

....Preface....

BELIEVING that there is no better place for the army of summer visitors which annually invade the shores of the great inland waters of Canada, than the beautiful Bay of Quinte and Hastings County, we seek to convey to the reader an idea of the many enjoyable trips in the fishing and hunting district of Belleville, and as far as possible demonstrate with pen and picture that nowhere else are there to be found such beautiful, such healthful and invigorating climate, such satisfying sport for rod and gun. Come and spend the summer holidays with us and your longings will be satisfied.
