

O	PAGE.	PAGE	
Observation, insufficiency of.....	521	Periodicals, necessity for reading technical.....	511
Observation on polaris.....	32	Periodicals, value for library.....	521
Obstacles in construction of drains.....	18	Periodicals, value in current work.....	521
Office work, systematic management of.....	792	Periodicals, young engineers should read.....	825
Offsets, method of turning.....	34	Perspective drawing, the importance of.....	850
Offsets, purpose of.....	34	Pettit truss.....	276
Off-take drains, width of.....	18	Pettit truss, sub-panel members.....	339
Oil for metal work.....	720	351, 365	
Omaha Bridge.....	6	Phoenix Bridge Co., Dr. Waddell's engagement with.....	4
Open hearth steel, acid, manufacture of.....	680	Phoenixville, Dr. Waddell's residence at.....	5
Open hearth steel, basic, manufacture of.....	681	Phosphorus, elimination of.....	680
Open hearth steel, superiority of.....	680	Photography, usefulness of.....	852
Operating machinery, for Halsted Street Lift-Bridge.....	540	Physics, relations to engineering.....	901, 905
Operation of Halsted Street Lift-Bridge, power required for.....	555	Picket line, running of.....	34
Operation of Halsted Street Lift-Bridge, regularity of.....	565	Pickets, setting of.....	33
Oratory, teaching of.....	945	Piece work, effects upon accuracy.....	775
Ordinary iron highway bridges, writing of.....	3	Piers for Halsted Street Lift-Bridge towers.....	539, 549, 570
Original research, methods of.....	178	Piers, responsibility for placing of.....	804
Ornamental design for elevated railroads.....	707	Pile driving, instruction in.....	946
Overhead bracing for Halsted Street Lift-Bridge.....	551	Pile driving, methods of.....	71
Overtime, payment of engineers for.....	824	Pile trestles.....	24
P		Piles, section of.....	647
Pacific Short Line Bridge.....	6	Piles, specifications relating to.....	904
Paint for metal work, tests of.....	59, 647, 660, 662, 664, 667	Piling, for Mexican foundations.....	805
	683, 686, 707, 712, 720	Pins for highway bridges.....	232
Painting metal work, difficulties relating to.....	721	Pins, unit stresses in.....	343
Painting, methods of.....	778	Pipe line, on flow-line bridge.....	924
Painting, pier work.....	905	Pipe lines, details of specifications.....	907
Panel length, best.....	278	Pipe lines, formation of angles and curves in.....	908
Papers, technical, discussion of.....	788	Pipe lines, protection of steel.....	908
Papers, technical writing of.....	81, 788	Pipe lines, specifications for.....	907
Papers written by Dr. Waddell.....	3, 8, 0	Plan, making of railroad.....	46
Parabolic truss.....	277	Plans, alterations in.....	884
Parties, organization of locating.....	38	Plans for flow-line bridge, preparation of.....	919
Partnership of Dr. Waddell with Ira G. Hedrick formed.....	6	Plans, specifications for the return.....	886
Patents, Dr. Waddell's.....	8	Plate girder proportioning.....	288, 298
Paving of lift-bridges.....	581	323, 341, 361, 362, 374	
Pedestal caps for elevated railroads.....	603	376, 383, 387, 388, 420	
683, 750		Plate girders, calculation of stresses in.....	268
Pedestals for elevated railroad columns.....	604, 638, 644, 665, 748	Plate girders, compared with latticed girders for elevated railroad.....	604
Pedestals, for Halsted Street Lift-Bridge columns.....	539, 548	Plate girders, cost of.....	449
Pedestals, proportion of to columns.....	754	Plate girders, double track.....	449
Penalties.....	868	Plate girders, fabrication of.....	390
Periodicals, students' use of.....	179	Plate girders, length of.....	448
		Plate girders, limitations of.....	683
		Plate girders, methods of calculating stresses.....	430
		Plate girders, packers for.....	449
		Plate girders, shipment of.....	449
		Ploughing to prevent sliding of embankments.....	45
		Pocketbook, the making of.....	796
		Pocketbooks, in examinations.....	128
