and am looking forward with interest to reading tomorrow, your article on "Aurora, Earth Currents, and Magnetic Disturbances". I much appreciate your kindness in sending me this article.

Only on Tuesday last I was discussing with a friend the phenomenon of the Aurora, and I am indeed glad to have something scientifically accurate concerning it.

Yours sincerely,

W. L. MACKENZIE KING
